

They have now been joined by more shapes. They line up alongside a dice image. Can you find out which shape matches which dice image on the following page?

“Lilani look, it’s all about the number four here too: always four of the same letter in a row or four from top to bottom. Can you find four the same in a row?,” asks Alex.

“The same letter and yet so different,” marvels Lilani. “The dotted L for me and the line L for Lilani. That’s fantastic,” says Alex happily.

“The two long lines lean against each other to create a point and the short line slips between them,” explains the dotted A. “The line A looks a lot like a triangle!,” calls Lilani.
