

FLOWGPT/HUMANIZING AI INTERACTION

QIANHUA GE

LEAD UI/UX DESIGNER

A REVOLUTIONARY UI/UX EXPERIENCE FOR
PERSONALIZED AI COMPANIONS

DESIGN MISSION

01

Redefining AI as a
Companion

AI is no longer just a tool. FlowGPT reshapes the relationship by making AI a personal and interactive part of the user’s daily creative journey.

02

Humanizing Interaction

Through intuitive design, seamless interactions, and personalized AI responses, FlowGPT turns AI interactions from cold and mechanical to warm, engaging, and deeply relatable.

03

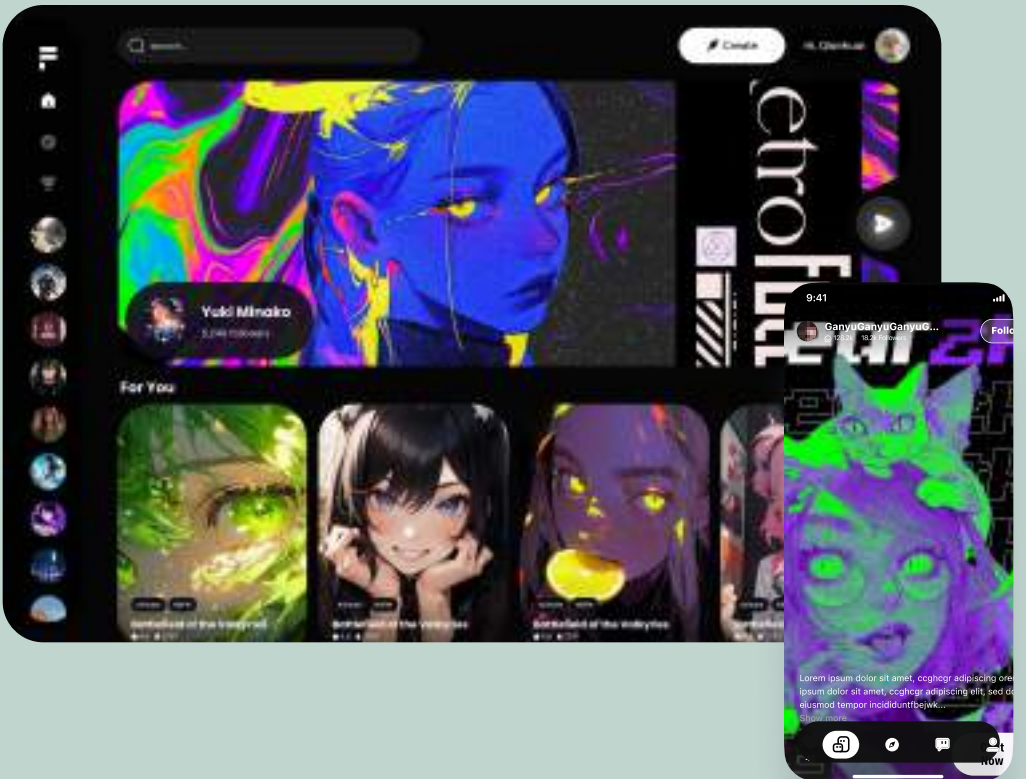

Democratizing Creativity
& Personalization

FlowGPT breaks down the barriers to creativity, allowing anyone to generate unique, AI-powered content and even create their own AI companions, making personalization accessible to all.

MODERN AESTHETICS WITH A WARM TOUCH

FlowGPT’s design features soft gradients, organic shapes, and a dark mode for immersive, comfortable use.

