*Long battery life*

*Solar charging panel*

## APP Control to Bring Infinite Possibilities

This camping lamp is designed with RGB color light and cold and warm white light in the sphere, which has both eye protection and lighting functions. It can also be controlled and adjusted through the independently developed mobile phone APP, resulting in unlimited playability. A variety of light effects are preset, and the color adjustment function is provided. The color temperature can be adjusted from 2700K to 6500K. Different brightness can be adjusted for different scenes and needs, bringing visual enjoyment. Add fun when gathering for recreation, water entertainment and camping in the suburbs.

## Human-centered Handle

The handle has a 90 ° limit, making it easy to carry while reducing the size of the outer package. When not in use, it can be turned back to completely hide it. The handle is ergonomically designed and easy to grasp. Damping is added in the overturning process to effectively prevent users from shaking during lifting.

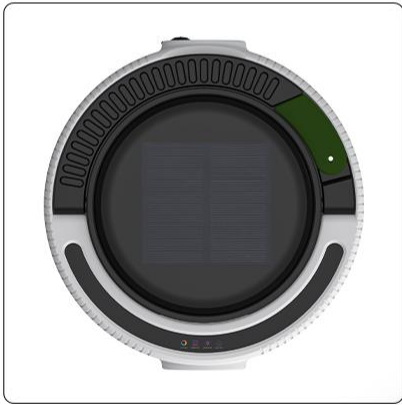

---

## Solar Charging & Long Battery Life

Because of its low power consumption, the built-in high-performance 18650 lithium battery can be used for 24 hours at a time, and the ultra-long endurance makes you travel without worry. With solar charging panels, users can enjoy high-tech and fashionable life without worry no matter whether it is sunny or cloudy.

---

## Minimalist Appearance – Light and Easy to Carry

The small and compact product adopts an integrated shape with simple and clear lines in the round and soft shape. The design as a whole adheres to the ergonomics principle with a comfortable touch to create a clever distribution of functional parts and light. This light and portable product is ideal for outdoor camping for the perfect balance between form and function, highlighting the minimalist style.
