# A Cubic Bed Net That Can Stand Up Securely On Your Bed

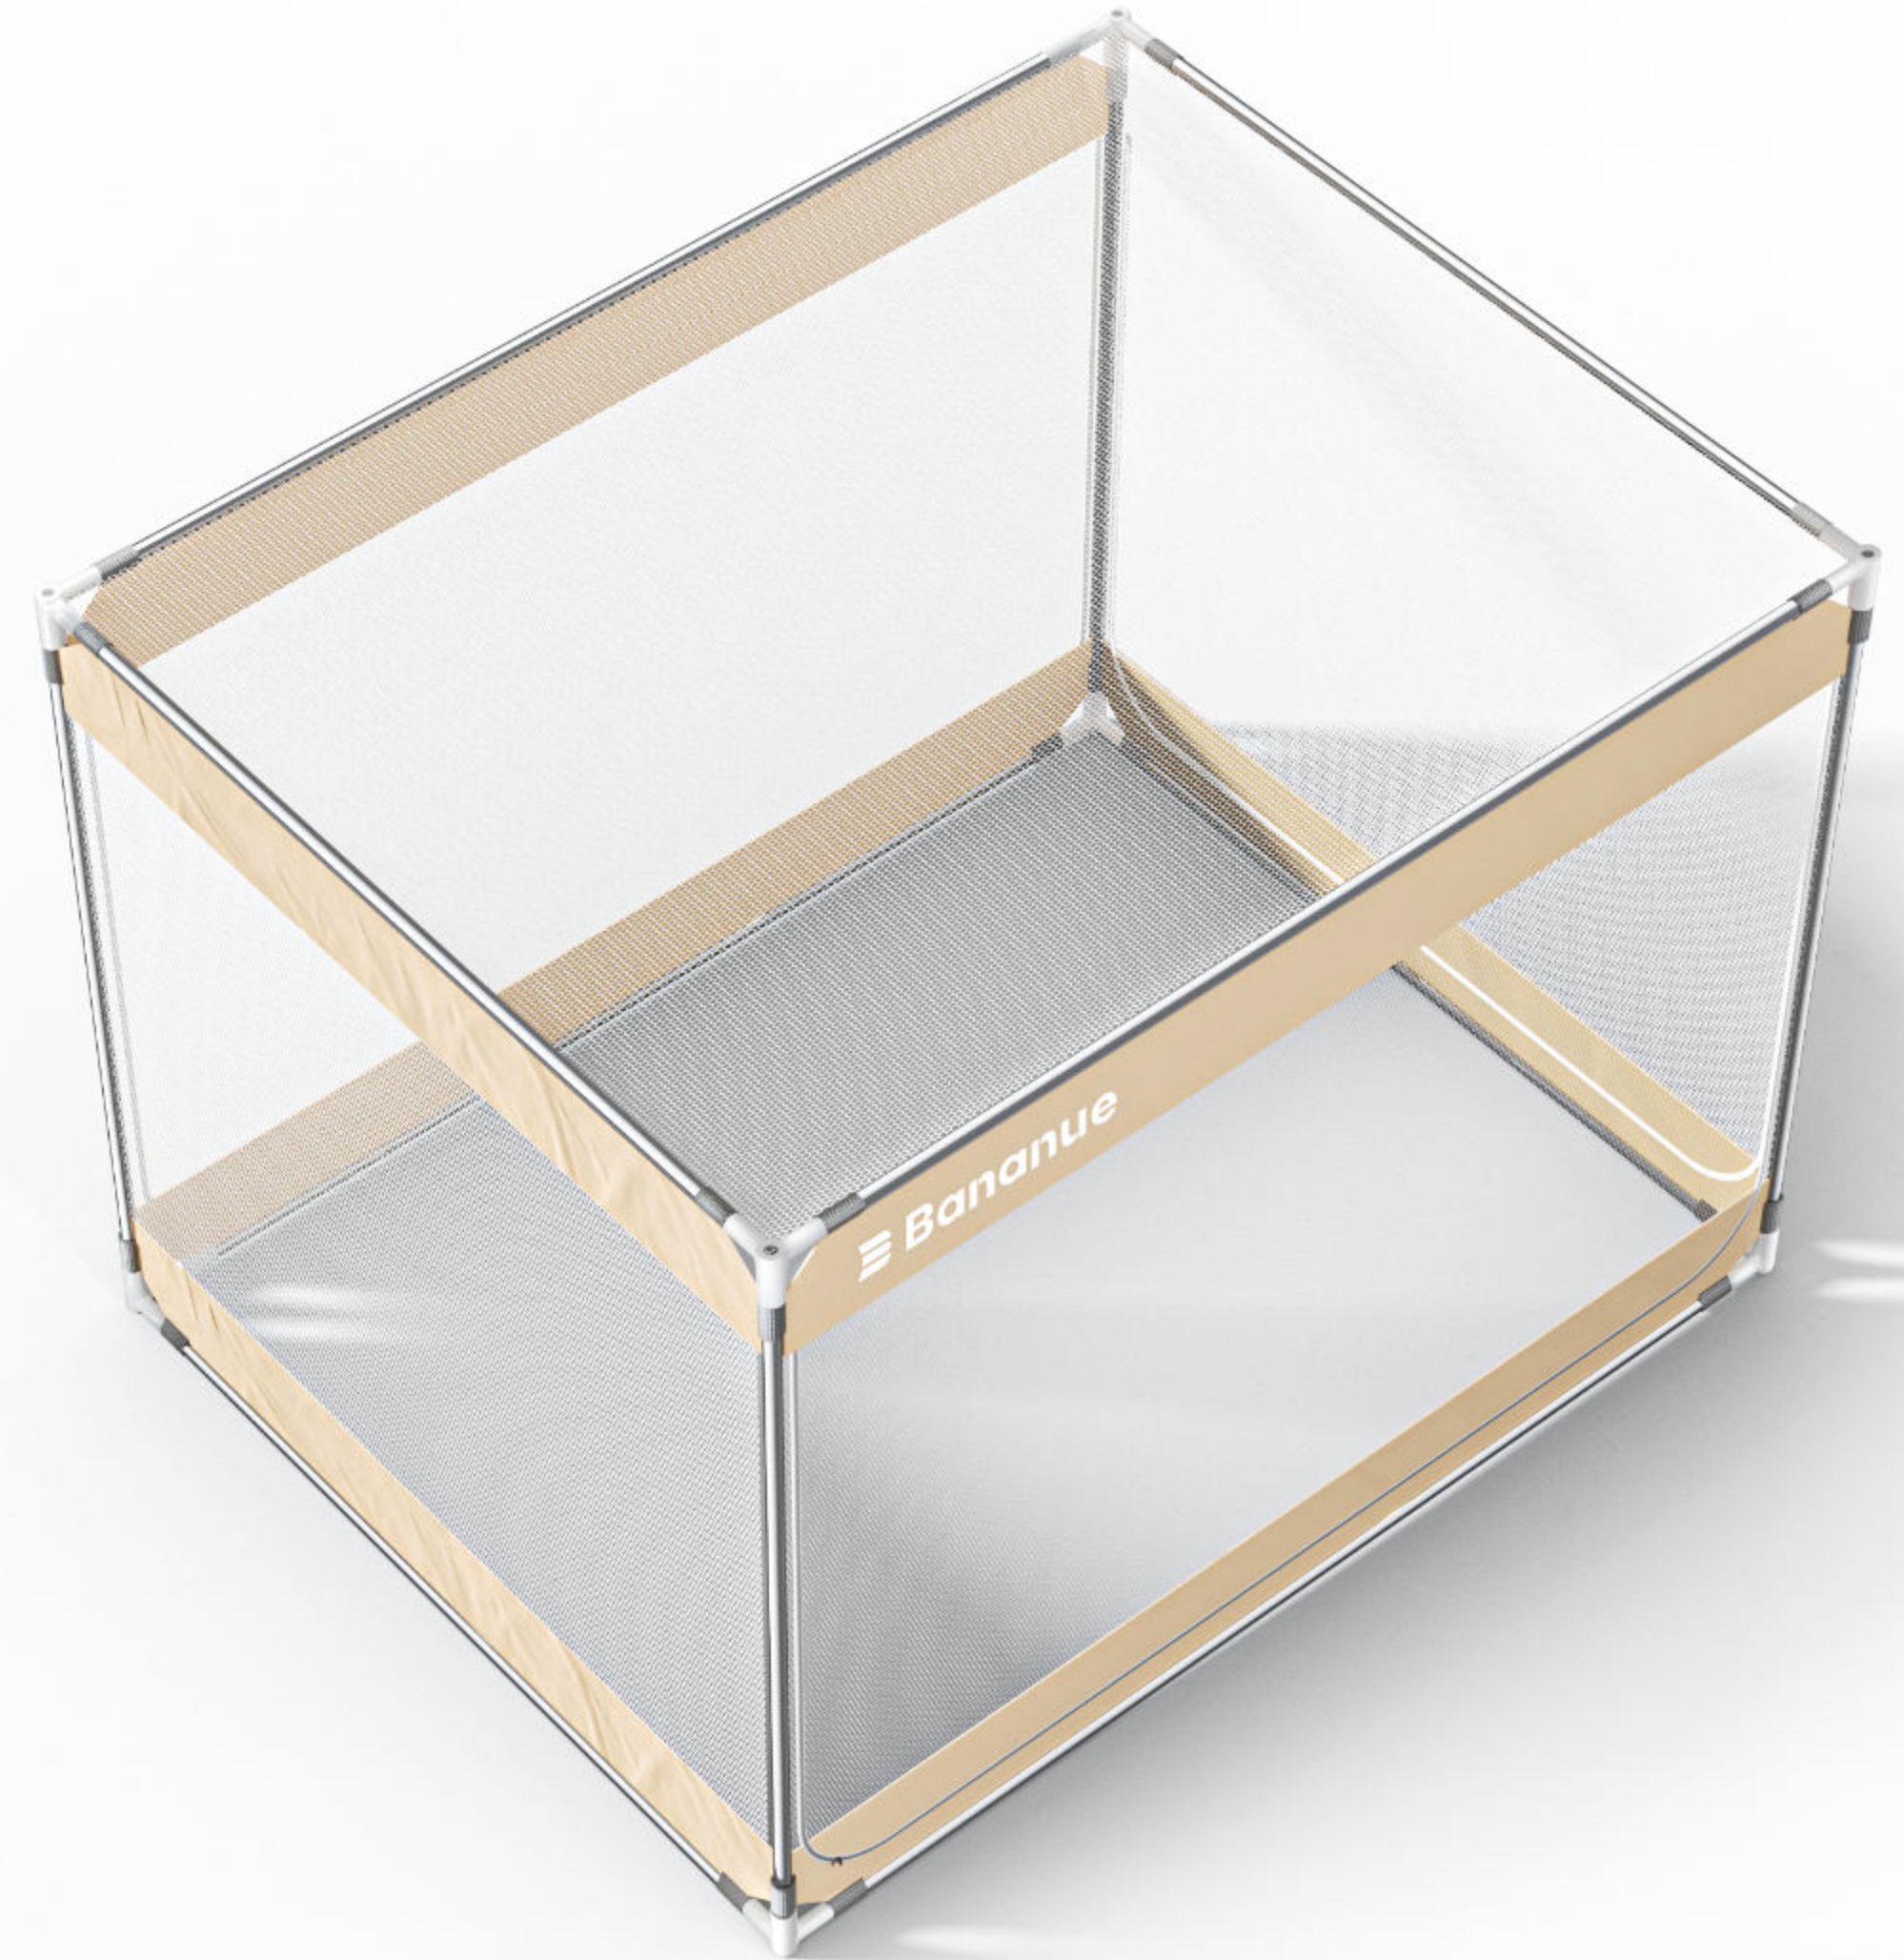

This bed net looks like a cube which can stand on your bed securely. Supported by a durable frame, it is easy to set up. You can enjoy a super comfortable sleep with this bed net, since it can effectively block away the mosquitoes by the fine mesh and anti-insect fabric at the bottom. There are four strong bands attached to each bottom corner of the cube which can be fastened to the mat corners firmly. It has storage pockets inside, conveniently for storing little items. Also, there are small openings at the front and back side for charging cables. And the tiebacks at the top can hold the net drape when the net is not in use. The three openings are equipped with two-way zippers endowing great convenience.

