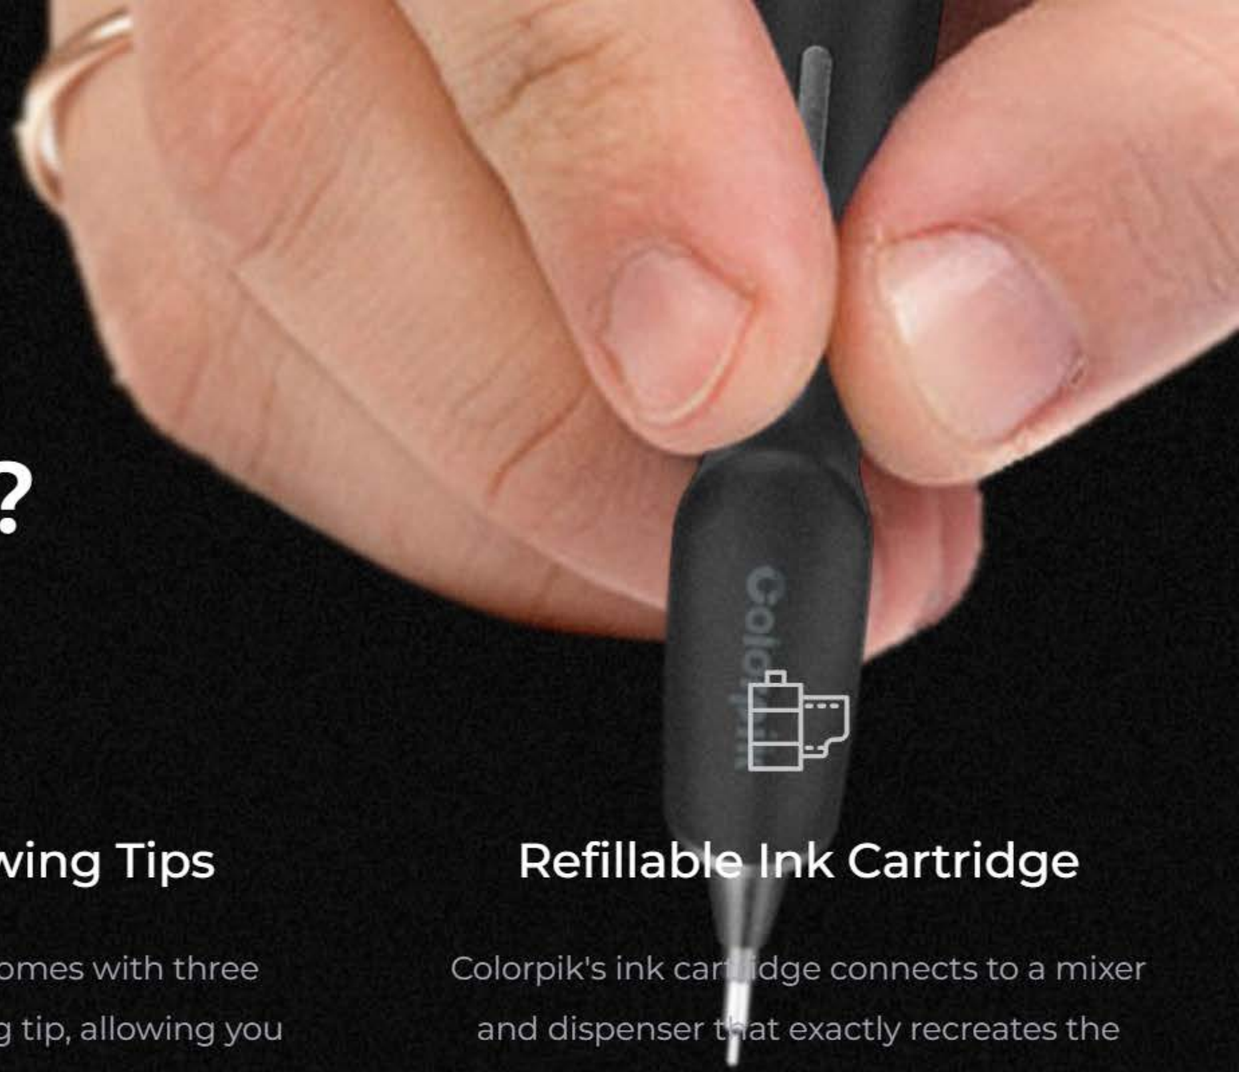
Unlimited Colors

Now the World is Your Palette

Easy to use and comfortable to work with, Colorpik pen puts all the colors of the world in your hands. Scan any color and start drawing or writing with it instantly. Colorpik pen stores your colors too, so you can upload, share and use them wherever, whenever you want.

Revolutionary

How does Colorpik Work?



RGB Color Sensor

The built-in color sensor lets you easily capture any color – simply point it at an object or surface and press the button! Draw or write with it right away, or save it to sync with your mobile devices.

Multiple Drawing Tips

The Colorpik Ink Pen comes with three different sizes of drawing tip, allowing you the freedom to express yourself as neatly or boldly as you like. Colorpik is perfect for both drawing and accurate writing.

Refillable Ink Cartridge

Colorpik's ink cartridge connects to a mixer and dispenser that exactly recreates the color you have scanned. Each cartridge comes with 30 miles of ink, and new cartridges cost $25!

The Last Pen You'll Ever Need to Buy

Smart Ink

Colorpik technologically advanced ink is lightfast and water-resistant – no matter the weather, it won't fade away.

Rechargeable Battery

Charged quickly via micro-USB cable, Colorpik lightweight, lithium-ion battery gives you 15 hours of unlimited creating power.

Cross-Platform Compatibility

You can easily transfer your custom and captured colors into Photoshop or CorelDRAW, for use in all your projects.
