

Sage

Passing wisdom to the next generation

Major challenges in after-retirement lives

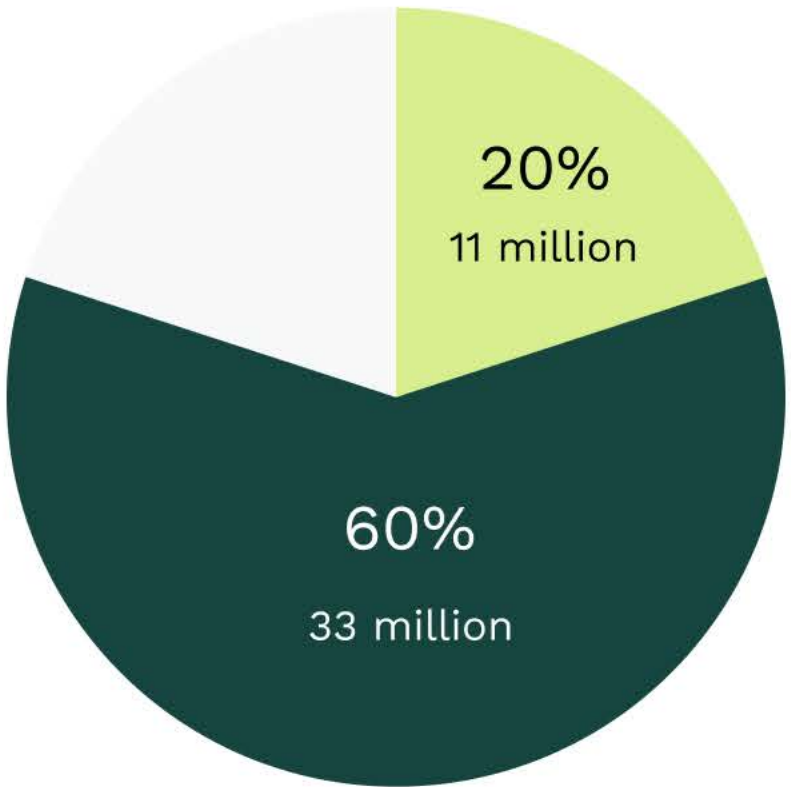

1

Financial insecurity

The cost of care is high, and seniors lack sufficient resources

Of people age 60+

- Do not possess any assets to rely on as they grow older and require assistance
- Lack the financial means to afford long-term care services or unexpected financial challenges

2

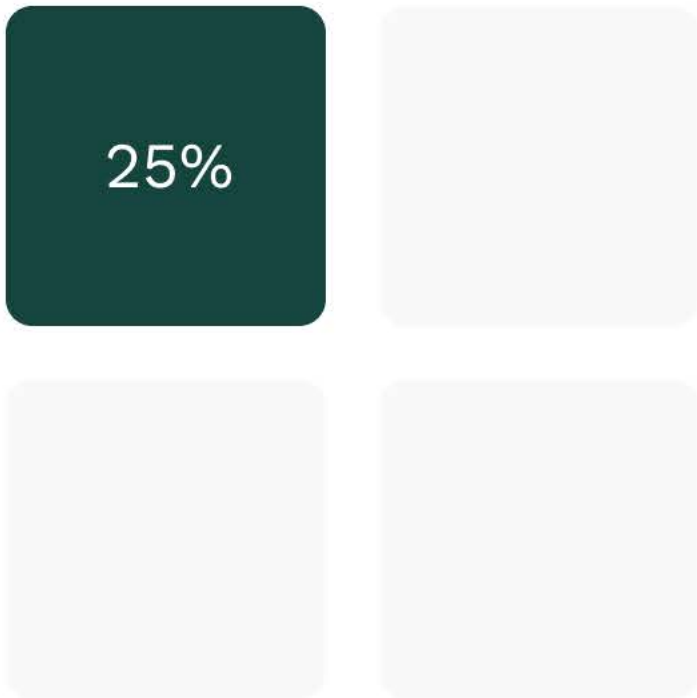

Social isolation

Seniors are more prone to be socially isolated and/or experience loneliness

Of people age 65+

- Considered to be socially isolated

Older adults, living alone or facing loss, chronic illness, or hearing loss, are at increased risk of social isolation and loneliness.