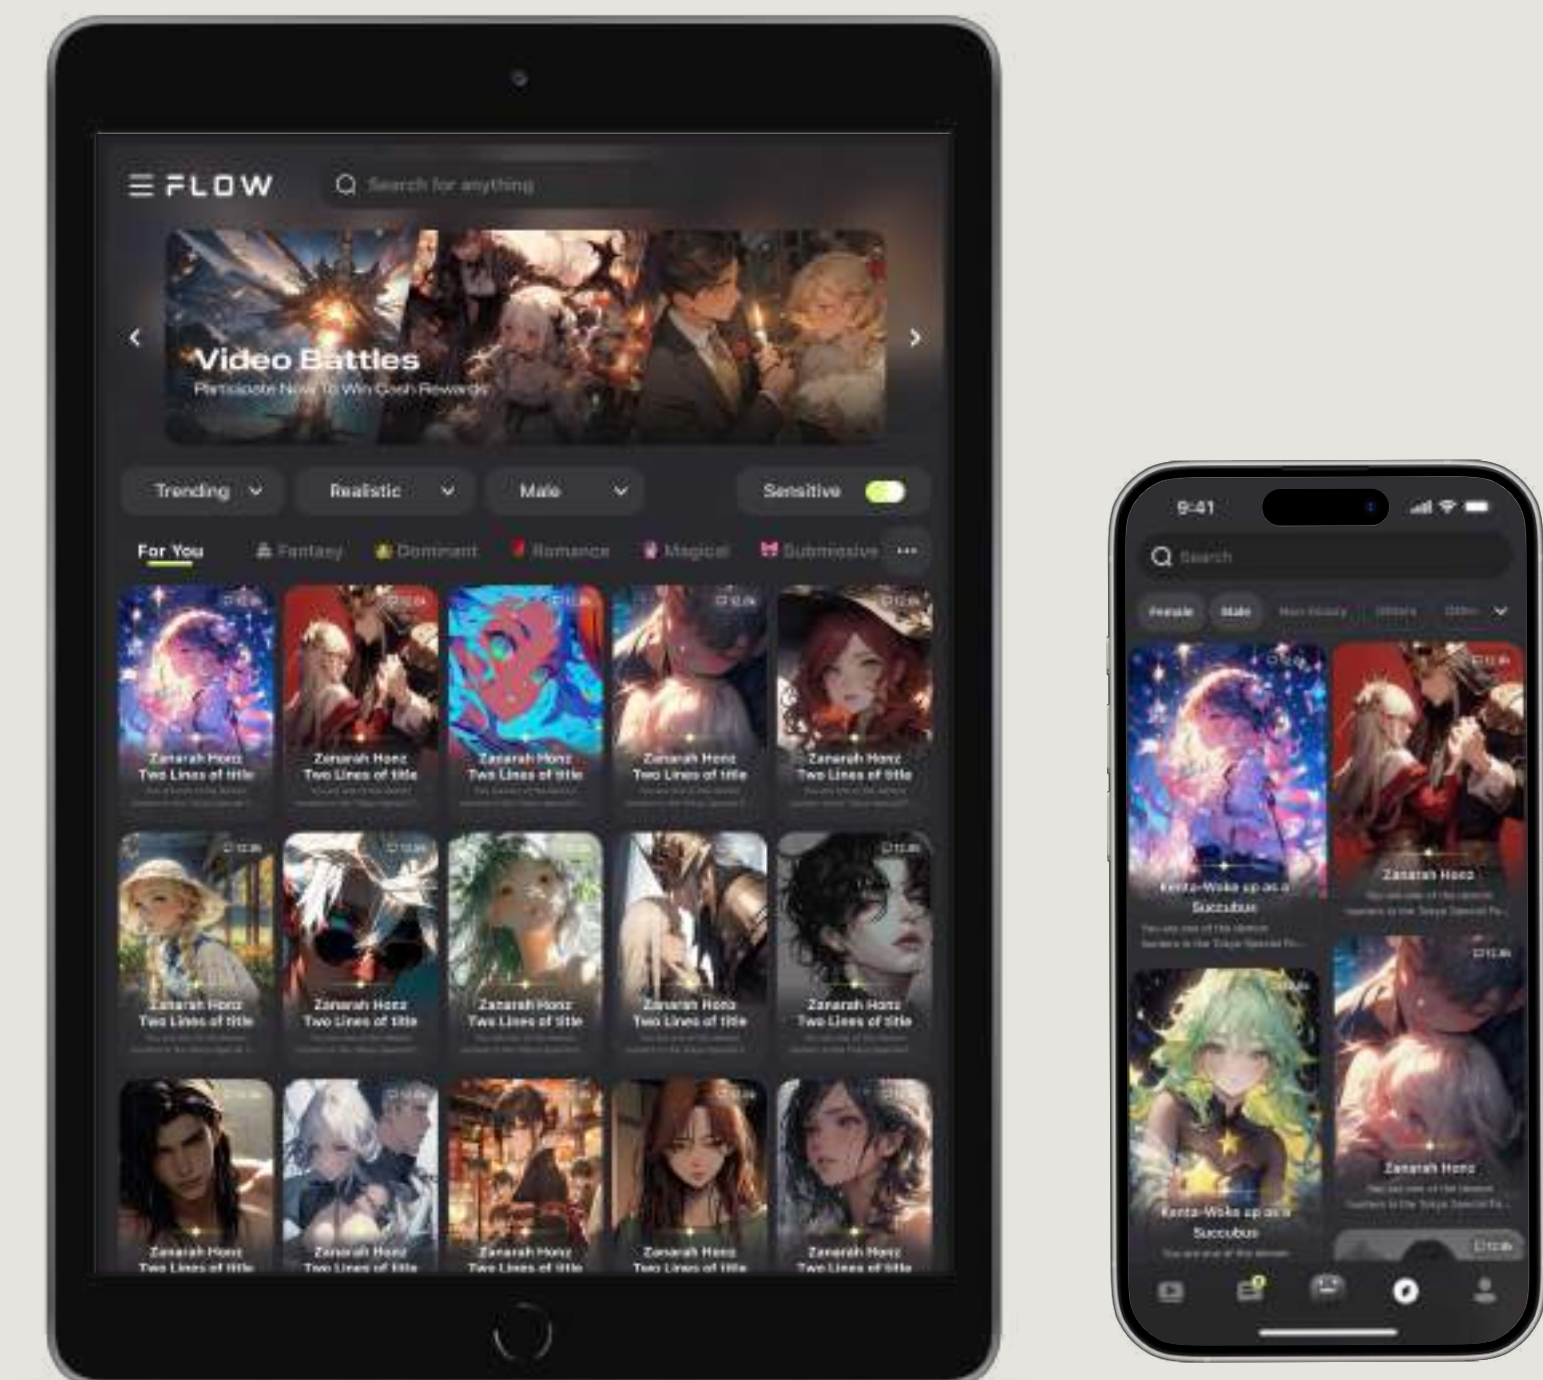

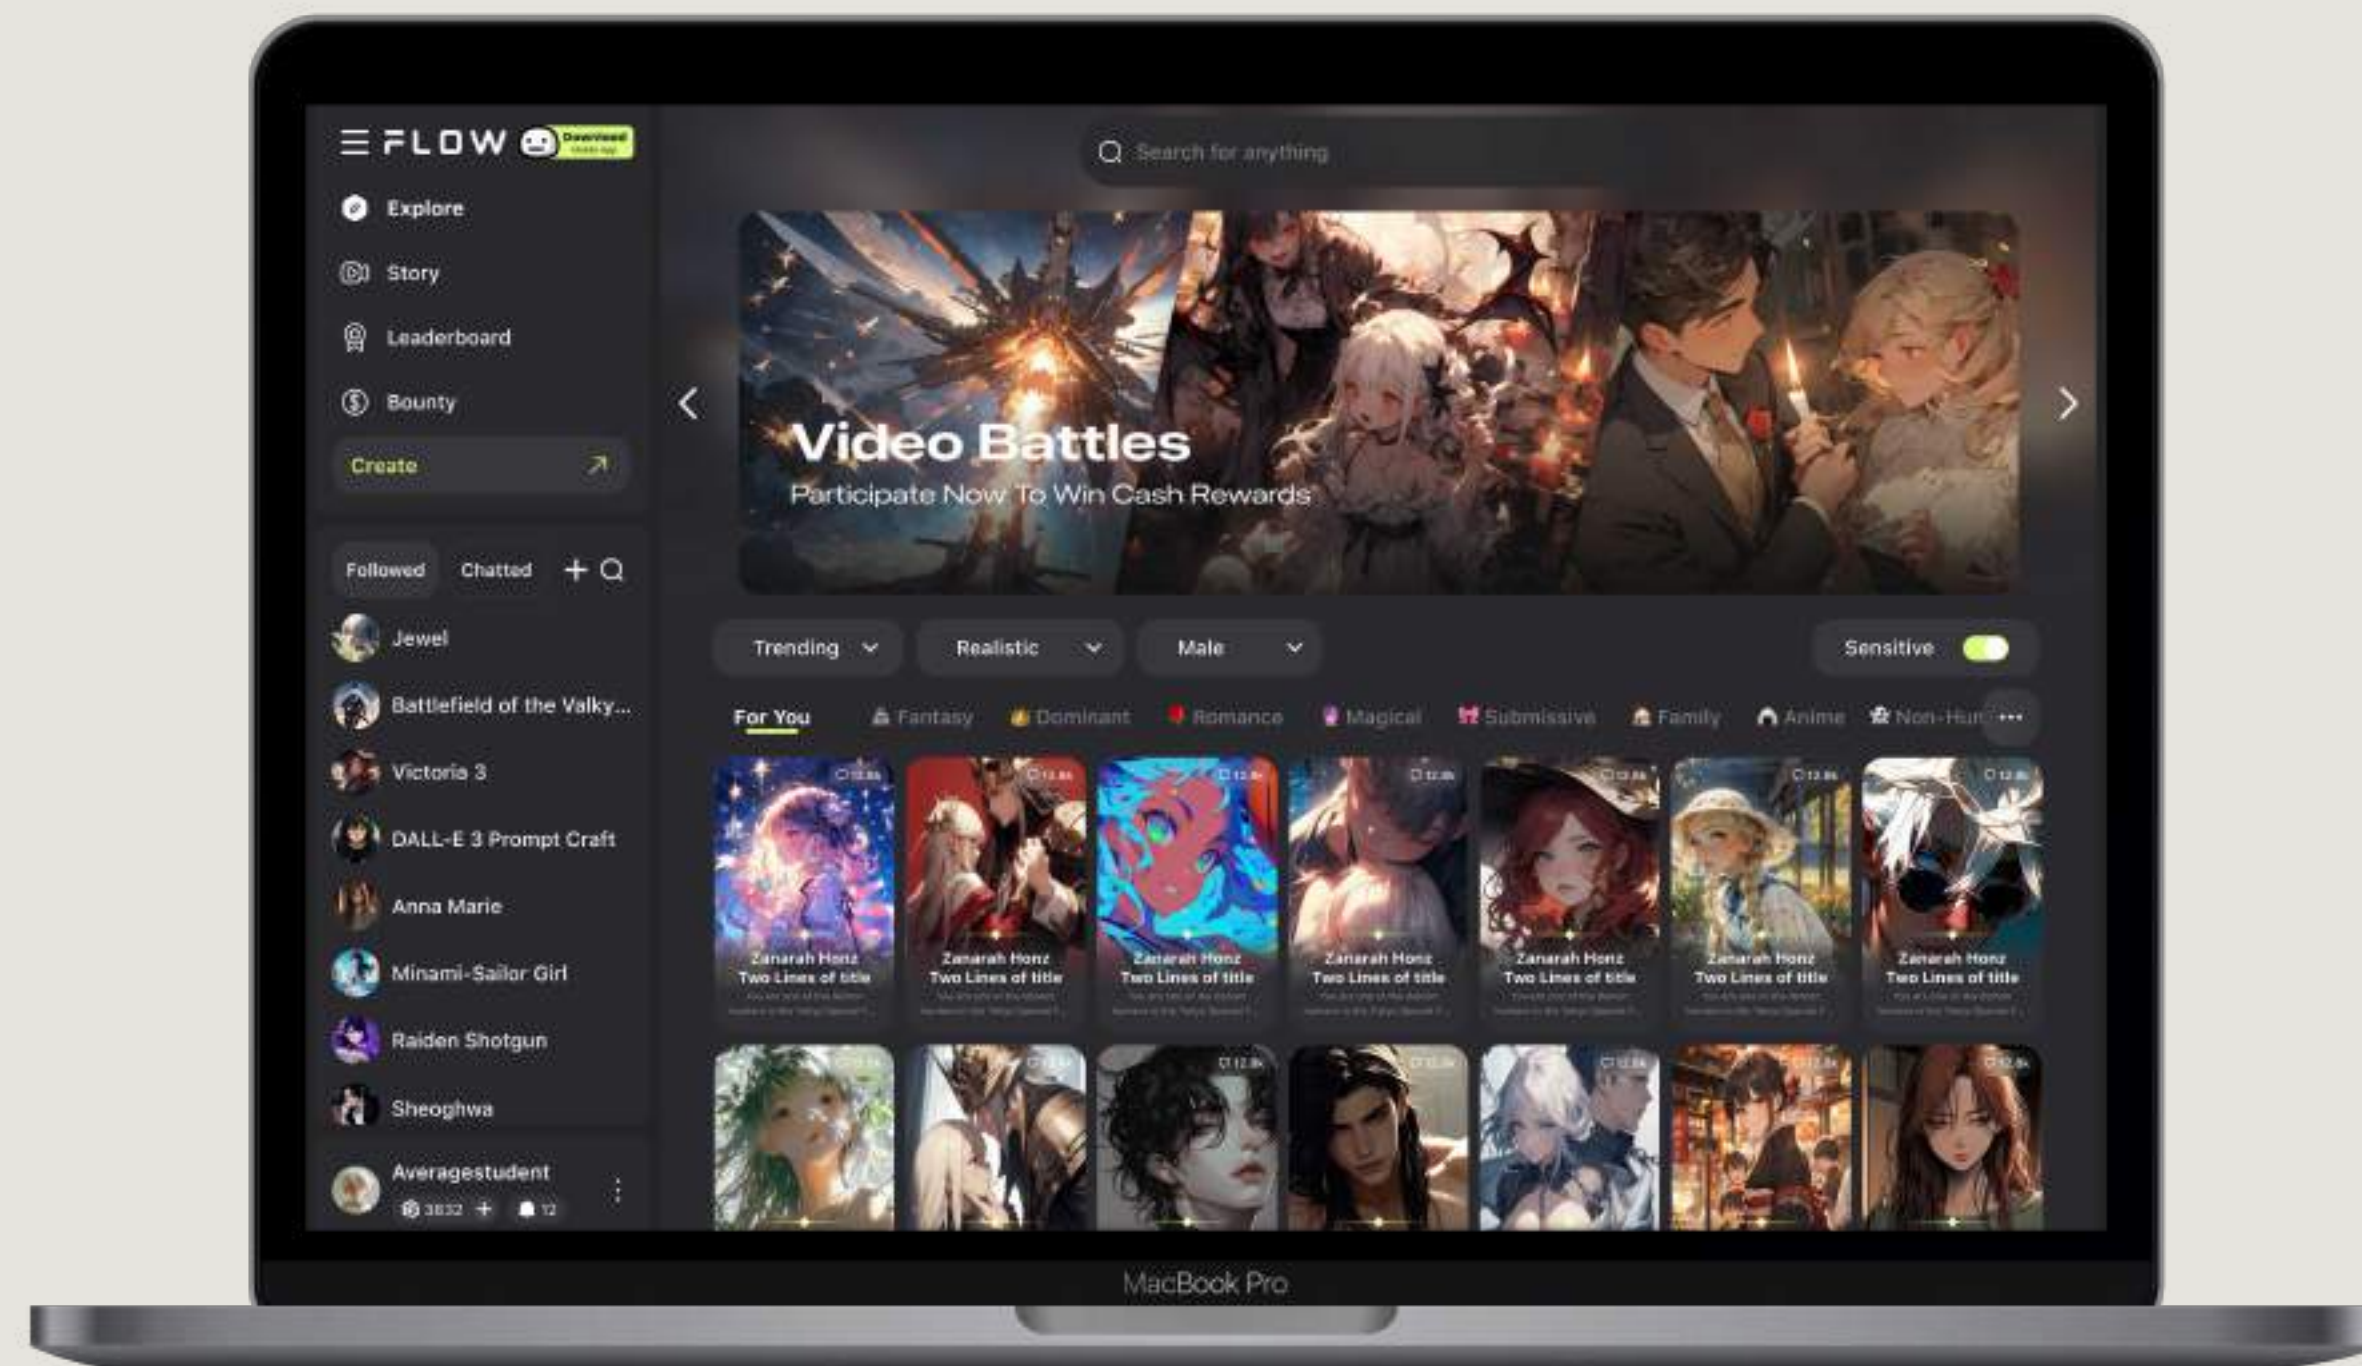

SIMPLICITY AND INTUITIVE NAVIGATION

FlowGPT's UI is designed to be smooth and user-friendly, minimizing cognitive load while delivering powerful AI-generated content.

