

TS Series  
Tables

# ABOUT

---

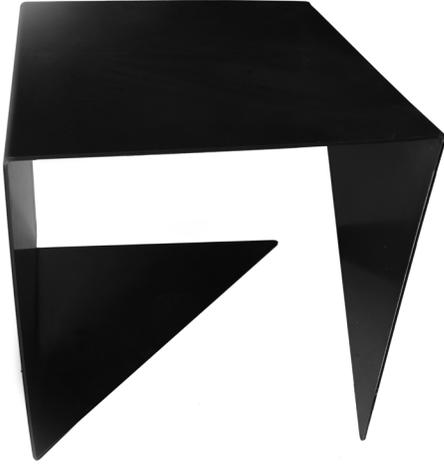

Over the last few years I've had the opportunity to explore my design sensibility and apply this vision to a series of tables that became an exercise in simple sophistication. There are three series in all, The TS series, The Treo Series and the Hi-lo Series.

This collection of origami-inspired folded steel tables is an exploration of triangles and squares and how those simple shapes can be combined and manipulated to create clean, straightforward, honest designs. Some look vastly different, while others are more first cousins, but the pieces in the collection all have the same basic dna. Thank you for taking a look.

# TS-1 SERIES

## Diag Table/Stool

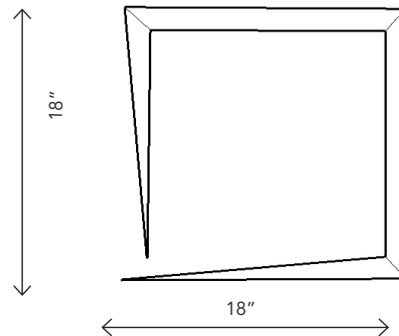

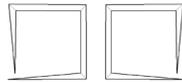

The Diag table, part of the TS-1 series, is an exercise in simple sophistication. Taking cues from the art of origami, the designer cuts and folds single sheets of steel into these eye-catching, sculptural occasional tables. Measuring 18"x18"x18", its signature elemental shape rewards the eye from every angle.

Custom sizing available

### Details

This table features:

- 3/16 cold rolled steel
- Antique Bronze powder coating
- Table/ Stool height 18"
- Indoor/Outdoor grade finish
- Design can be folded the opposite way to create a mirror image
- Design Patent Pending

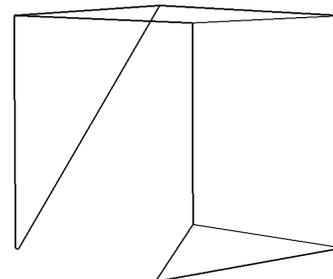

This item is manufactured in the United States by the Designer/Maker Roy Livingston

### Dimensions

18 in x 18 in x 18 in

(Width x Depth x Height )

All measurements are approximations
