

On the bed
and pull all the corners at the same time

Each condom is individually tested with precise electrostatic technology to maximize dependability. No contraceptive provides 100% protection. However, if properly used, latex condom will help prevent pregnancy and reduce the risk of transmission of sexually transmitted infections. This condom is made of natural rubber latex. Deteriorated condom should be destroyed. Use a new condom for each act of intercourse. Before using any condom, please make sure to read the instruction carefully.

Nominal Width: 52±2mm

Store condom in cool & dry place. Avoid exposure to direct sunlight & mechanical damage.

If an additional lubricant is desired, use the correct type of lubricant which is recommended for using with condoms. Avoid contact of oil-based lubricants, such as petroleum jelly, baby oil, body lotions, massage oil, butter, margarine, etc.