After-retirement job preference and social lives

34 Senior participants

- Aged 65 and above
- Who are seeking employment

answered questions about their **job preferences** after retirement and **social lives**.

Why job seeking?

To maintain their quality of life and to achieve better financial stability.

Social lives

Seeking new communities & alone time has been increased.

Skillsets

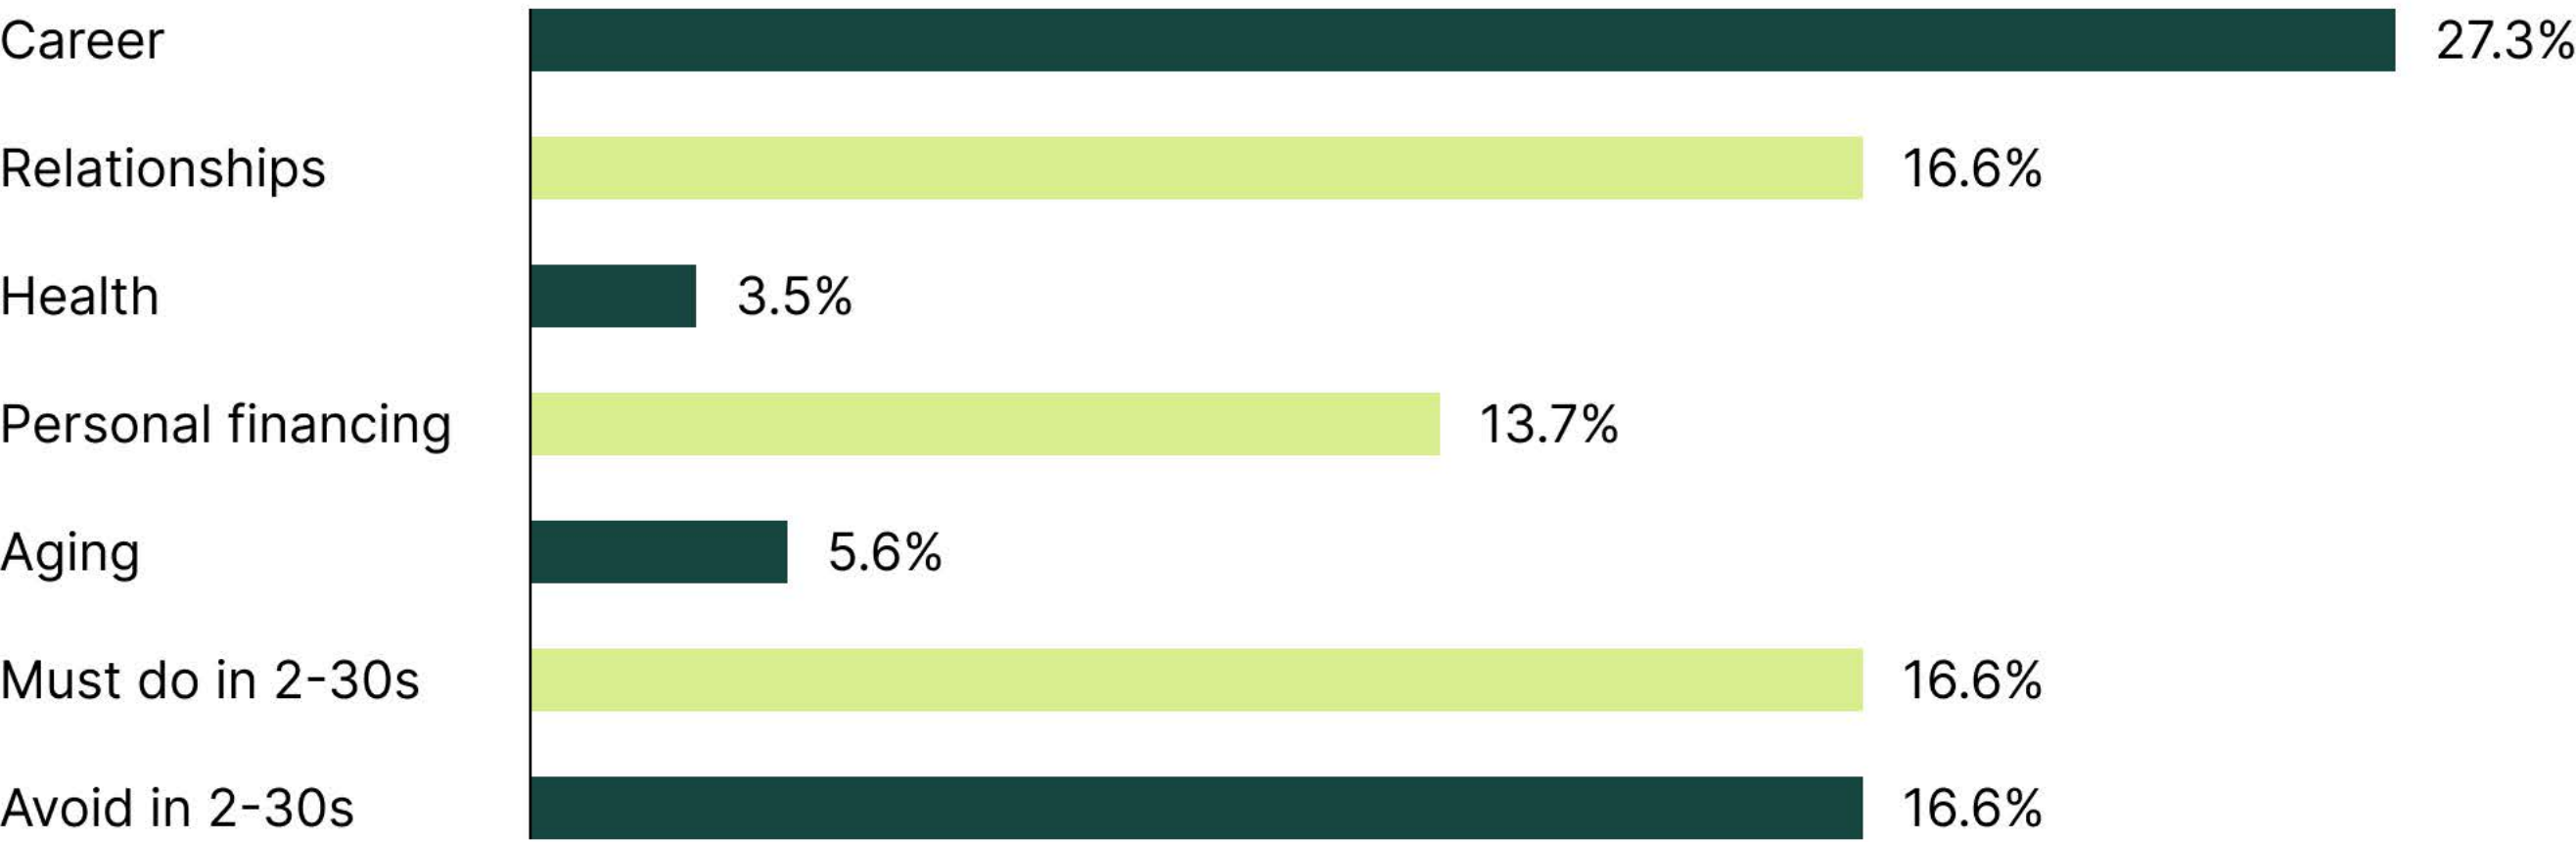

85% of participants answered they have more than 30 years of expertise and experience.

It varies from career advice, relationships, wealth management, health, activity recommendations, family planning, and more.