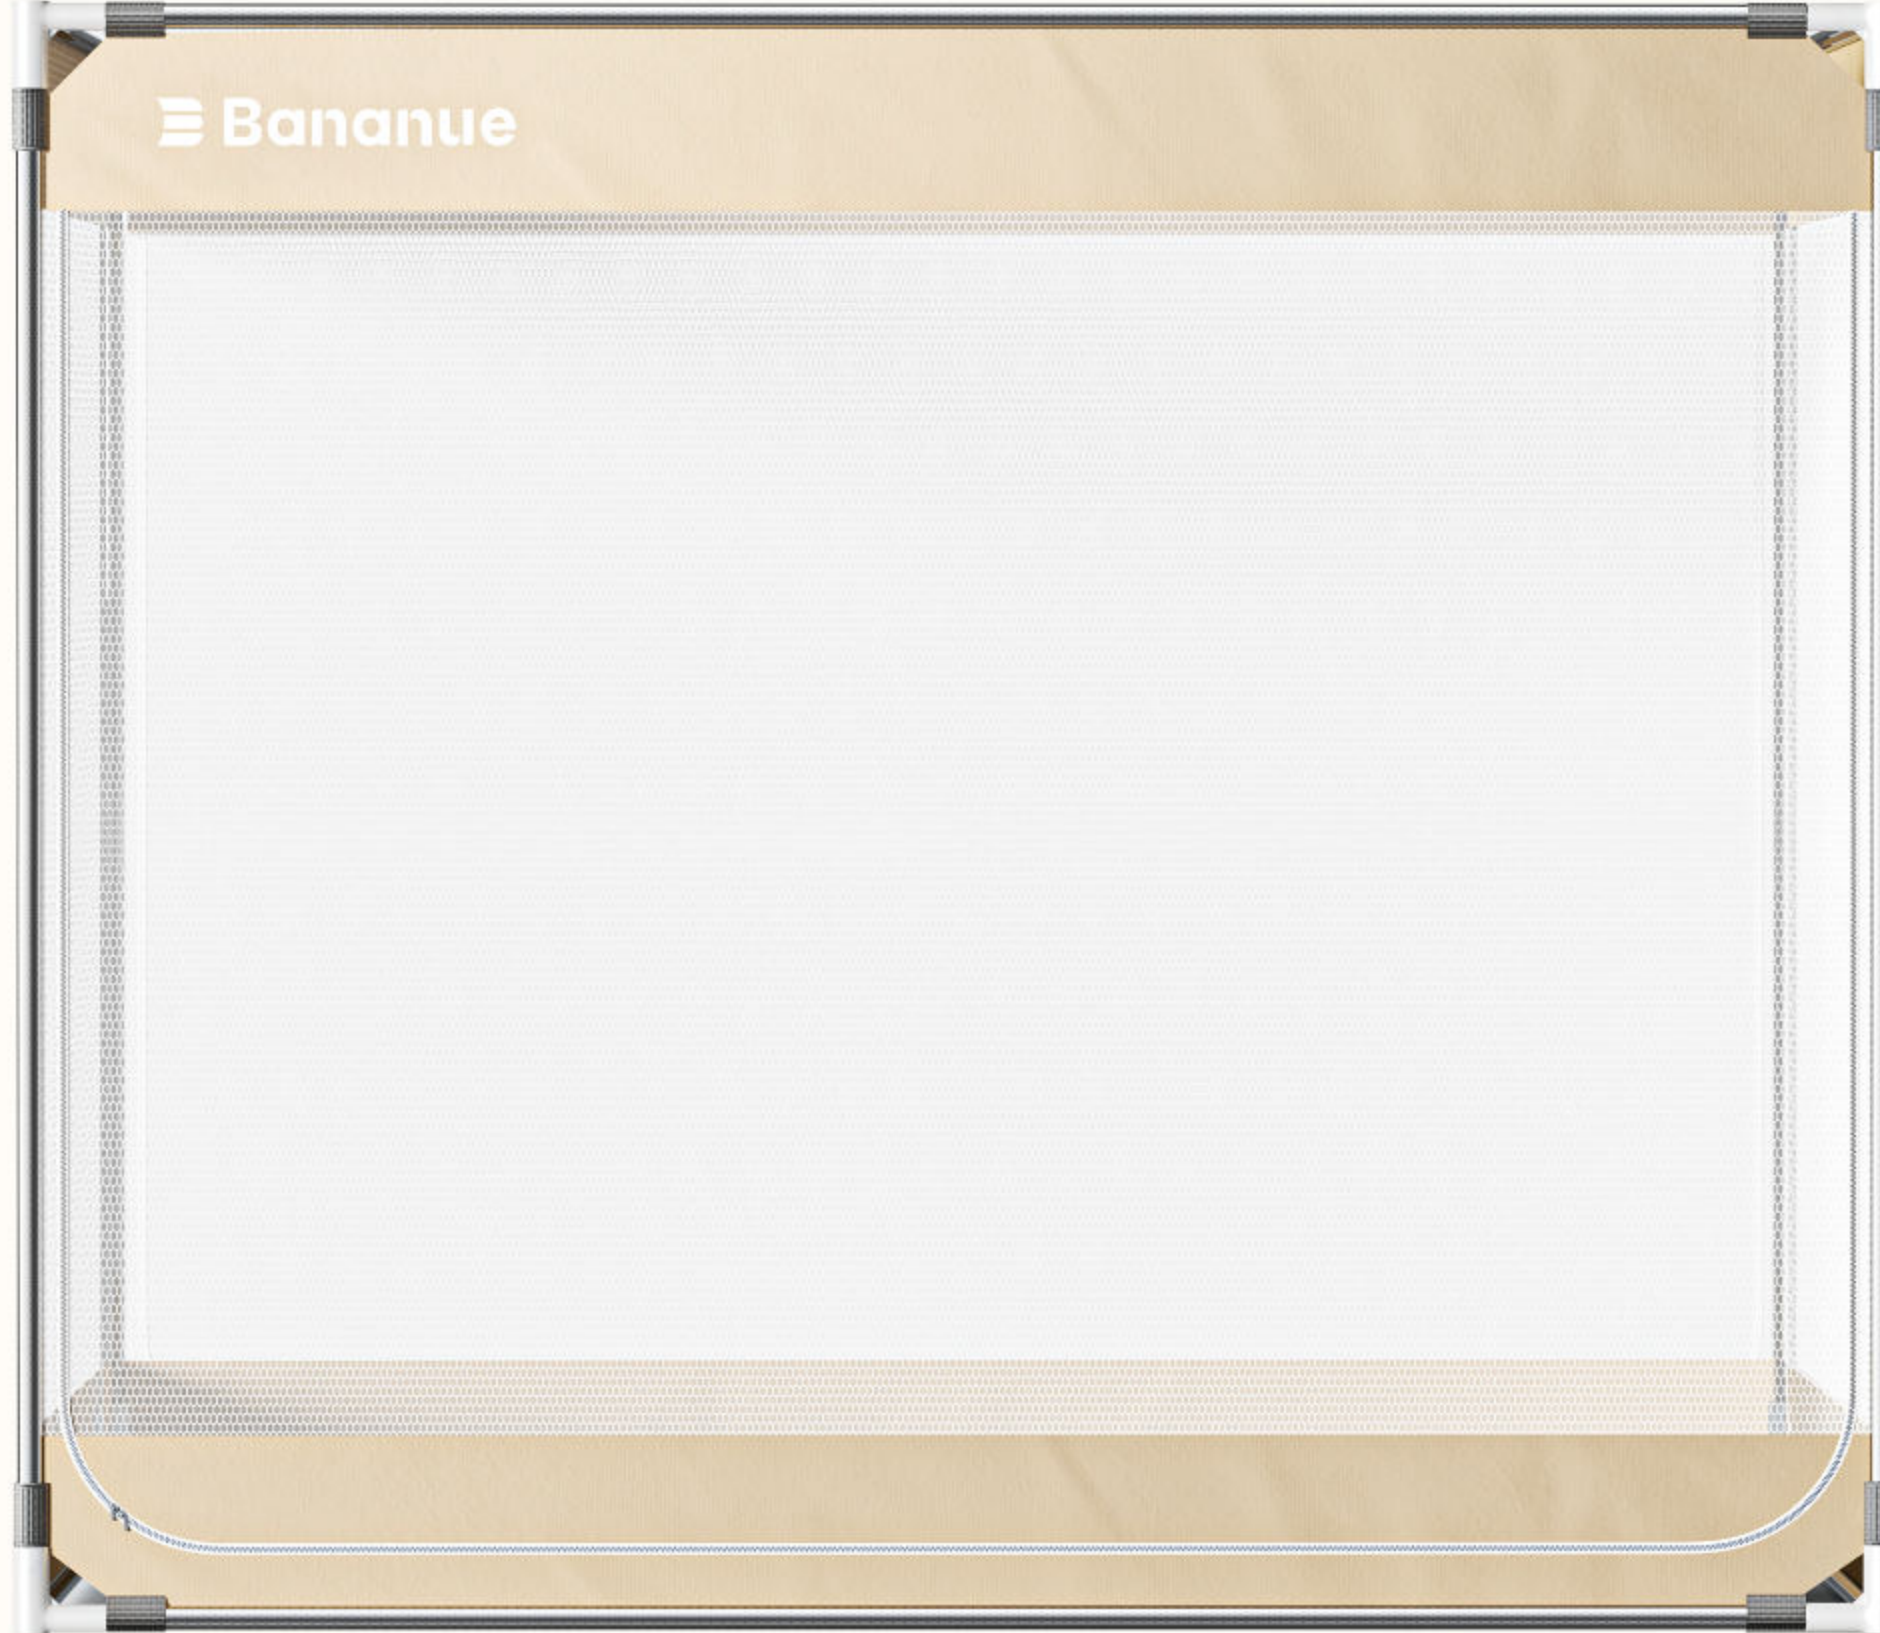

Sturdy mosquito net Frame

Net Mesh & Anti-mosquito Lining

## Unique Mesh & Anti-mosquito Lining Design Preventing Mosquitoes & Other Insects

This bed net is composed of two parts which are the mesh and the anti-mosquito lining at the bottom. The net is tightly woven to prevent even tiny mosquitoes from passing through. The mesh is light yet dense of holes. Put a Chinese coin on the net, you can count about 24 holes on the diameter line. And the lining at the bottom is skin-friendly. This design can protect you from being bitten even if you touch the net during sleep. And it also enlarges the room of the net, enabling a more comfortable stay inside.

Anti-mosquito Lining

Effective mosquito control

## User-friendly Designs Meeting Daily Needs

This bed net adopts three openings which means you can enter or exit from three sides of the bed, bringing you great convenience. It is also equipped with drape tiebacks, two-way zippers, fastening bands, storage pockets, and charging cable openings. These details are tiny yet very practical. They aim to tackle all the basic problems you may meet when in bed, thus offering excellent user experience.