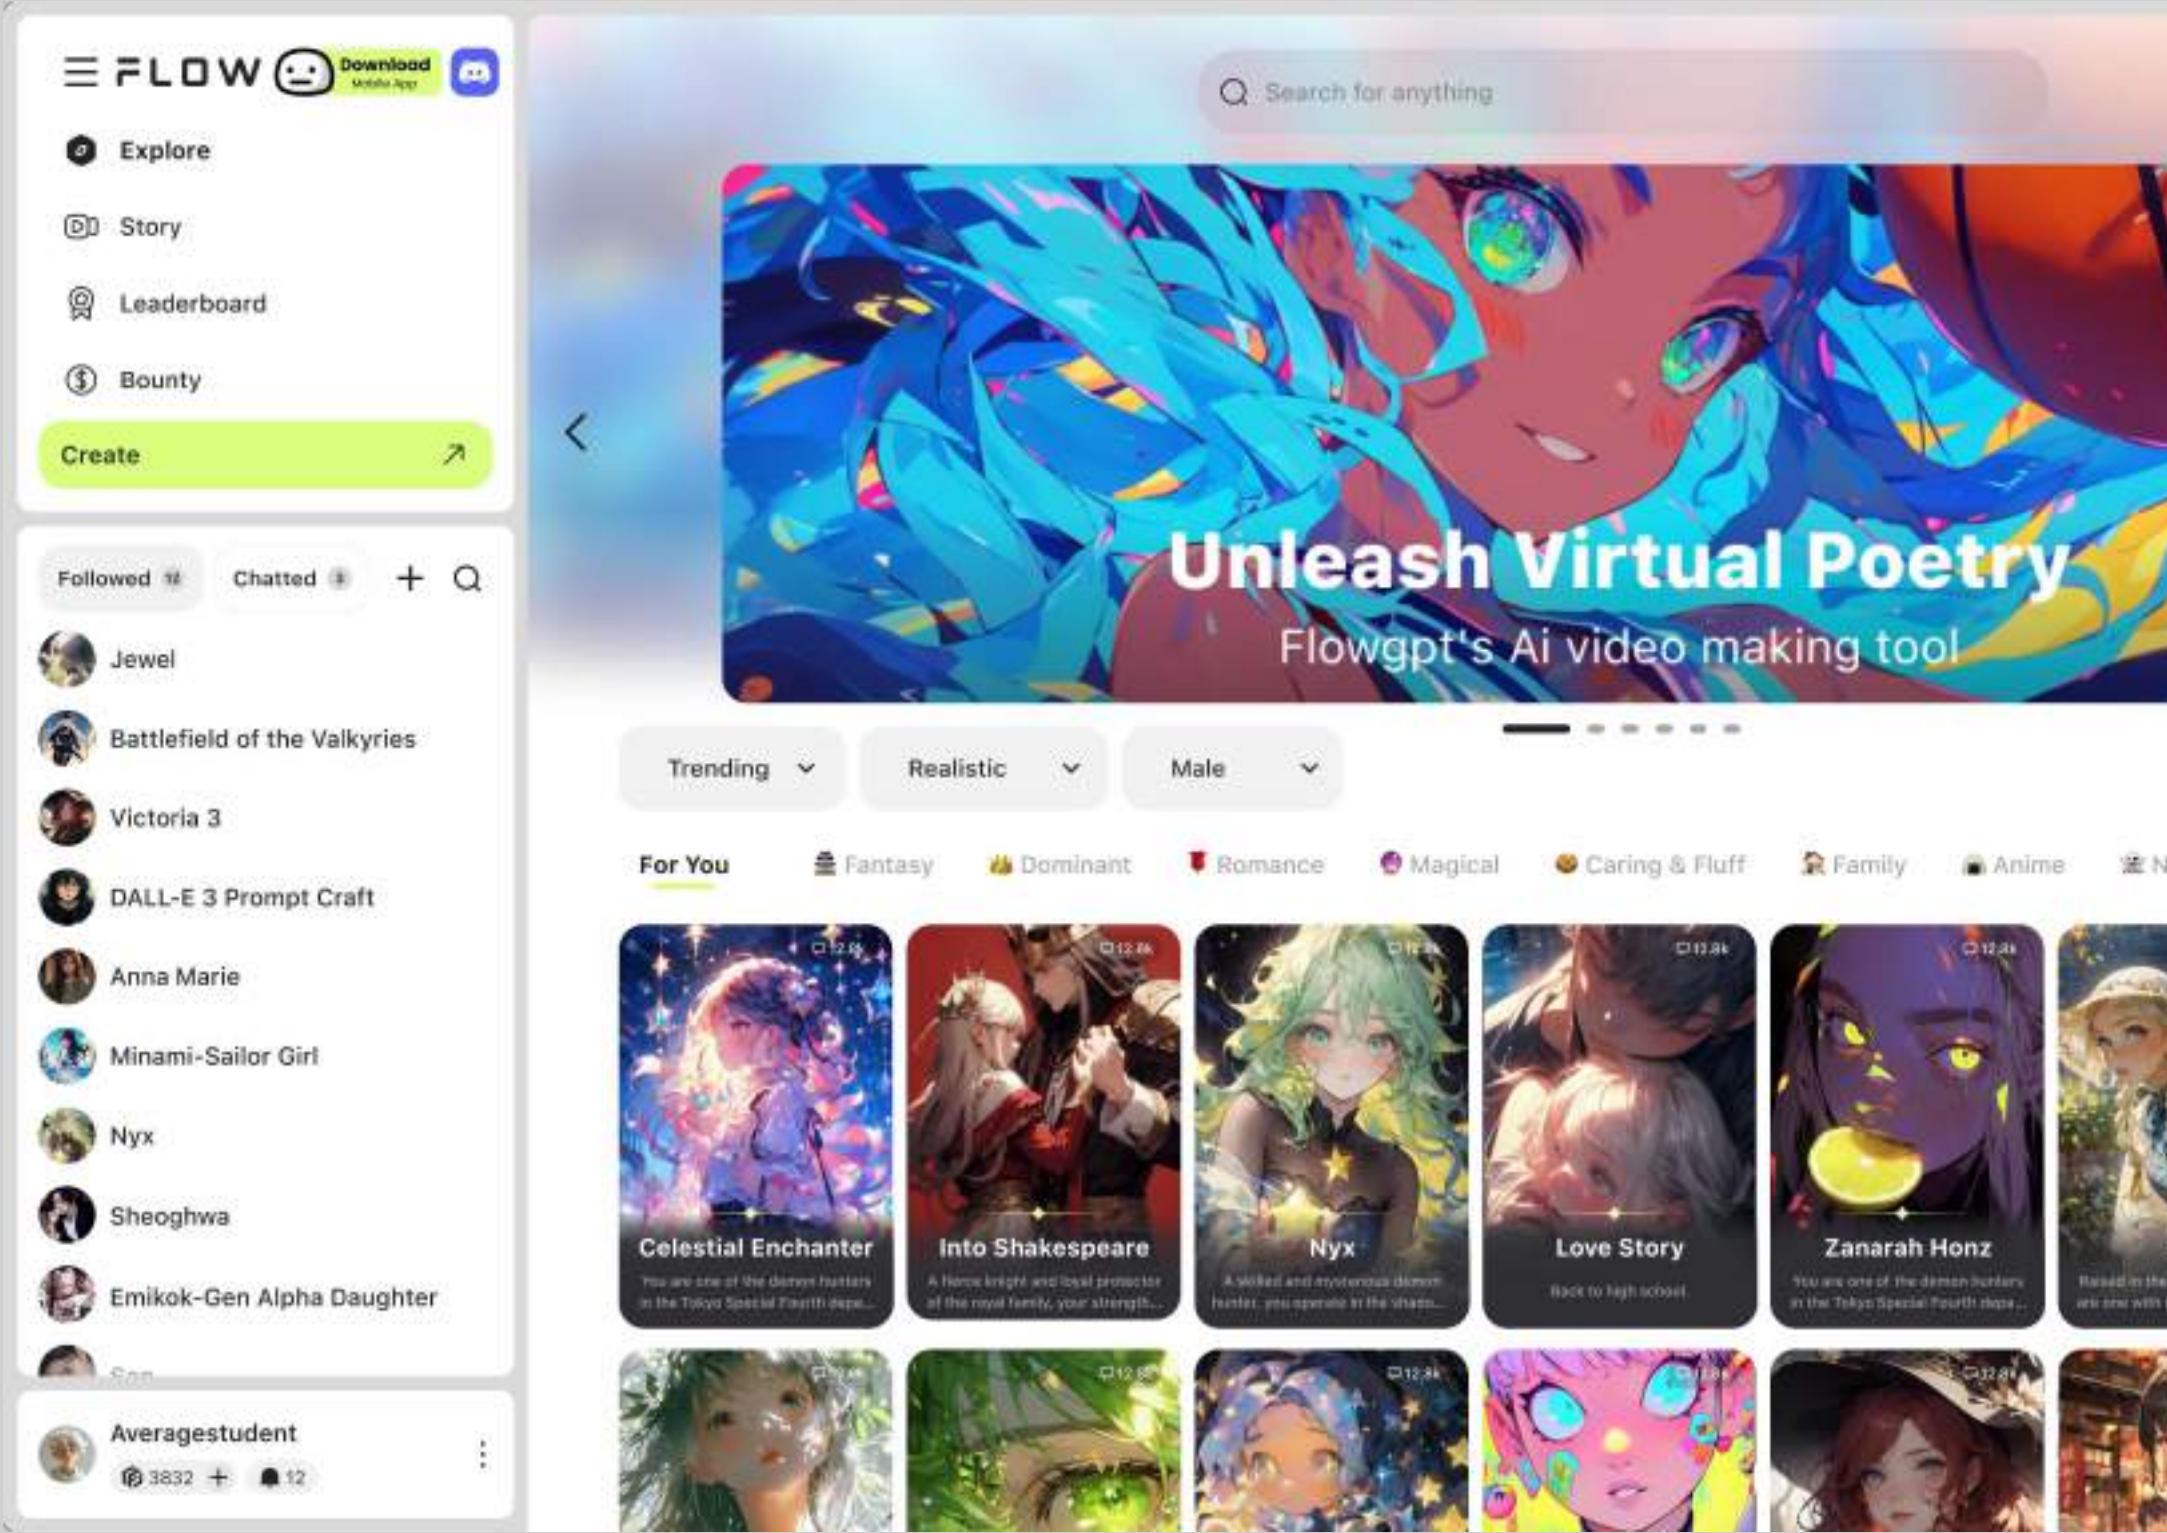

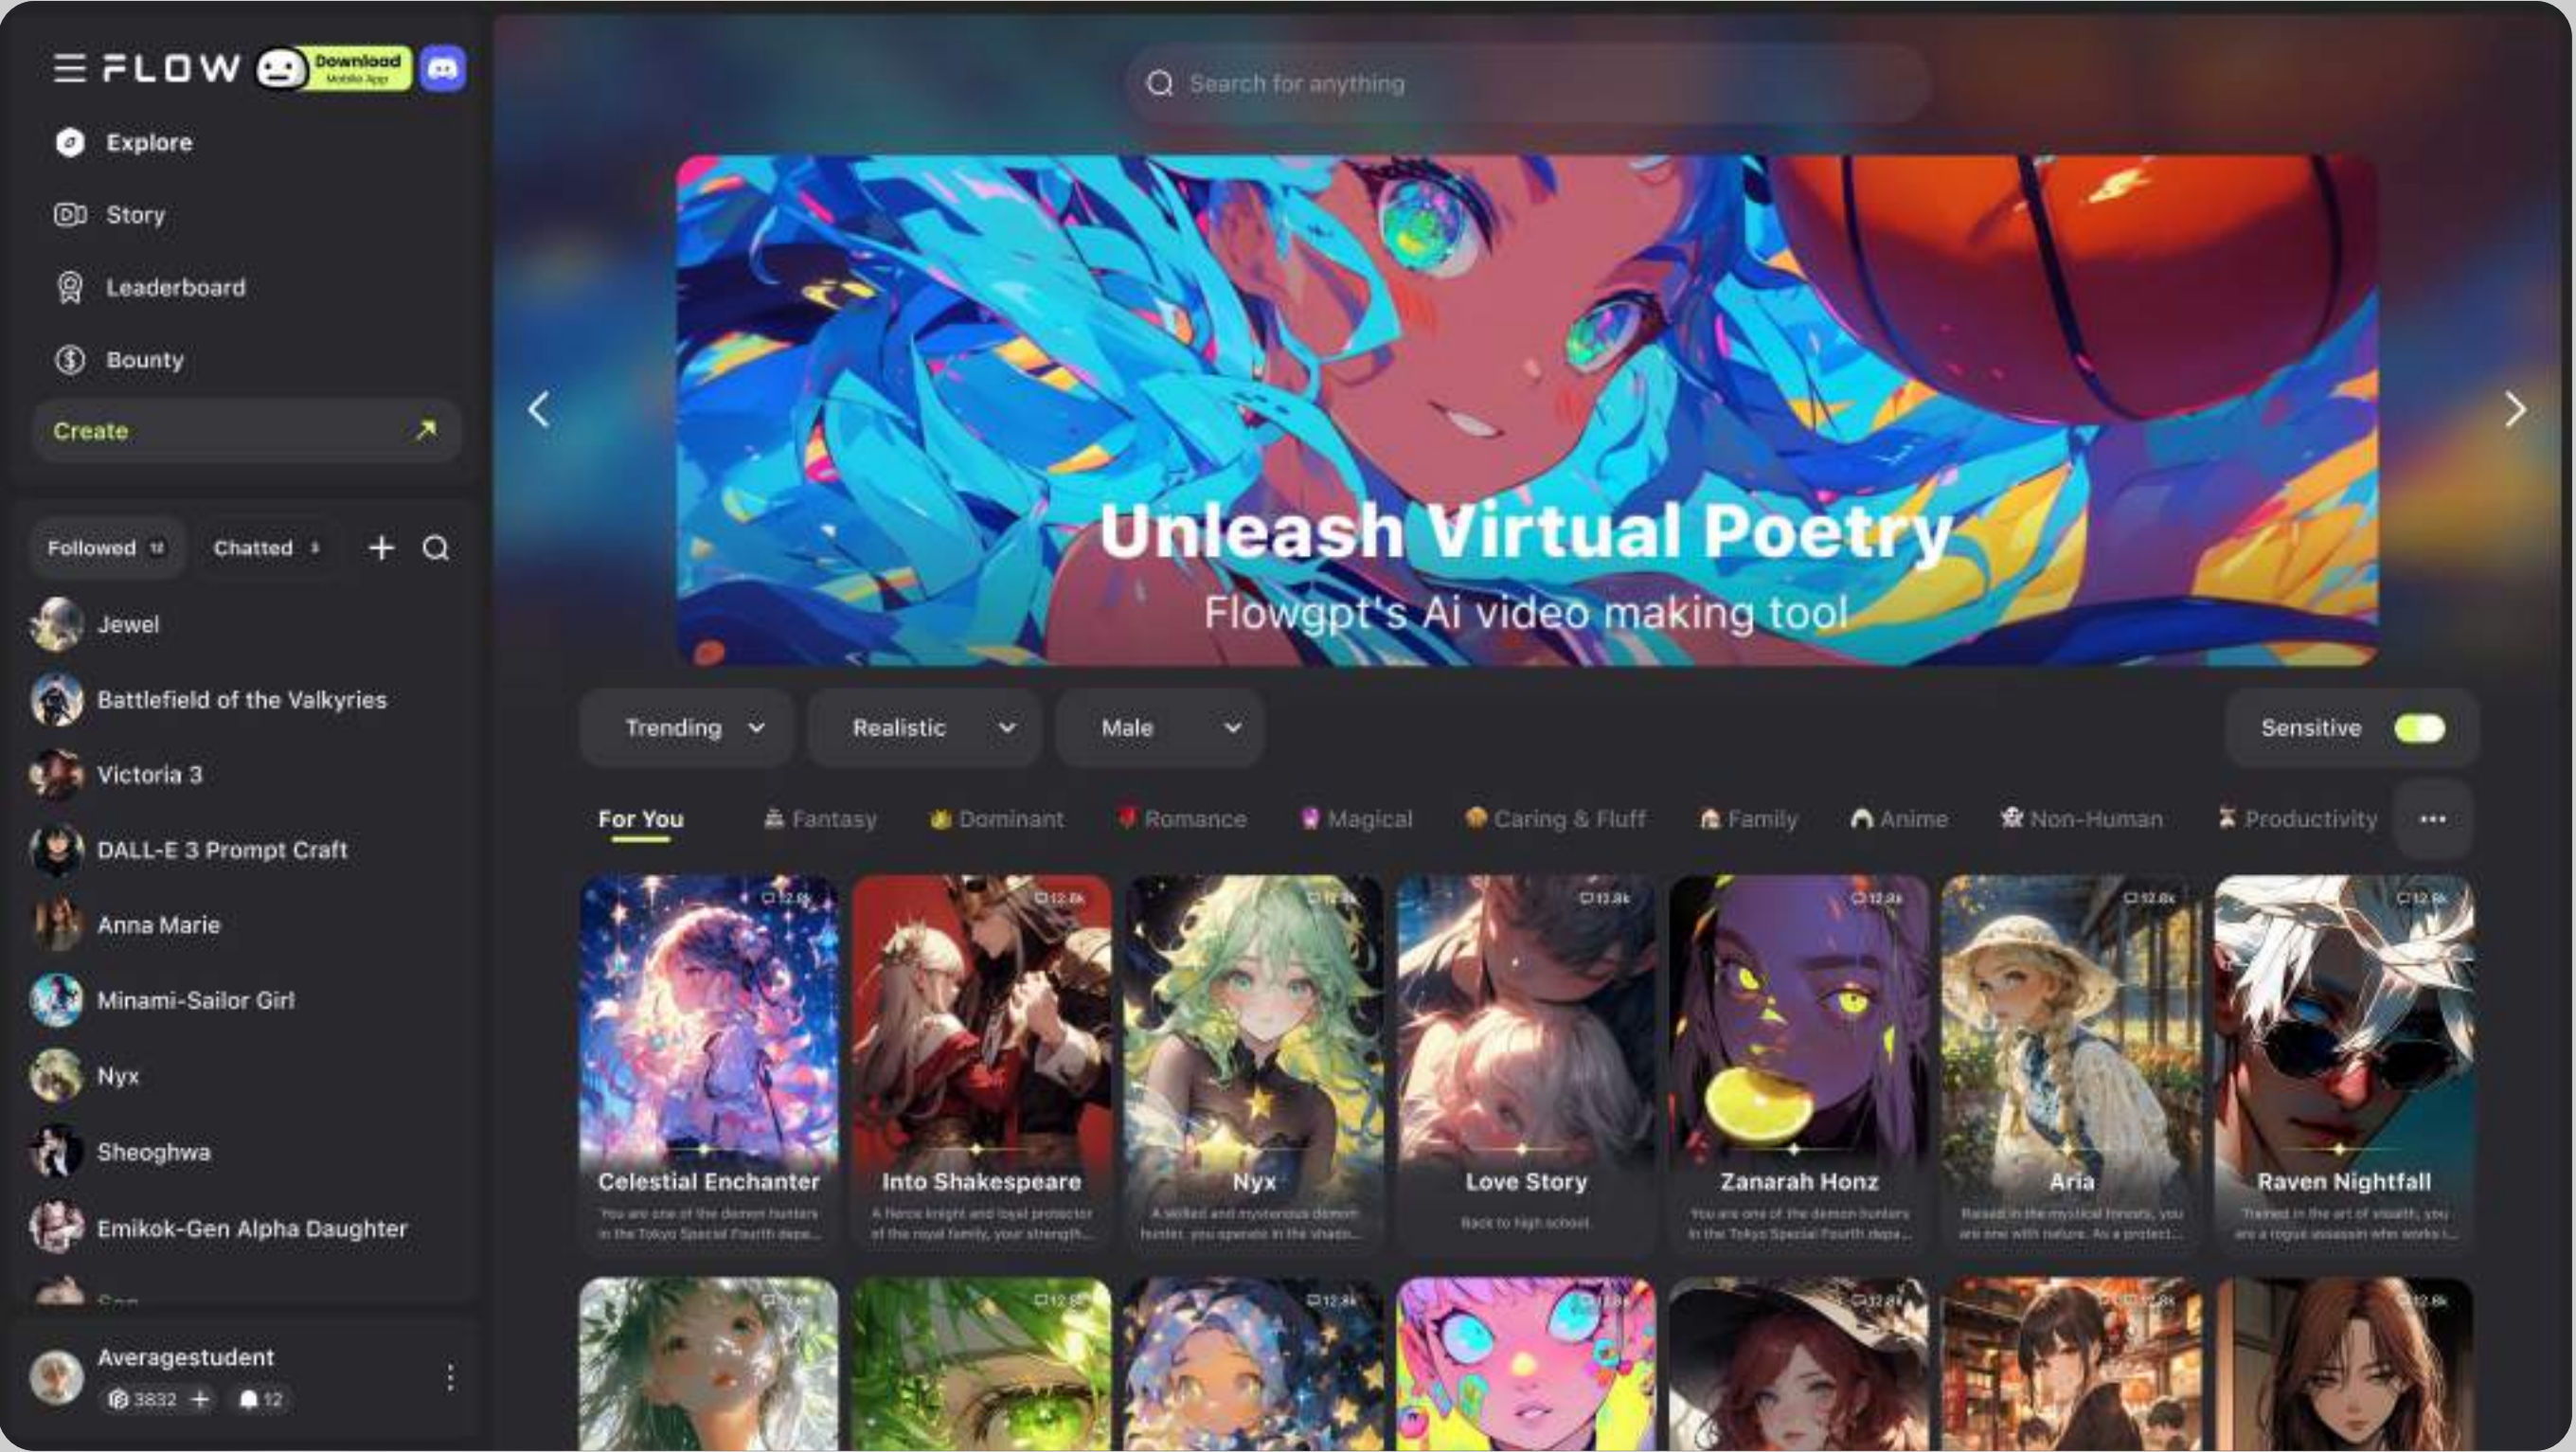

DESIGNED FOR EVERY DEVICE

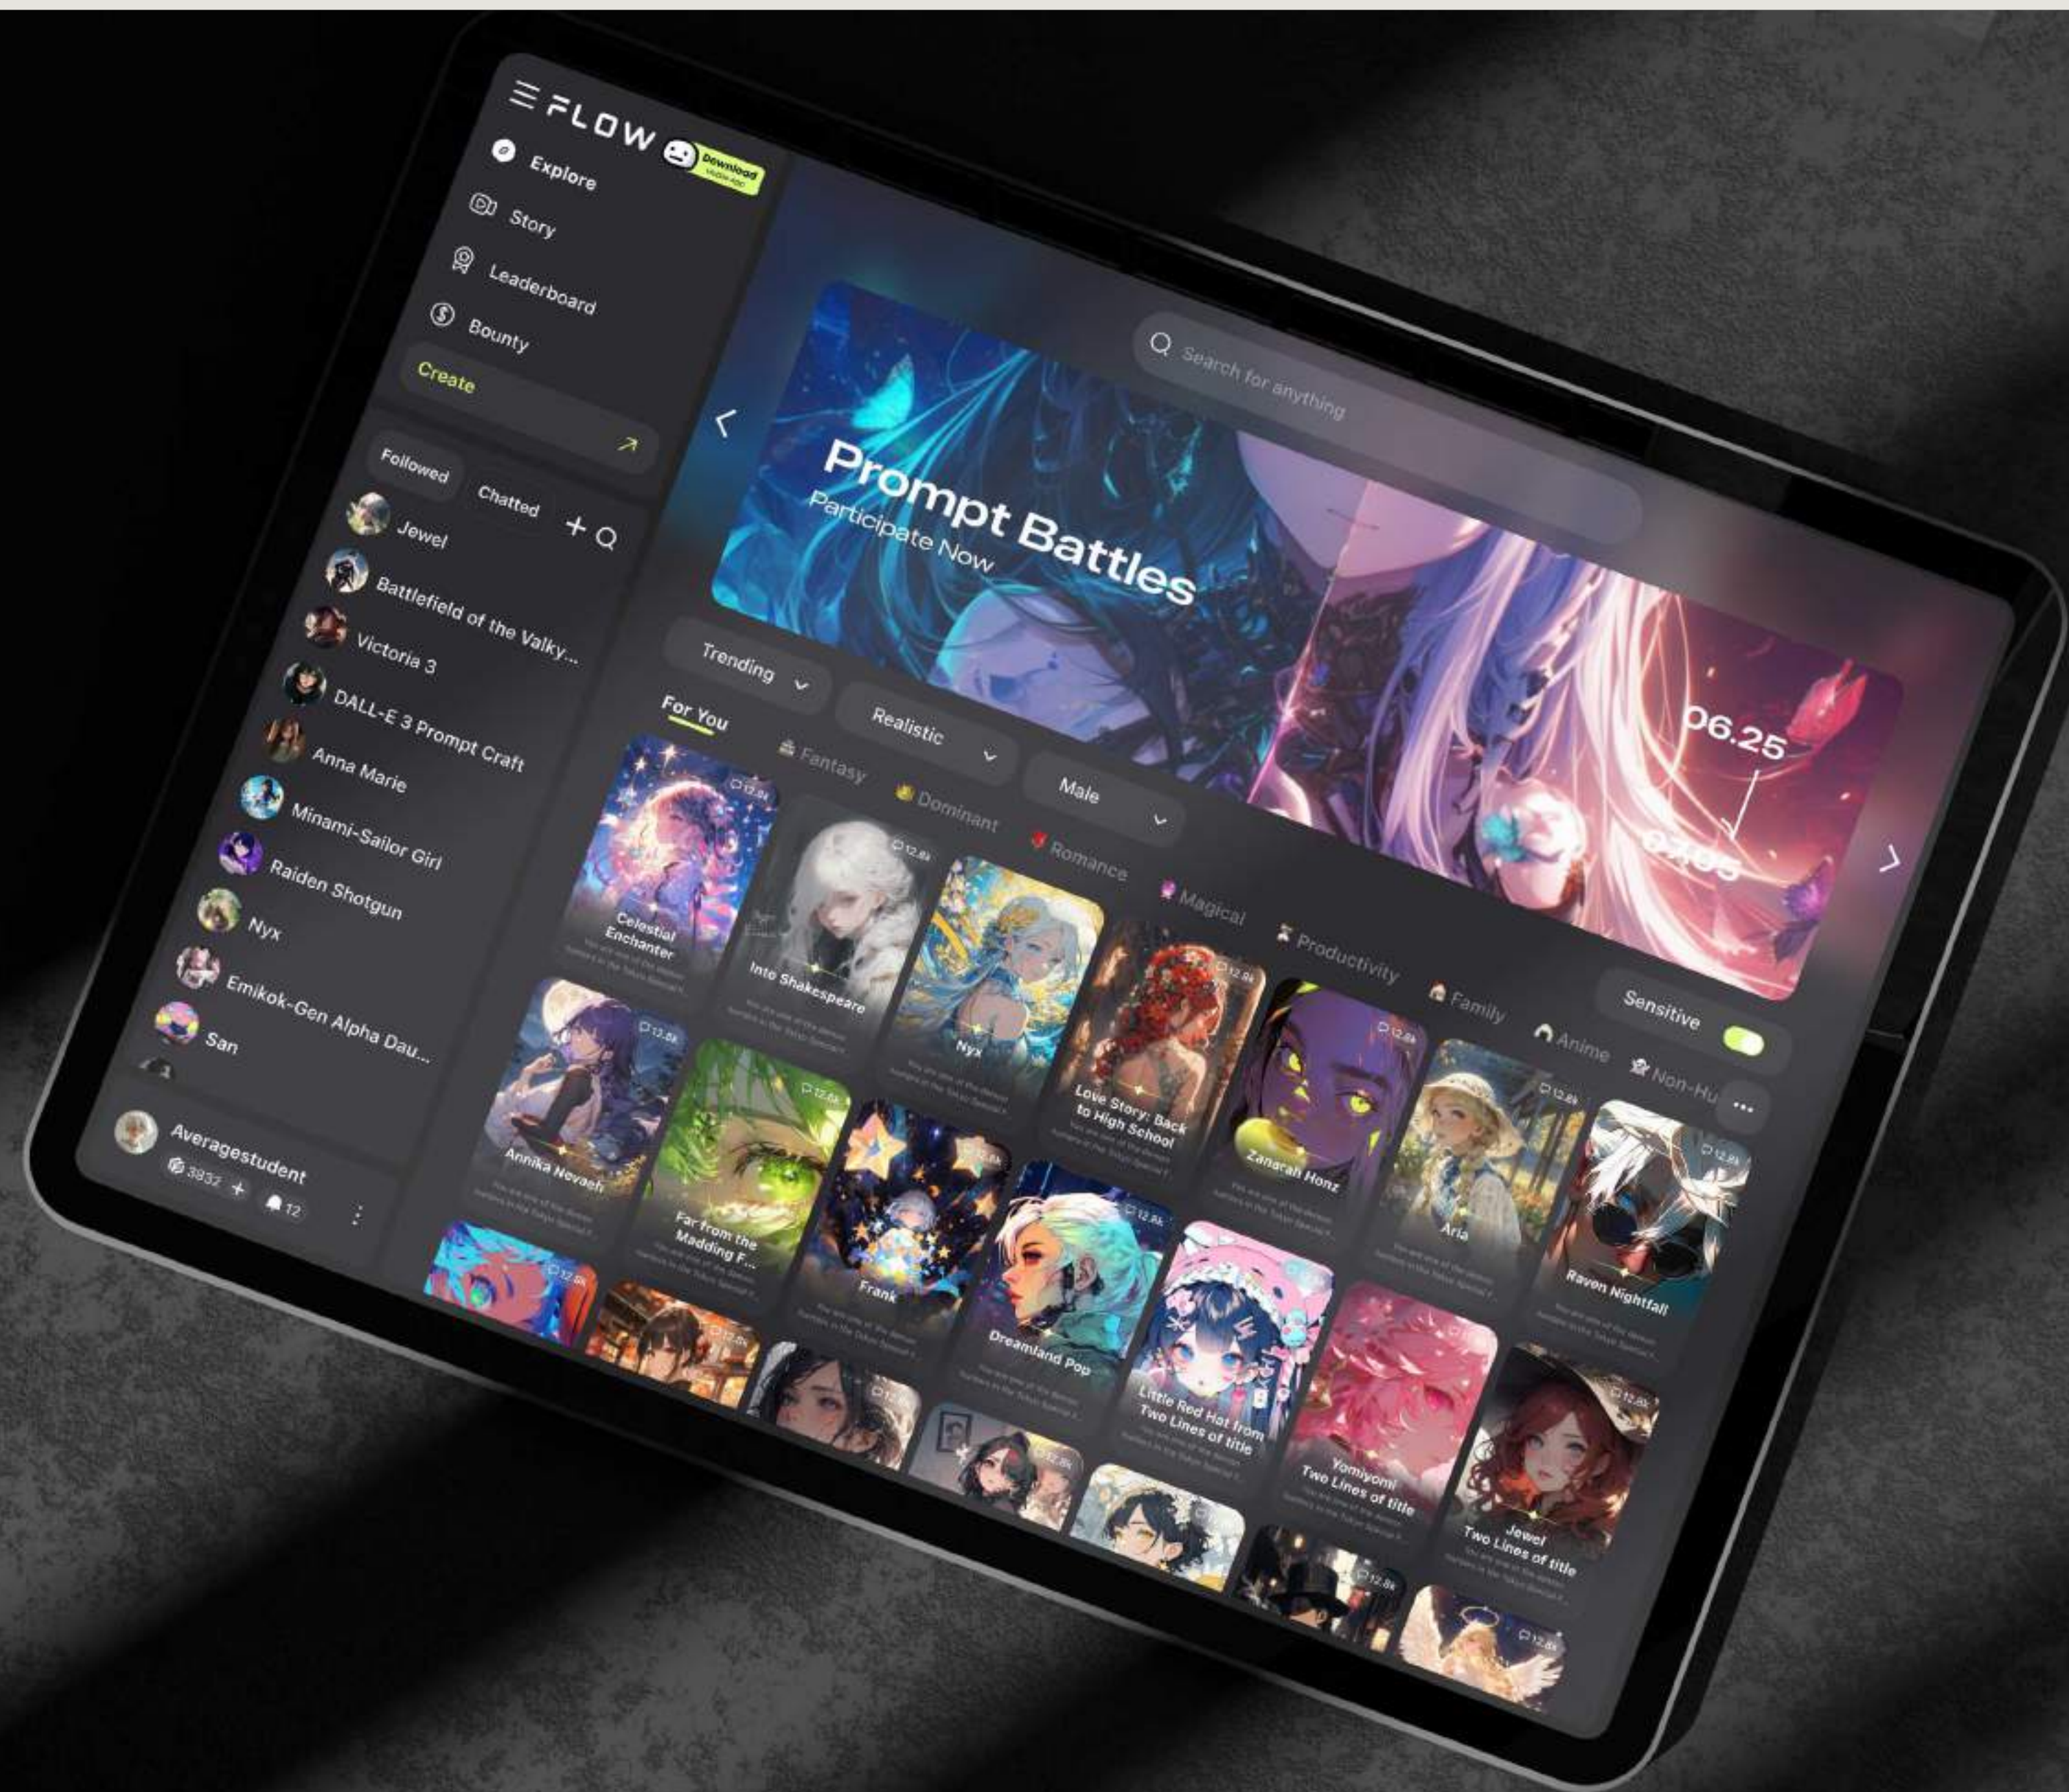

With fluid transitions, adaptive layouts, and intuitive controls, FlowGPT provides users with the same rich experience whether they're interacting through a mobile device, a tablet, or desktop.

OPTIMIZED FOR EVERY ENVIRONMENT

Both the dark and the light theme are designed to enhance the user experience without sacrificing readability or accessibility.