Demand survey on target audience, young adults

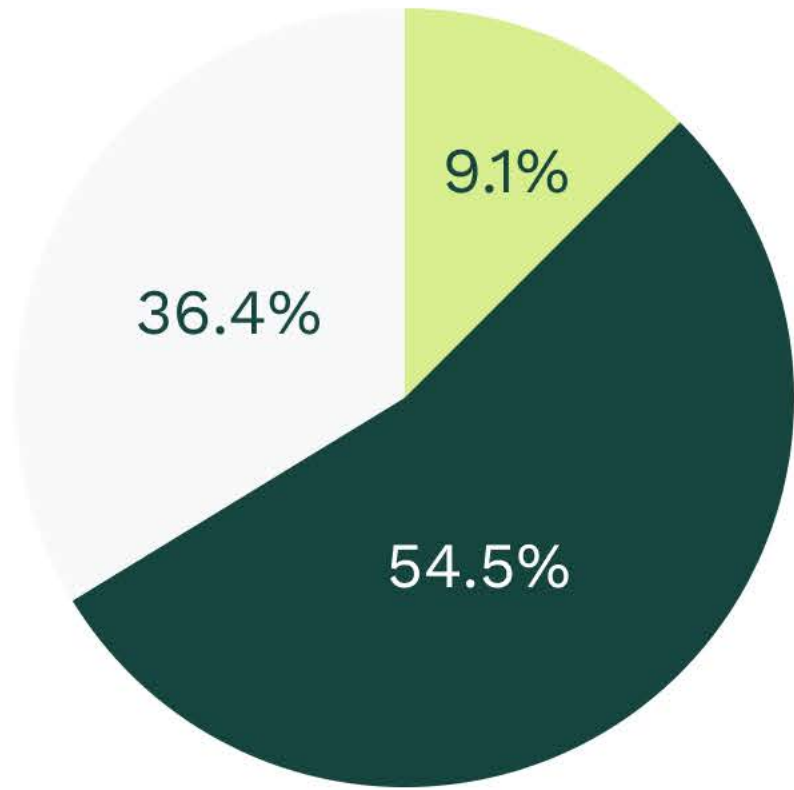

51 young adult participants in their 20-30s answered questions about their preferences in mentorships.

Topics that younger generations want to get advice on...

Would be great if mentors...

- Have sufficient expertise in the domain
- Be socially successful
- Have hands-on experience in the domain

*Seniors face issues such as **financial insecurity** from inadequate retirement savings and **social isolation** stemming from loss of connections and mobility limitations.*

*How can we provide **age-friendly job opportunities** for job-seeking **seniors** to sustain their quality of life **after retirement**?*

