

DOCOLAB *Makeup Mirror*

This makeup mirror combines multi-angle adjustment and HD magnifying, aiming to provide a more three-dimensional and realistic reflection effect for users when they do makeup.

Trifold Design

This makeup mirror boasts a trifold design, with consideration of aesthetics, functionality, and practicality, making it space-efficient and visually elegant. It can be folded to reduce space occupation for easy storage when not in use.

HD Magnifying Mirrors

This makeup mirror innovatively integrates 2x and 5x HD (high-definition) magnifying mirrors, assisting users in applying makeup to eyes or lips. It is suitable for both individual users and professional makeup artists, improving the practicability and flexibility of this product.

2x HD (high-definition)

5x HD (high-definition)

Multi-angle Adjustment

This makeup mirror allows multi-angle adjustment, including 360-degree rotation and 90-degree vertical adjustment, meeting the diverse needs of users with different heights and habits and making the makeup mirror a practical tool.

Global Illumination and Adjustable Brightness

This makeup mirror comes with triple-tone light effects, adapting to various application scenarios. It has light strips with high light color accuracy, which ensures realistic reflection. With highly translucent materials and a delicate mirror imaging technique, this mirror delivers clear reflection without distortion, providing a pleasant and comfortable makeup experience.

Practical Details

- The base is designed with a cavity that serves as a storage space for lipsticks, hair clips, and other tiny items, enhancing the cleanliness of the dresser.
- The built-in 5,000 mAh large capacity battery makes this mirror last long on a single charge so that users can carry and use it during travels.

 5,000 mAh

Anthropomorphic Cute Appearance

This mirror features a closet-style appearance. Once closed, this anthropomorphic mirror is like a compact artwork, making it an attractive and engaging home ornament when not in use.
