

JK1201 - detachable sleeves jacket

design feature:

1. cover placket design
2. flap pockets on side front
3. slim-fit easy silhouette
4. inner layer for sleeves attachment
5. full lining
6. sleeves can be taken off for different look
7. designed for exchangeable sleeve options
8. high standard clean sewing finishing

technology benefits:

1. material using silver ion in COOLMAX® patented technology from Invista™ united states
2. eliminate to 99% bacteria
3. anti-odor
4. anti-static
5. permanent quick dry
6. highly breathable fabric

JK1202 - detachable hood and sleeves jacket

design feature:

1. cover placket design
2. removable hood
3. side pockets
4. side pleat design
5. slim-fit easy silhouette
6. inner layer for sleeves attachment
7. full lining
8. sleeves can be taken off for different look
9. designed for exchangeable sleeve options
10. high standard clean sewing finishing

technology benefits:

1. material using silver ion in COOLMAX® patented technology from Invista™ united states
2. eliminate to 99% bacteria
3. anti-odor
4. anti-static
5. permanent quick dry
6. highly breathable fabric

TP1203 - drop shoulder detachable sleeves top

design features:

1. v neck drop shoulder style
2. sharp side panel create slim look
3. easy loose fit
4. soft crepe drapery effect
5. mesh sleeves can be taken off for different look
