## EXPERIMENTAL EXPRESSIONS

ONE and ALL is about connection, adaptability and embracing wellbeing. With cutting-edge textile technology and innovative design features, the collection is a fresh way to reimagine the future of fashion.

The collection grows from the concept that each one of us is a part of all of us. We are all connected to, influenced by and responsible for one another. That spirit of togetherness extends to our respect for the earth and how we preserve resources and minimise waste. ONE and ALL uses materials and fabric treatments that are antibacterial and antiviral, to infuse all clothing with functional, protective properties.

# ONE and ALL Collection Concept

A N N I E      L I N G

The highlight of the collection is its versatility. Employing a unique and elegant modular fashion concept with seamless and hidden attachments, pieces feature interchangeable sleeves, tops that connect to skirts to become dresses, and components that can be mixed and matched with ease. The neutral but timeless palette and stylish yet subtle silhouettes are easy to accessorise and personalise, making the collection a self-contained capsule wardrobe that offers a dozen outfits from just a few staple pieces.

Perfect for travel, or when balancing work and play, the designs enable wearers to experiment with a refreshed look every day. The components and garments allow for the creation of different levels of formality and can be reconfigured according to weather and special occasions. The inclusion of antimicrobial fabrics means clothes stay fresher for longer, which gives each outfit greater mileage and wear.

### TEST REPORT

Tests Conducted (As Requested By The Applicant)

Test Method for Antibacterial Finishes on Textile Materials (Quantitative)

Test Method: American Association of Textile Chemists and Colorists (AATCC) Technical Manual, Test Method 100-2019.

Ultraviolet sterilization of sample before test.

Test culture: *Staphylococcus aureus* (ATCC 6538)

*Klebsiella pneumoniae* (ATCC 4352)

Inoculum suspension medium: 1:20 nutrient broth with 0.05% Triton X-100

Inoculum concentration:  $1-3 \times 10^8$  CFU/mL

Test specimen: 1.0g (4 pieces of circular swatches 4.8cm in diameter) and apply 1mL inoculum per trial

Neutralizing solution: Lethen Broth

Contact time: 24 hours

Incubation temperature: 37°C

Incubation period: 48 hours

Agar medium: Nutrient agar

#### Result:

Name of Tested Bacteria (Strain Number)	<i>Staphylococcus aureus</i> (ATCC 6538)	<i>Klebsiella pneumoniae</i> (ATCC 4352)
Initial count	$1.02 \times 10^8$ CFU/mL	$1.06 \times 10^8$ CFU/mL
The number of bacteria recovered from the inoculated tested sample swatches immediately after inoculation ("0" contact time) (B)	$1.42 \times 10^7$ CFU/Sample	$1.40 \times 10^7$ CFU/Sample
The number of bacteria recovered from the inoculated tested sample swatches incubated over 24 hours contact period (A)	<100 CFU/Sample	<100 CFU/Sample
Percent reduction of Bacteria (R)	99.9%	99.9%

## CERTIFICATE

### The company

is granted authorization according to STANDARD 100 by OEKO-TEX® to use the STANDARD 100 by OEKO-TEX® mark, based on our test report SH050 159719.4

for the following articles:

Commission dyeing and printing: Woven fabric made of 100% CO, CO/EL, CO/LI, CO/Lyocell/EL, CO/CV/EL, CO/PA/EL, CO/PES/EL, semi-bleached, piece-dyed or printed (reactive, vat, acid, disperse dyestuffs or pigment) and finished

The results of the inspection made according to STANDARD 100 by OEKO-TEX®, Annex 4, product class I have shown that the above mentioned goods meet the human-ecological requirements of the STANDARD 100 by OEKO-TEX® presently established in Annex 4 for baby articles.

The certified articles fulfil requirements of Annex XVII of REACH (incl. the use of azo colourants, nickel release, etc.), the American requirement regarding total content of lead in children's articles (CPSIA, with the exception of accessories made from glass) and of the Chinese standards GB 18401:2010 (labelling requirements were not verified).

The holder of this certificate, who has issued a conformity declaration according to ISO 17050-1, is under an obligation to use the STANDARD 100 by OEKO-TEX® mark only in conjunction with products that conform with the sample initially tested. The conformity is verified by audits.

The certificate SHMO 108282 is valid until 15.12.2020

# Brand Introduction

A N N I E      L I N G

## **Timeless with a Twist**

Driven by the desire to unite fashion and craftsmanship with technology elements, designer Annie Ling started her own collection in 2015.

Inspired by a new age of active living and cutting-edge textile innovations, her collections are committed to designing enduring clothing that supports wellbeing.

Annie integrates fun and unexpected details with practical technology elements into the designs. These unique combination differentiate her from other clothing in the market. Annie's fashion clothing are effortlessly stylish, highly versatile and wearable every day.

# Mission

A N N I E L I N G

The collection ONE and ALL combines  
technology inspired elements  
focusing in eclectic timeless designs

**offer freshness and practical ideas  
to improve upon traditional clothing**

**new clothing experience**

# Designer Biography

A N N I E      L I N G

Designer Annie Ling sees fashion as a powerful form of personal expression. She studied fashion design in high school in Vancouver before continuing with Fashion Design and Technology at Kwantlen University College, Canada. After obtaining a master's degree in business administration from the university of Leicester in the United Kingdom, she launched her collection in 2016.

She likes simple designs with unexpected details. The quality of such elements is often reflected on her work. She designs for people with a lifestyle, who are self-assured, out-going and young at heart.