Mentors

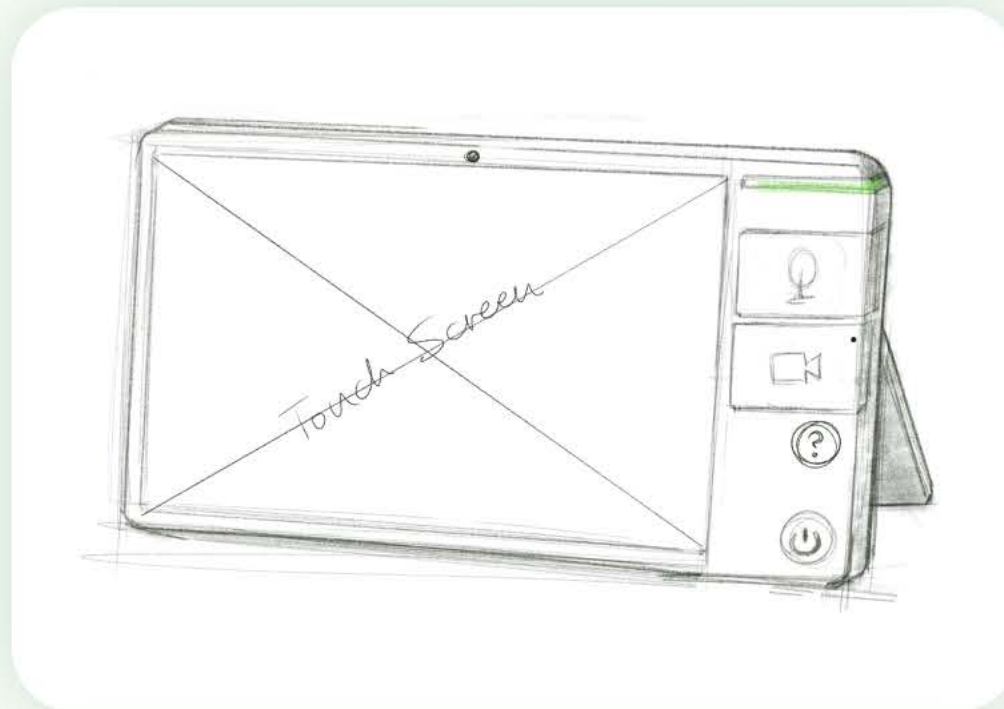

Mentees

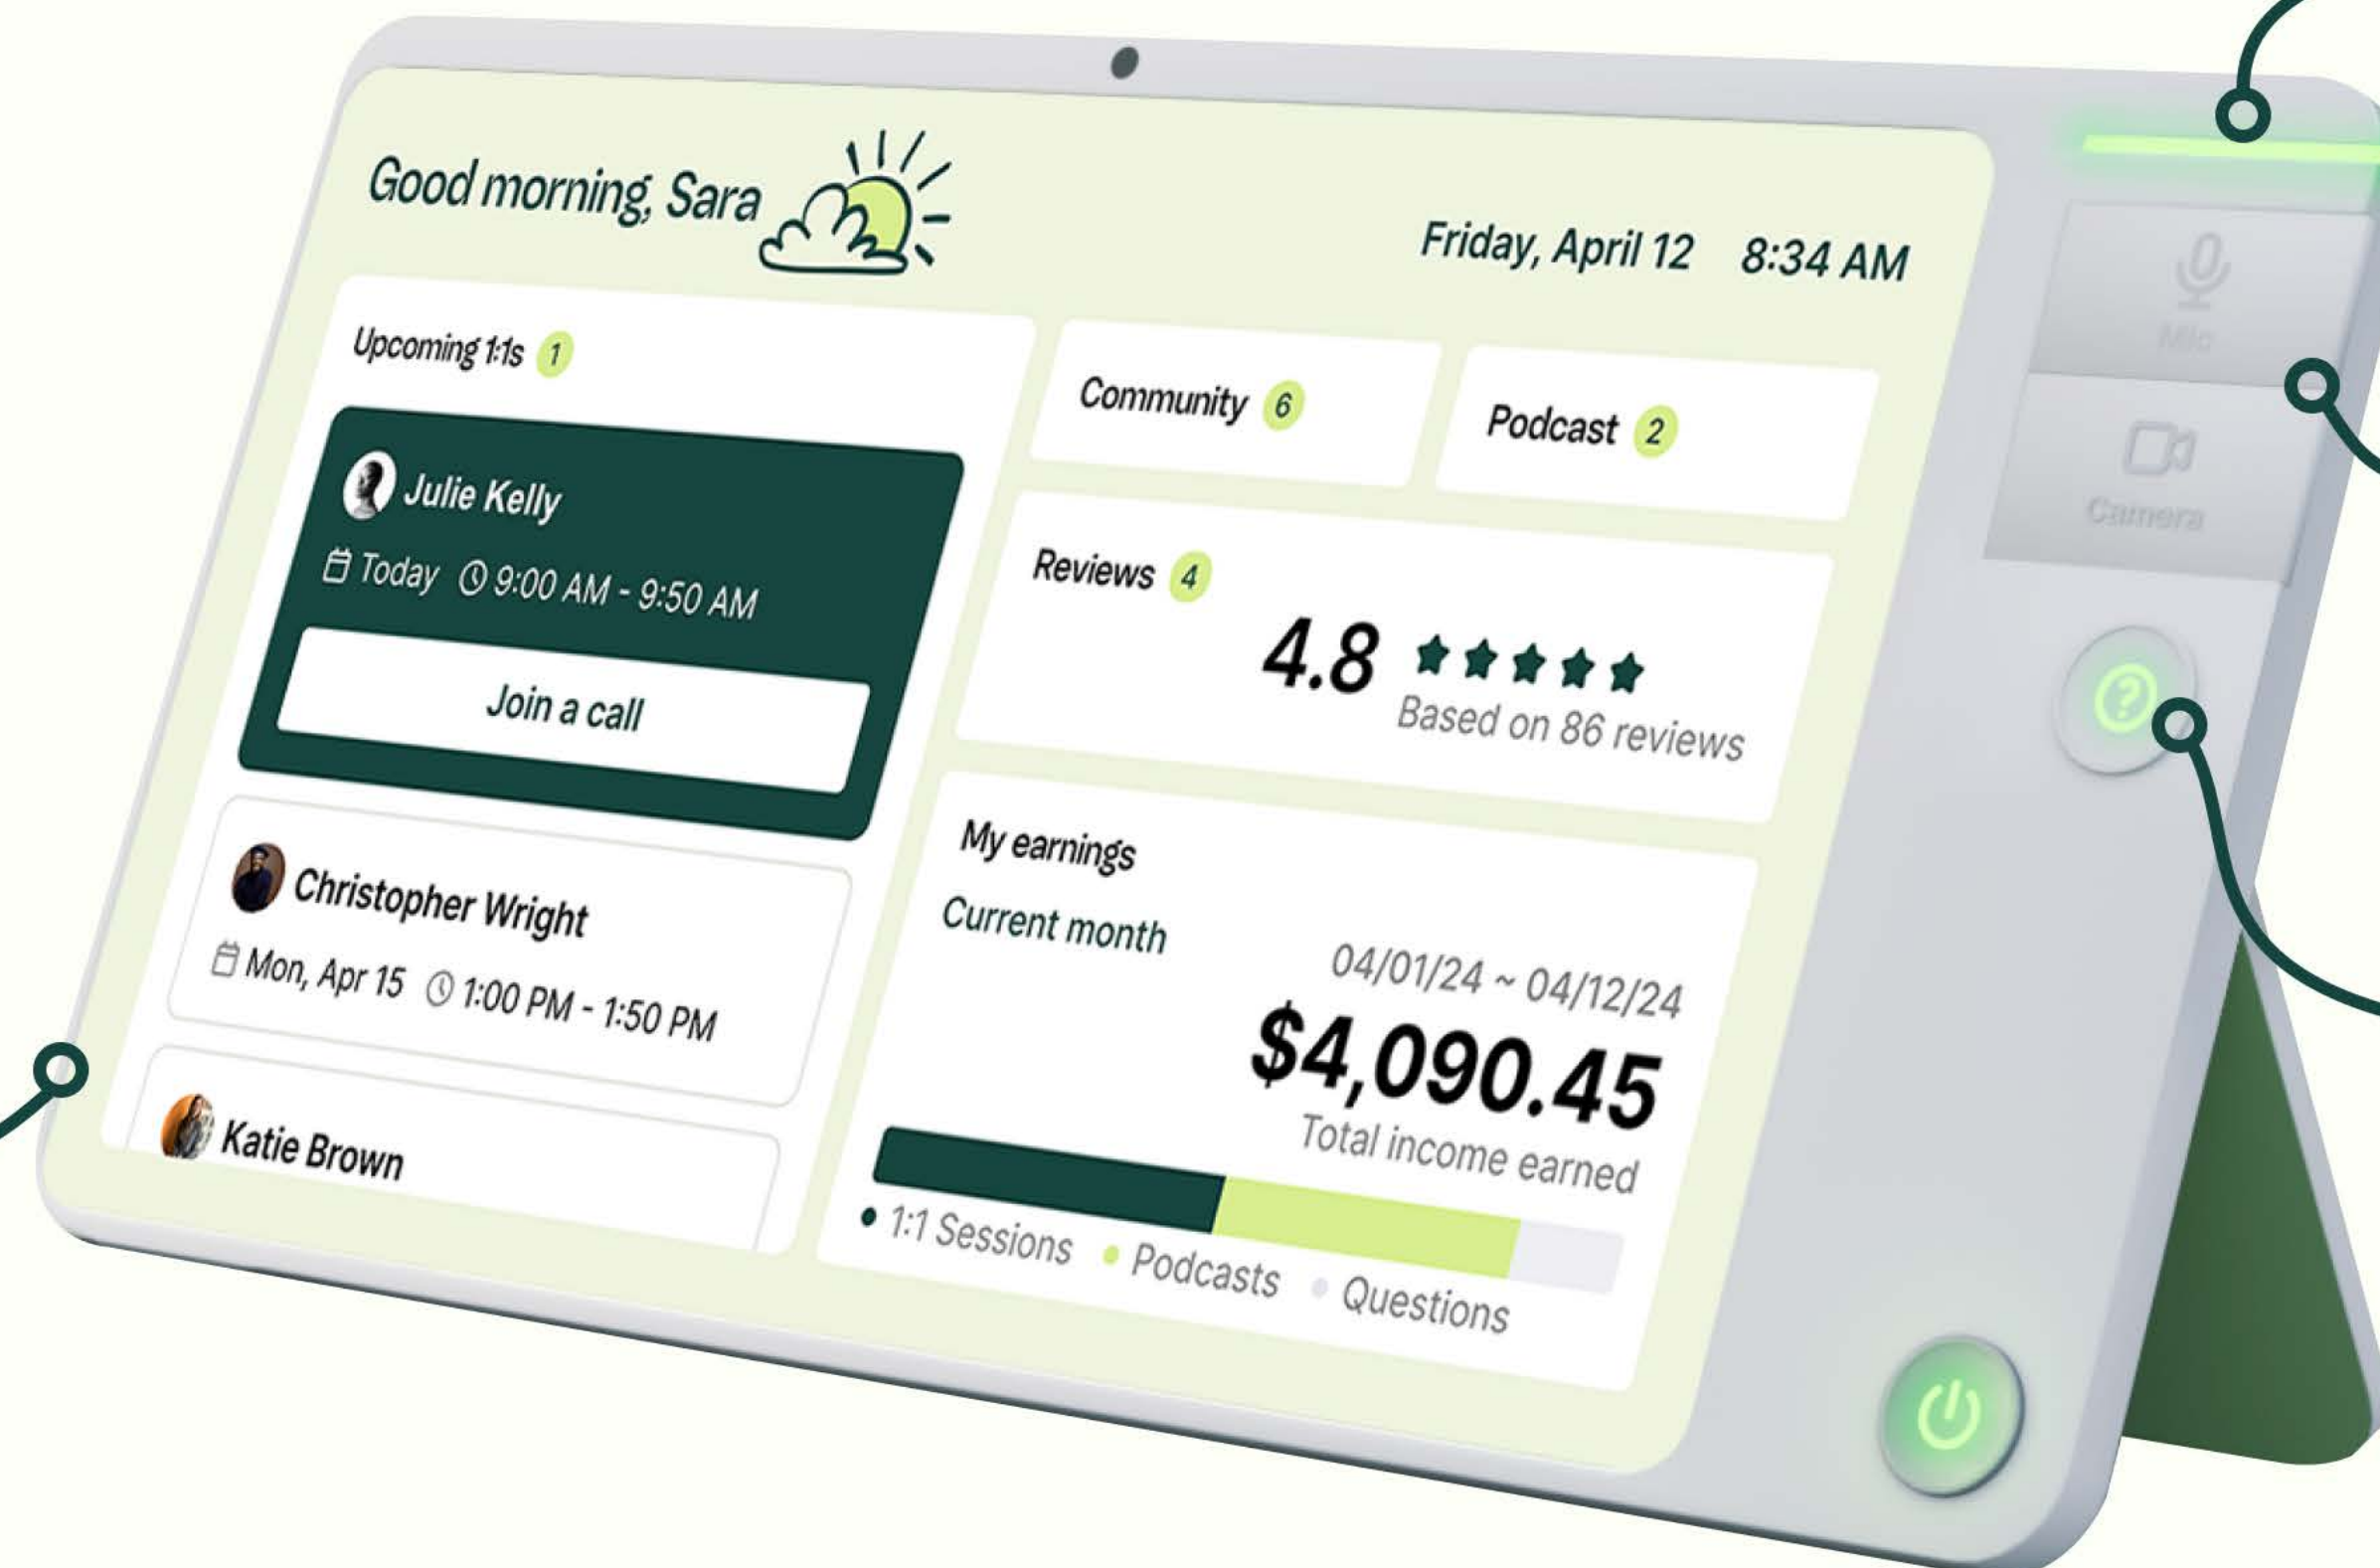

Creating an age-friendly device design

Since the mentors are working remotely, the primary goal was to ensure **easy usage** for them. Physical buttons for important functions have been added to enhance accessibility.

Initial Sketch

Final Render

Wide touch screen

With a wide touch screen, mentors can easily use the application.

LED light

LED light acts as an alarm to notify mentors of upcoming meetings.

Physical buttons

Frequently used functions, such as the microphone and camera, have tactile buttons for easy access.

Troubleshoot button

In case of emergencies, mentors can press this button to get assistance from Sage.
