

FJbottle Sport Bottle

Excellent Design, Environmental Concept, New Trend in Sports Lifestyle

- FJbottle Sport Bottle is meticulously crafted to strike a perfect balance between practicality, ergonomic comfort, and environmental responsibility.

- Its special exterior craftsmanship not only makes the bottle body wear-resistant and durable, but also fashionable.

- Its innovative slanted lid design enables effortless sipping without tilting, enhancing the user experience significantly. The rounded body design fits hand holding well, while the handle and strap design makes it easy to be carried out.

- Committed to safety and eco-friendliness, all materials employed are certified food-grade. FJbottle Sport Bottle is undoubtedly the ideal choice for outdoor enthusiasts.

Innovative Craftsmanship Merging with Style, Refreshing Drinking Experience

- *It's lid employs innovative TPU dual-color encapsulation technology, skillfully blending colorful and fashionable elements, endowing the product with unique visual charm.*
- *The surface treatment of the bottle body adopts environmentally friendly powder coating technology, free from BPA components, upholding health and environmental standards.*
- *Pioneering the spray coating process typically used in outdoor sports equipment into bottle manufacturing not only significantly enhances durability but also ensures colors stay vibrant, injecting lasting assurance into your drinking experience.*

 *Adopts environmentally friendly powder coating technology*

Dual-mouth design

Thoughtful design, Comfortable and Convenient Drinking Experience

- FJbottle Sport Bottle excels not just in aesthetics and craftsmanship, but also in meticulous design details, committed to delivering a comfortable and convenient experience for consumers. The overall design of the sports bottle is rounded, ergonomic, and comfortable to hold.
- With its dual-mouth design, the wide mouth allows for quick cleaning and easy insertion of ice cubes and beverages, while the small drinking mouth ensures elegance and convenience during use.
- Additionally, the bottle is equipped with both a plastic handle and a detachable strap for easy carrying, demonstrating thoughtful consideration for users.

• Two carrying options: a handle and a strap

Sloped Lid and Magnetic Suction Design: A New Era of Effortless Drinking

- *The bottle lid features a thoughtfully designed sloped edge that allows users to drink effortlessly without tilting their heads back. This adjustment better aligns with ergonomic principles, enhancing user comfort.*
- *The lid is equipped with a magnetic suction function, ingeniously preventing accidental lid dropping during drinking and avoiding collisions with the nose, ensuring a smoother and worry-free drinking experience.*
- *To ensure the bottle's sealing and leak-proof performance, special threading is applied inside the small screw cap, ensuring complete sealing and alleviating any concerns about leakage.*

• *Magnetic suction function*

• *Threading design applied*

Made from Tritan (a baby-bottle-grade material)

Dual-material Premium Choice, Ensuring Drinking Safety

- FJbottle Sport Bottle offers two premium bottle body materials – stainless steel and plastic, catering to your diverse needs across various occasions.
- The stainless steel one is crafted from food-grade SUS304, ensuring safety, durability, and both heat and cold retention. The plastic one is made from Tritan, a baby-bottle-grade material known for being odorless, lightweight, and eco-friendly.
- For the lid, a special PP+TPU dual-color coating process is used, not only enhancing the appearance but also the grip comfort. All materials meet food-grade standards and are BPA-free, ensuring your drinking safety in daily life.

Made from food-grade SUS304

Eco-Friendly Choice, Safeguarding the Future of Our Planet

- The food-grade materials used in Feijian Sports Bottle not only ensure the high quality of the product and user health but also emphasize the importance of recycling, reducing dependence on disposable plastic products.
- FJbottle Sport Bottle is not only recyclable but also partially biodegradable, further reducing its environmental impact, contributing to the maintenance of ecological balance.
- Meeting international hygiene and safety standards for drinking utensils, Feijian Sport Bottle stands as an ideal choice for those pursuing a sustainable lifestyle.