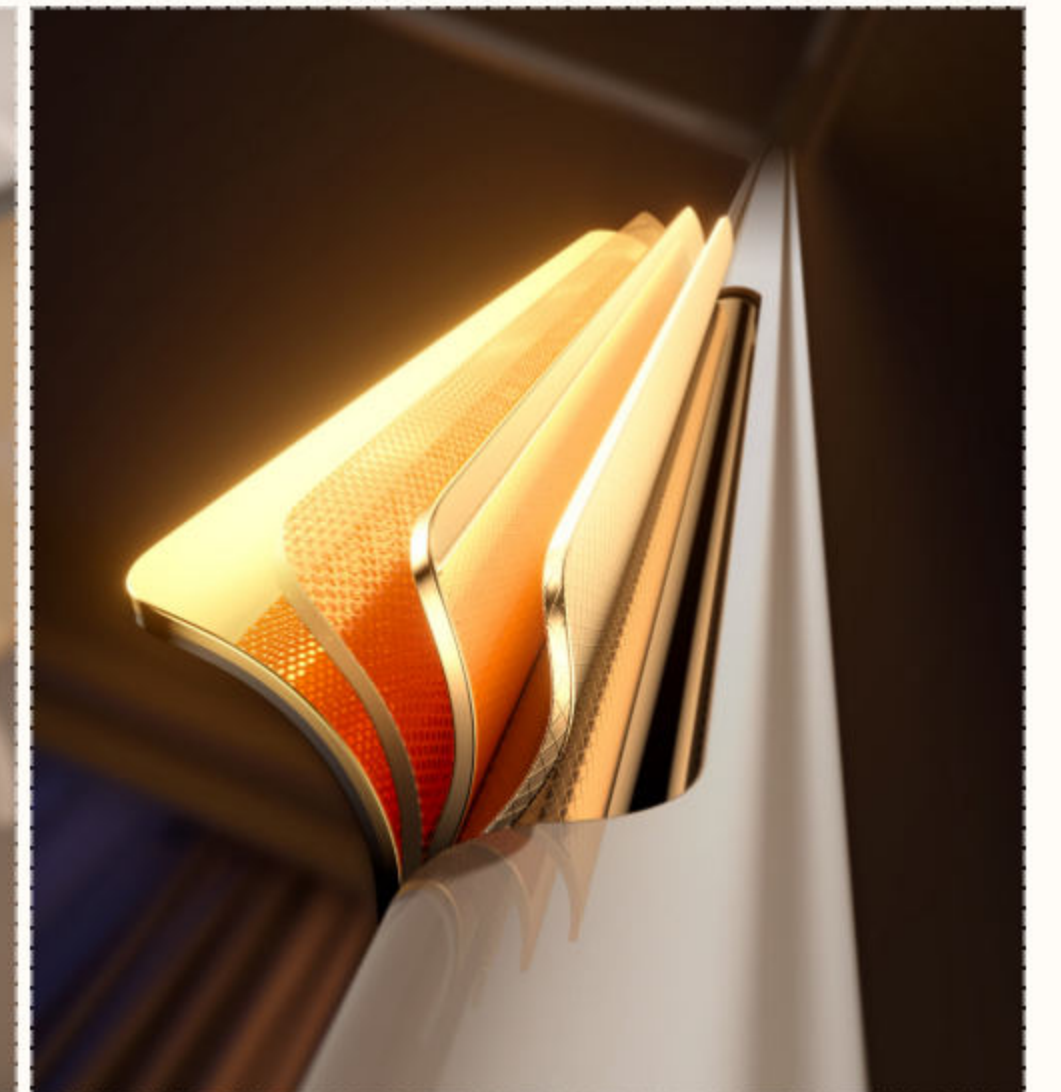

## Easy-to-set Frame Bars Ensuring Durability & Stability

The bed net can exempt you the worry of lacking supporting poles or hangers, since there is a easy-to-set frame attached. You can set up the cube easily just using the three-way fittings. And the frame is composed of consolidated bars which are stronger and more durable.

Easy-to-set Frame

Strong and durable

## Quality Materials Providing Quality User Experience

Adopting polyester 50D, the whole net is highly impact-resistant, meaning that it can prevent you from falling out of the bed. The anti-mosquito cloth at the bottom is made of poly twill lining which is safe and skin-friendly. It boasts a super soft touch. The frame bars coated with baked finish are enduring and degradable. They can be used for a long time and will cause no damage to the environment.

All the materials are free of FWA, perfect for babies and mothers.
