Conveying the unique charm of Chinese wedding culture with classic oriental auspicious elements

## INSPIRED BY TRADITIONAL CHINESE AUSPICIOUS CULTURE

It adopts a traditional Chinese wedding pattern, the flying dragon and phoenix, representing sacredness and majesty as well as luck and harmony respectively, which implies that the couples have a harmonious and happy marriage and are faithful to each other.

## AN INTEGRATION OF TRADITIONAL AND MODERN ROMANTIC AESTHETICS

The phoenix feathers and dragon scales inlaid with diamonds make the dragon and phoenix brilliant. The 13.14-carat heart-shaped diamond pendant carried by the dragon and phoenix together satisfies the females' emotional needs for love and shows the romance of China's high-end wedding jewelry, reflecting the love values of The One & Only.

## FITTING TO THE CURVE OF THE NECK WITH A UNIQUE STRUCTURE

KING & QUEEN Necklace adopts an innovative soft and fine keel ringlock technology, with every two sections of the necklace body as a group, to improve flexibility and make the dragon tail and phoenix scales more vivid and elegant, implying that true love is unbreakable and unswerving like the ancient Chinese golden soft armor. Based on the ergonomics, it has a curved surface to fit perfectly to the curve of the shoulder and neck, making it more comfortable and safer.

## A FINE CRAFT WITH AN ARTFUL ECHO

The pure gold rotating screw buckle composed of the dragon and phoenix adopts the fine micro-carving and polishing technology, which makes the dragon and phoenix vivid, echoing the necklace body and presenting a harmonious and balanced visual effect.

## A DETACHABLE AND VERSATILE DIAMOND PENDANT

The diamond pendant is detachable and can be matched with other necklaces, making it suitable for more occasions and satisfying diverse needs.
