

BIKY

THE FUTURE OF
CHILD MOBILITY

Problem

In the U.S., over 188,500 bicycle are stolen, and 460,000 children go missing each year

Innovative solution

Our balance bike comes with a GPS Tracker and Parental Control App, so you can always know where your balance bike is

MORE CALM

no

Problem

It's hard to see children on balance bikes, especially in the dark or when it's foggy

Innovative solution

Bright LED lights ensure that drivers can see your child clearly

MORE SAFETY

nr

Problem

Electrical devices often run out of power and require charging or battery replacement

Innovative solution

Our balance bike charges while you ride.
No more charging all the time

MORE COMFORT

Problem

Most children balance bikes are just plain and not fun

Innovative solution

Our balance bike has a magic spinning wheel and color-changing lights that kids can play with

MORE FUN

EVEN MORE DETAILS

Stay Connected

Track your balance bike anywhere with GPS and mobile networks

Long Battery Life

Self-charging mechanism helps to save energy

Safe Zones

Receive notifications when your balance bike leaves selected safe zones

Stay Close

If your child moves too far away, your phone will notify you

Waterproof

Rain is no problem, our balance bike is waterproof

Child-friendly

Lightweight and ergonomic design for kids