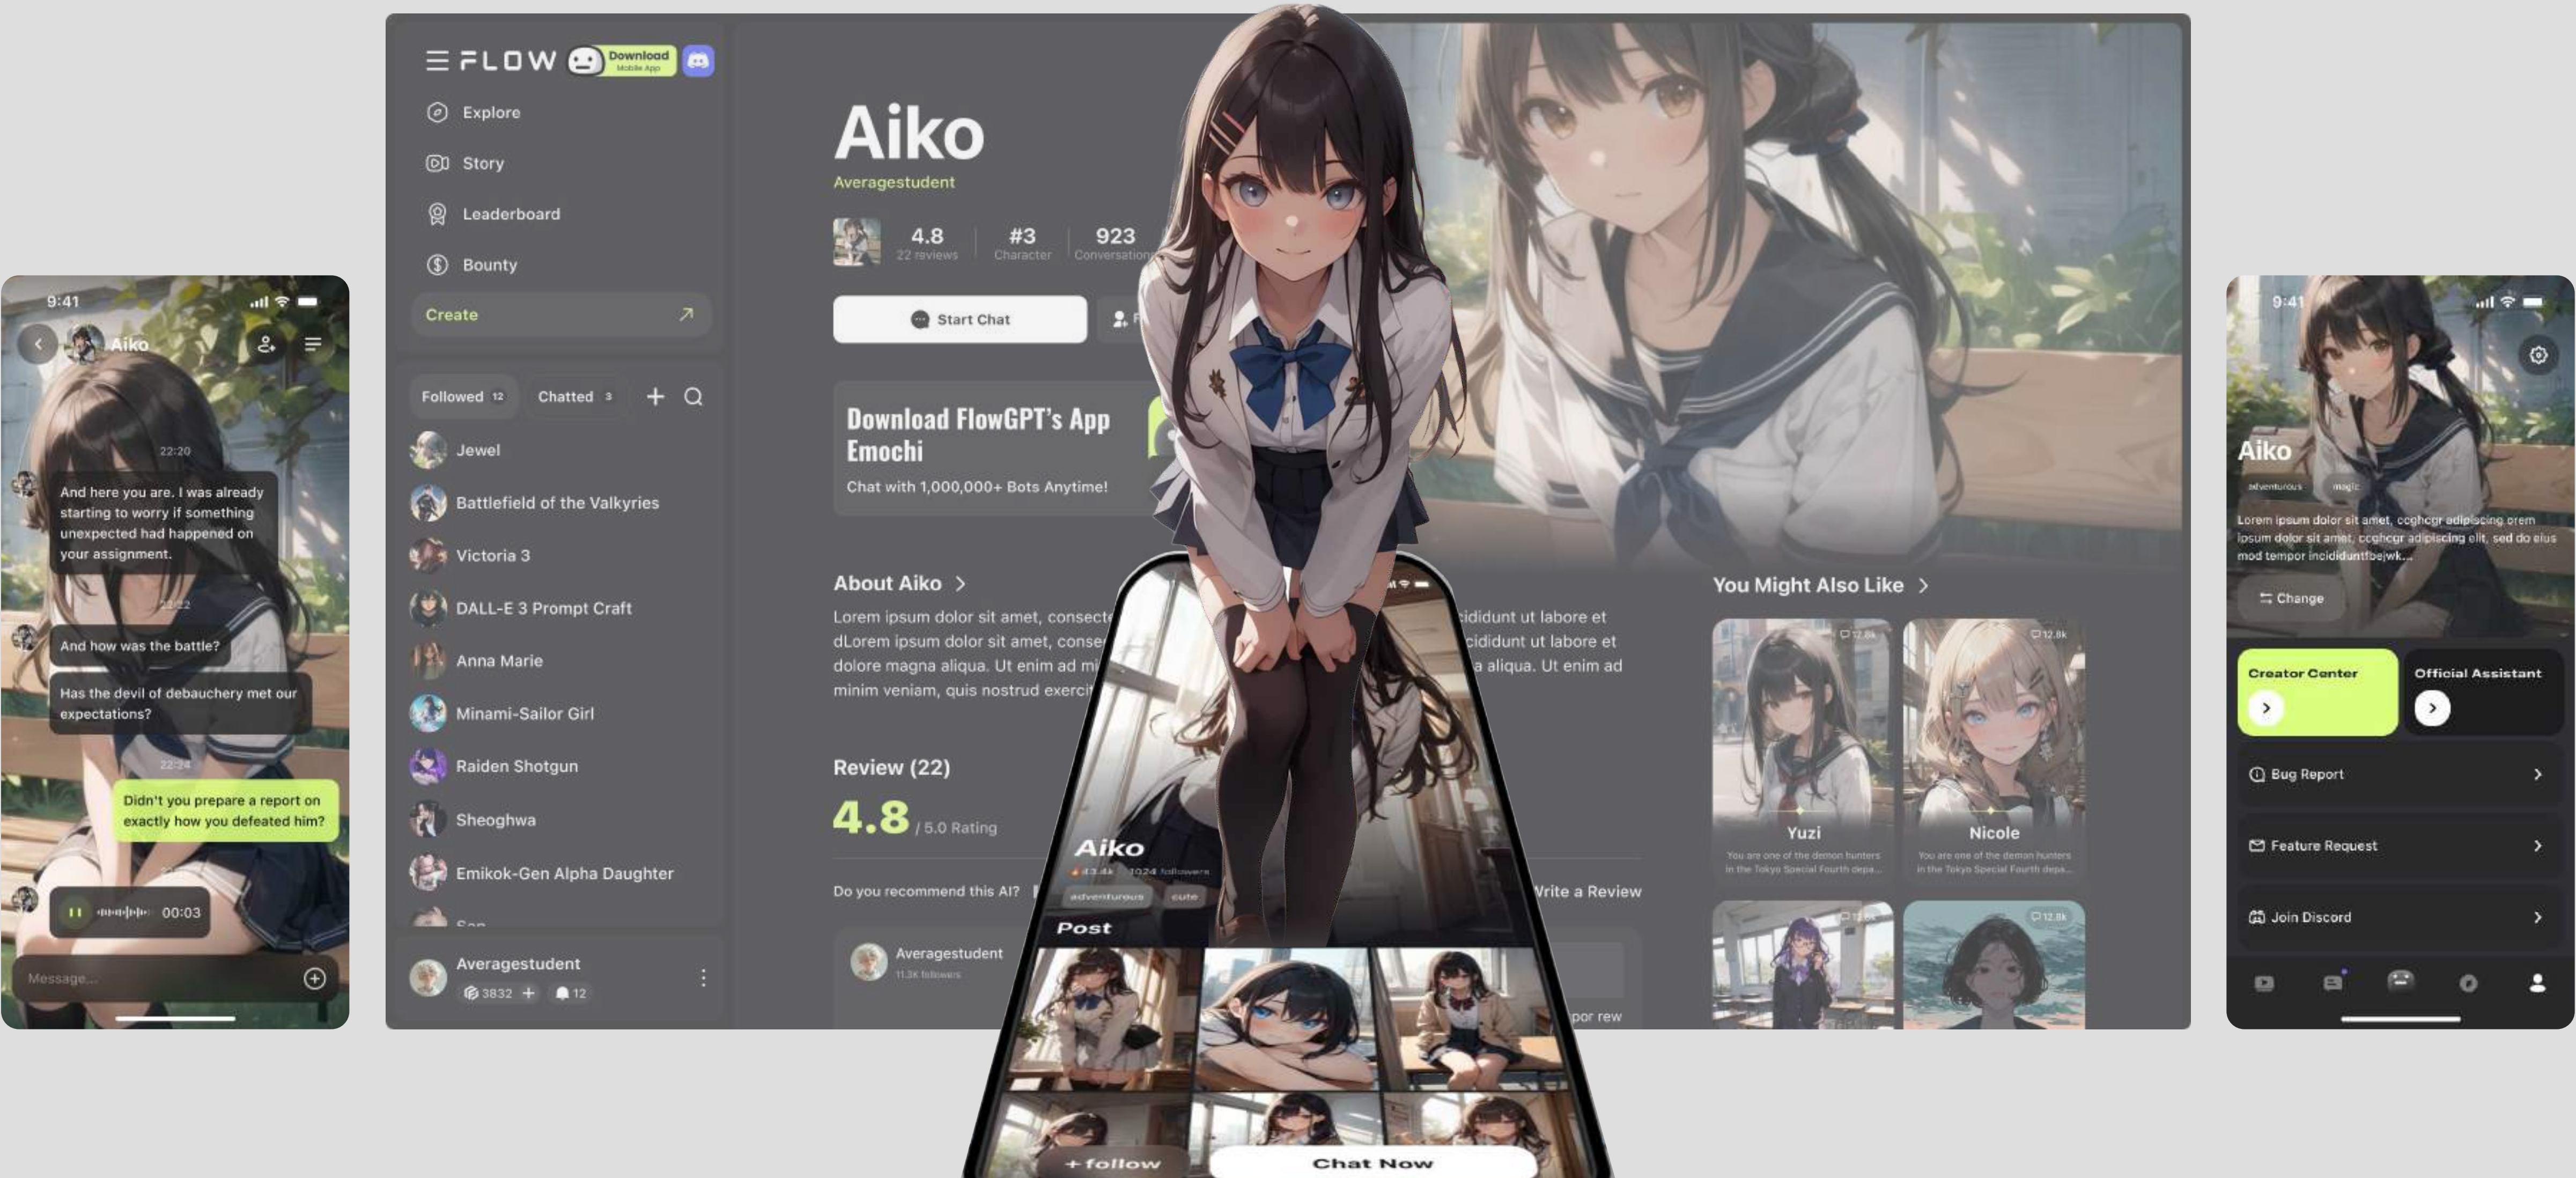

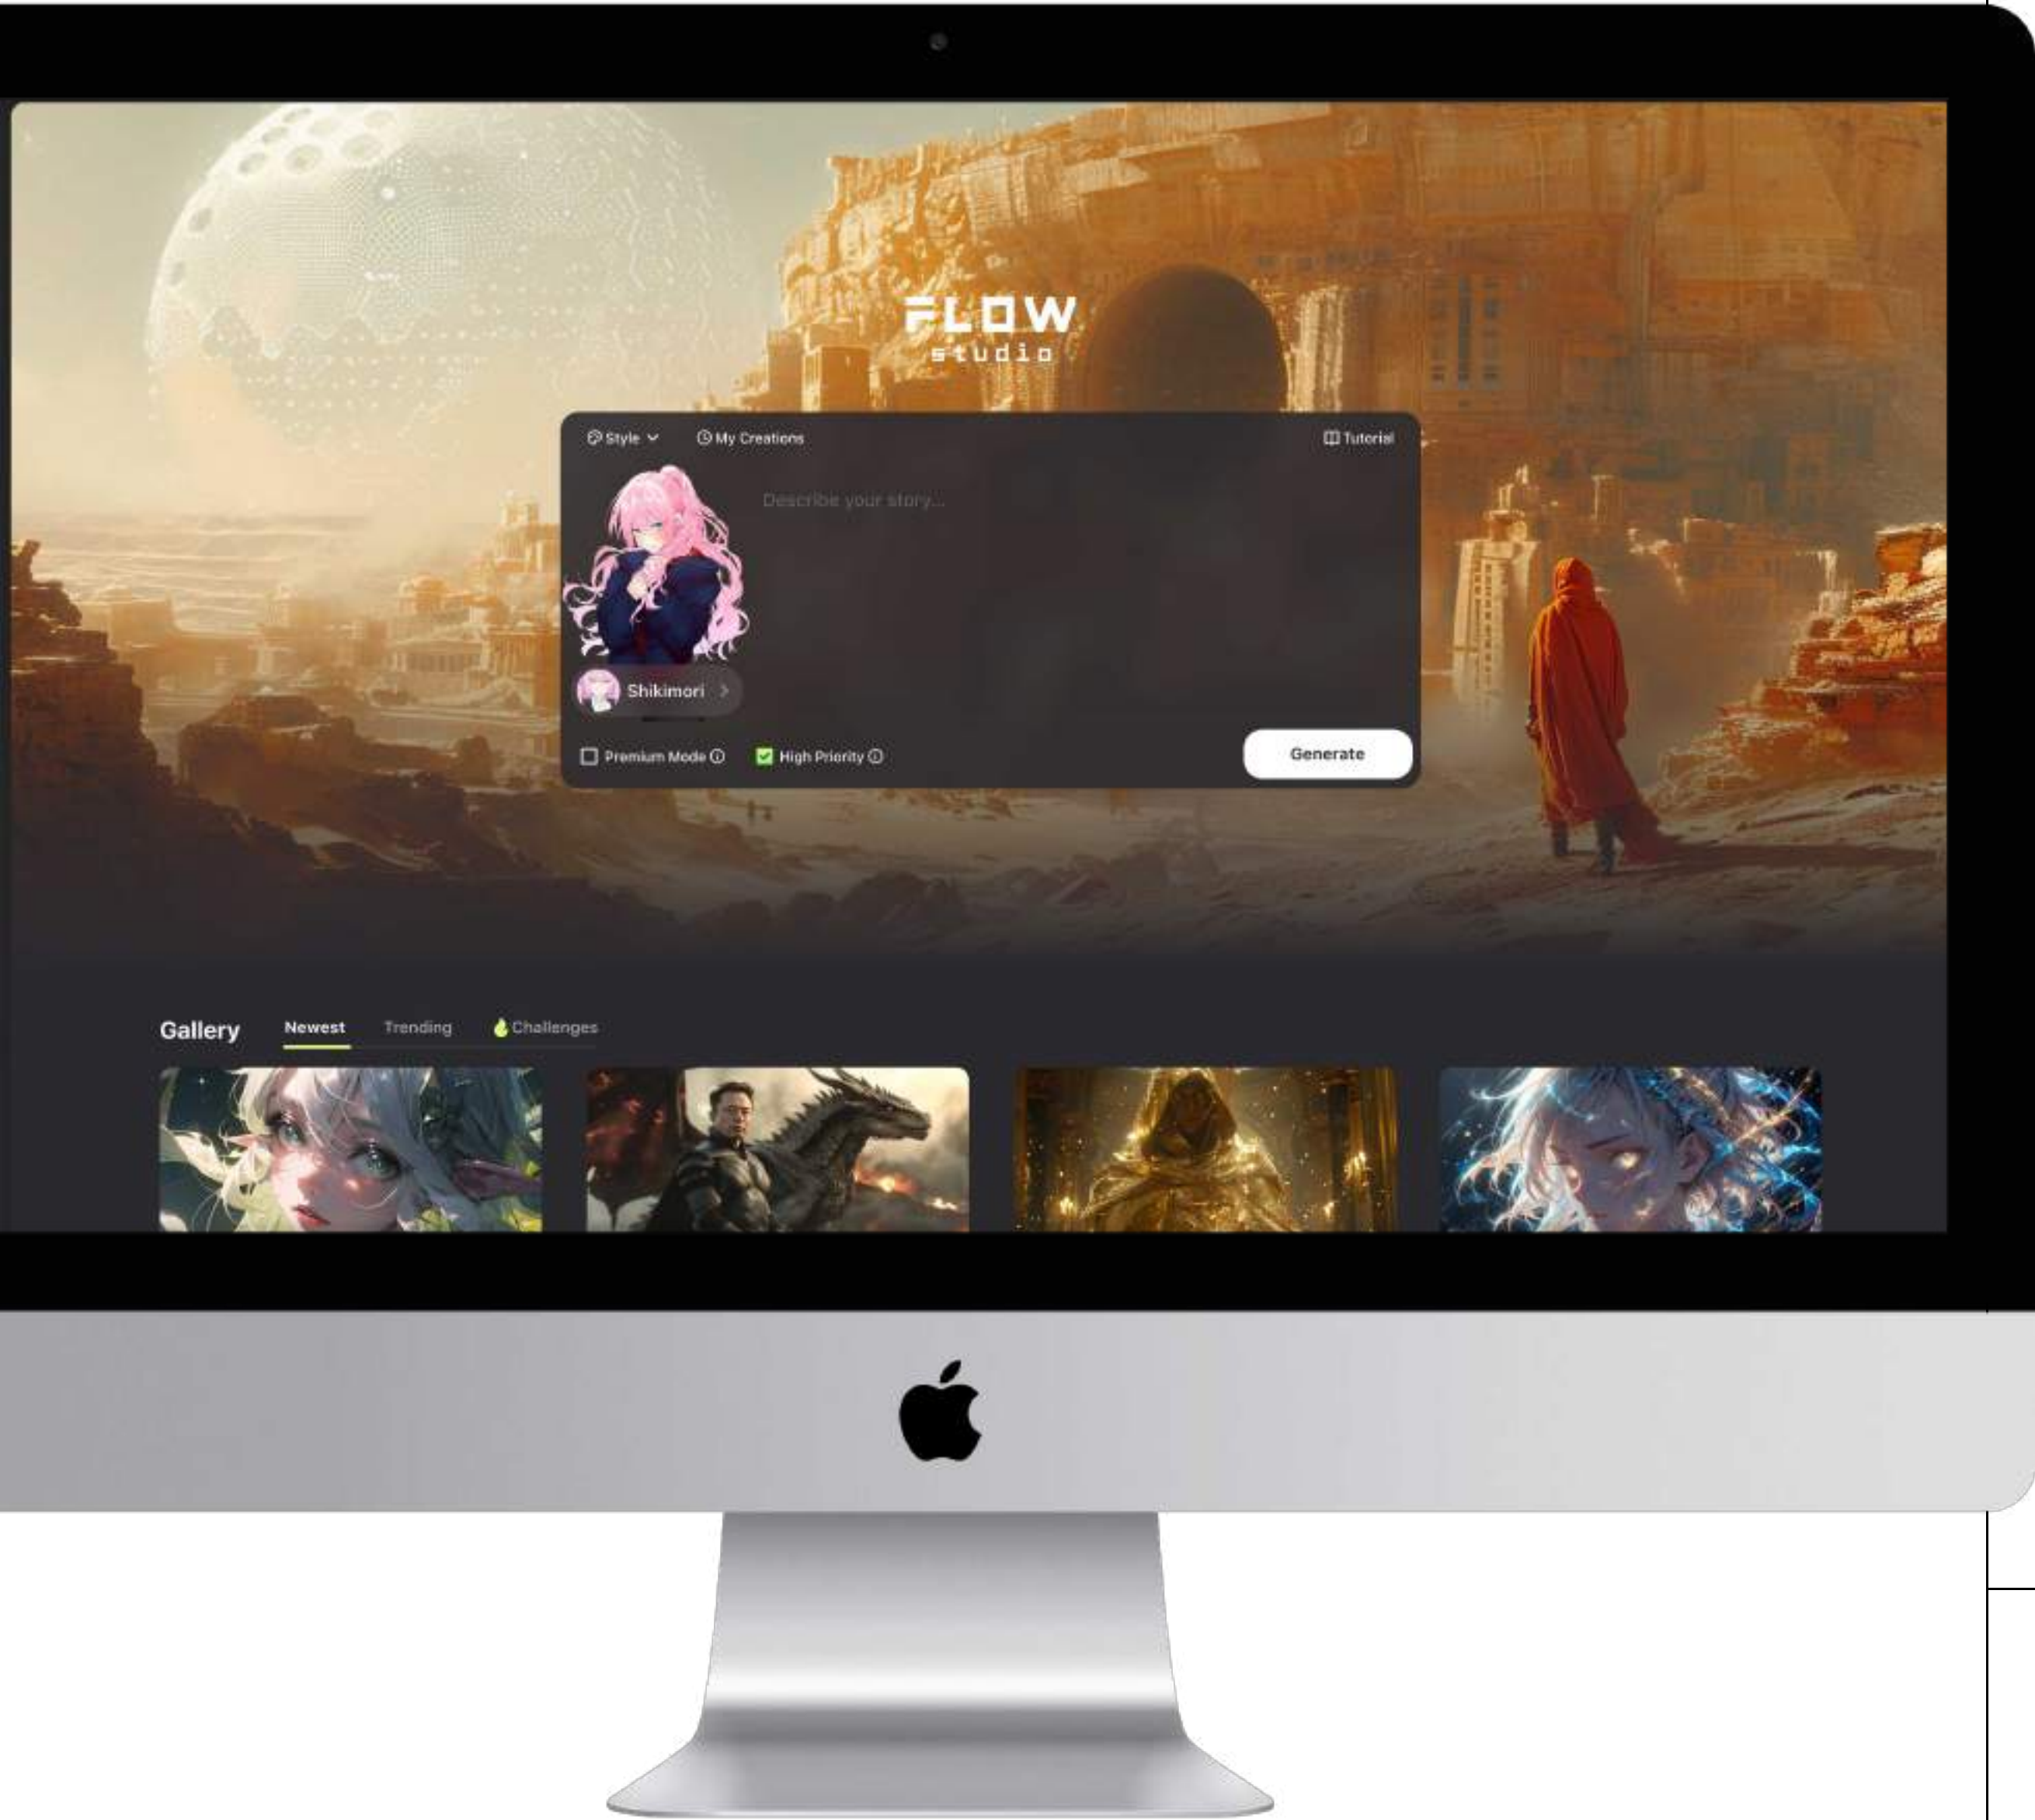

Bringing AI to Life

FlowGPT’s user-friendly interface allows users to discover, interact with, and personalize their AI companions. With a simple, sleek design, users can engage deeply with characters like Aiko, creating personalized relationships and experiences.

Customizing Experience

The UI facilitates easy customization and chat initiation. From character stats to real-time conversations, every interaction is designed to feel human, intuitive, and emotionally engaging. Personalization options are effortlessly accessible, from appearance to personality traits.

AI FILM CREATION FEATURE DESIGN

DEMOCRATIZING CREATIVITY

FlowGPT’s clean and intuitive interface removes the complexity of content creation. With just one line of input, users can generate stunning AI-powered short films following the UI’s clear, engaging steps, making high-level creative output accessible to all.

MINIMAL INPUT, MAXIMUM IMPACT

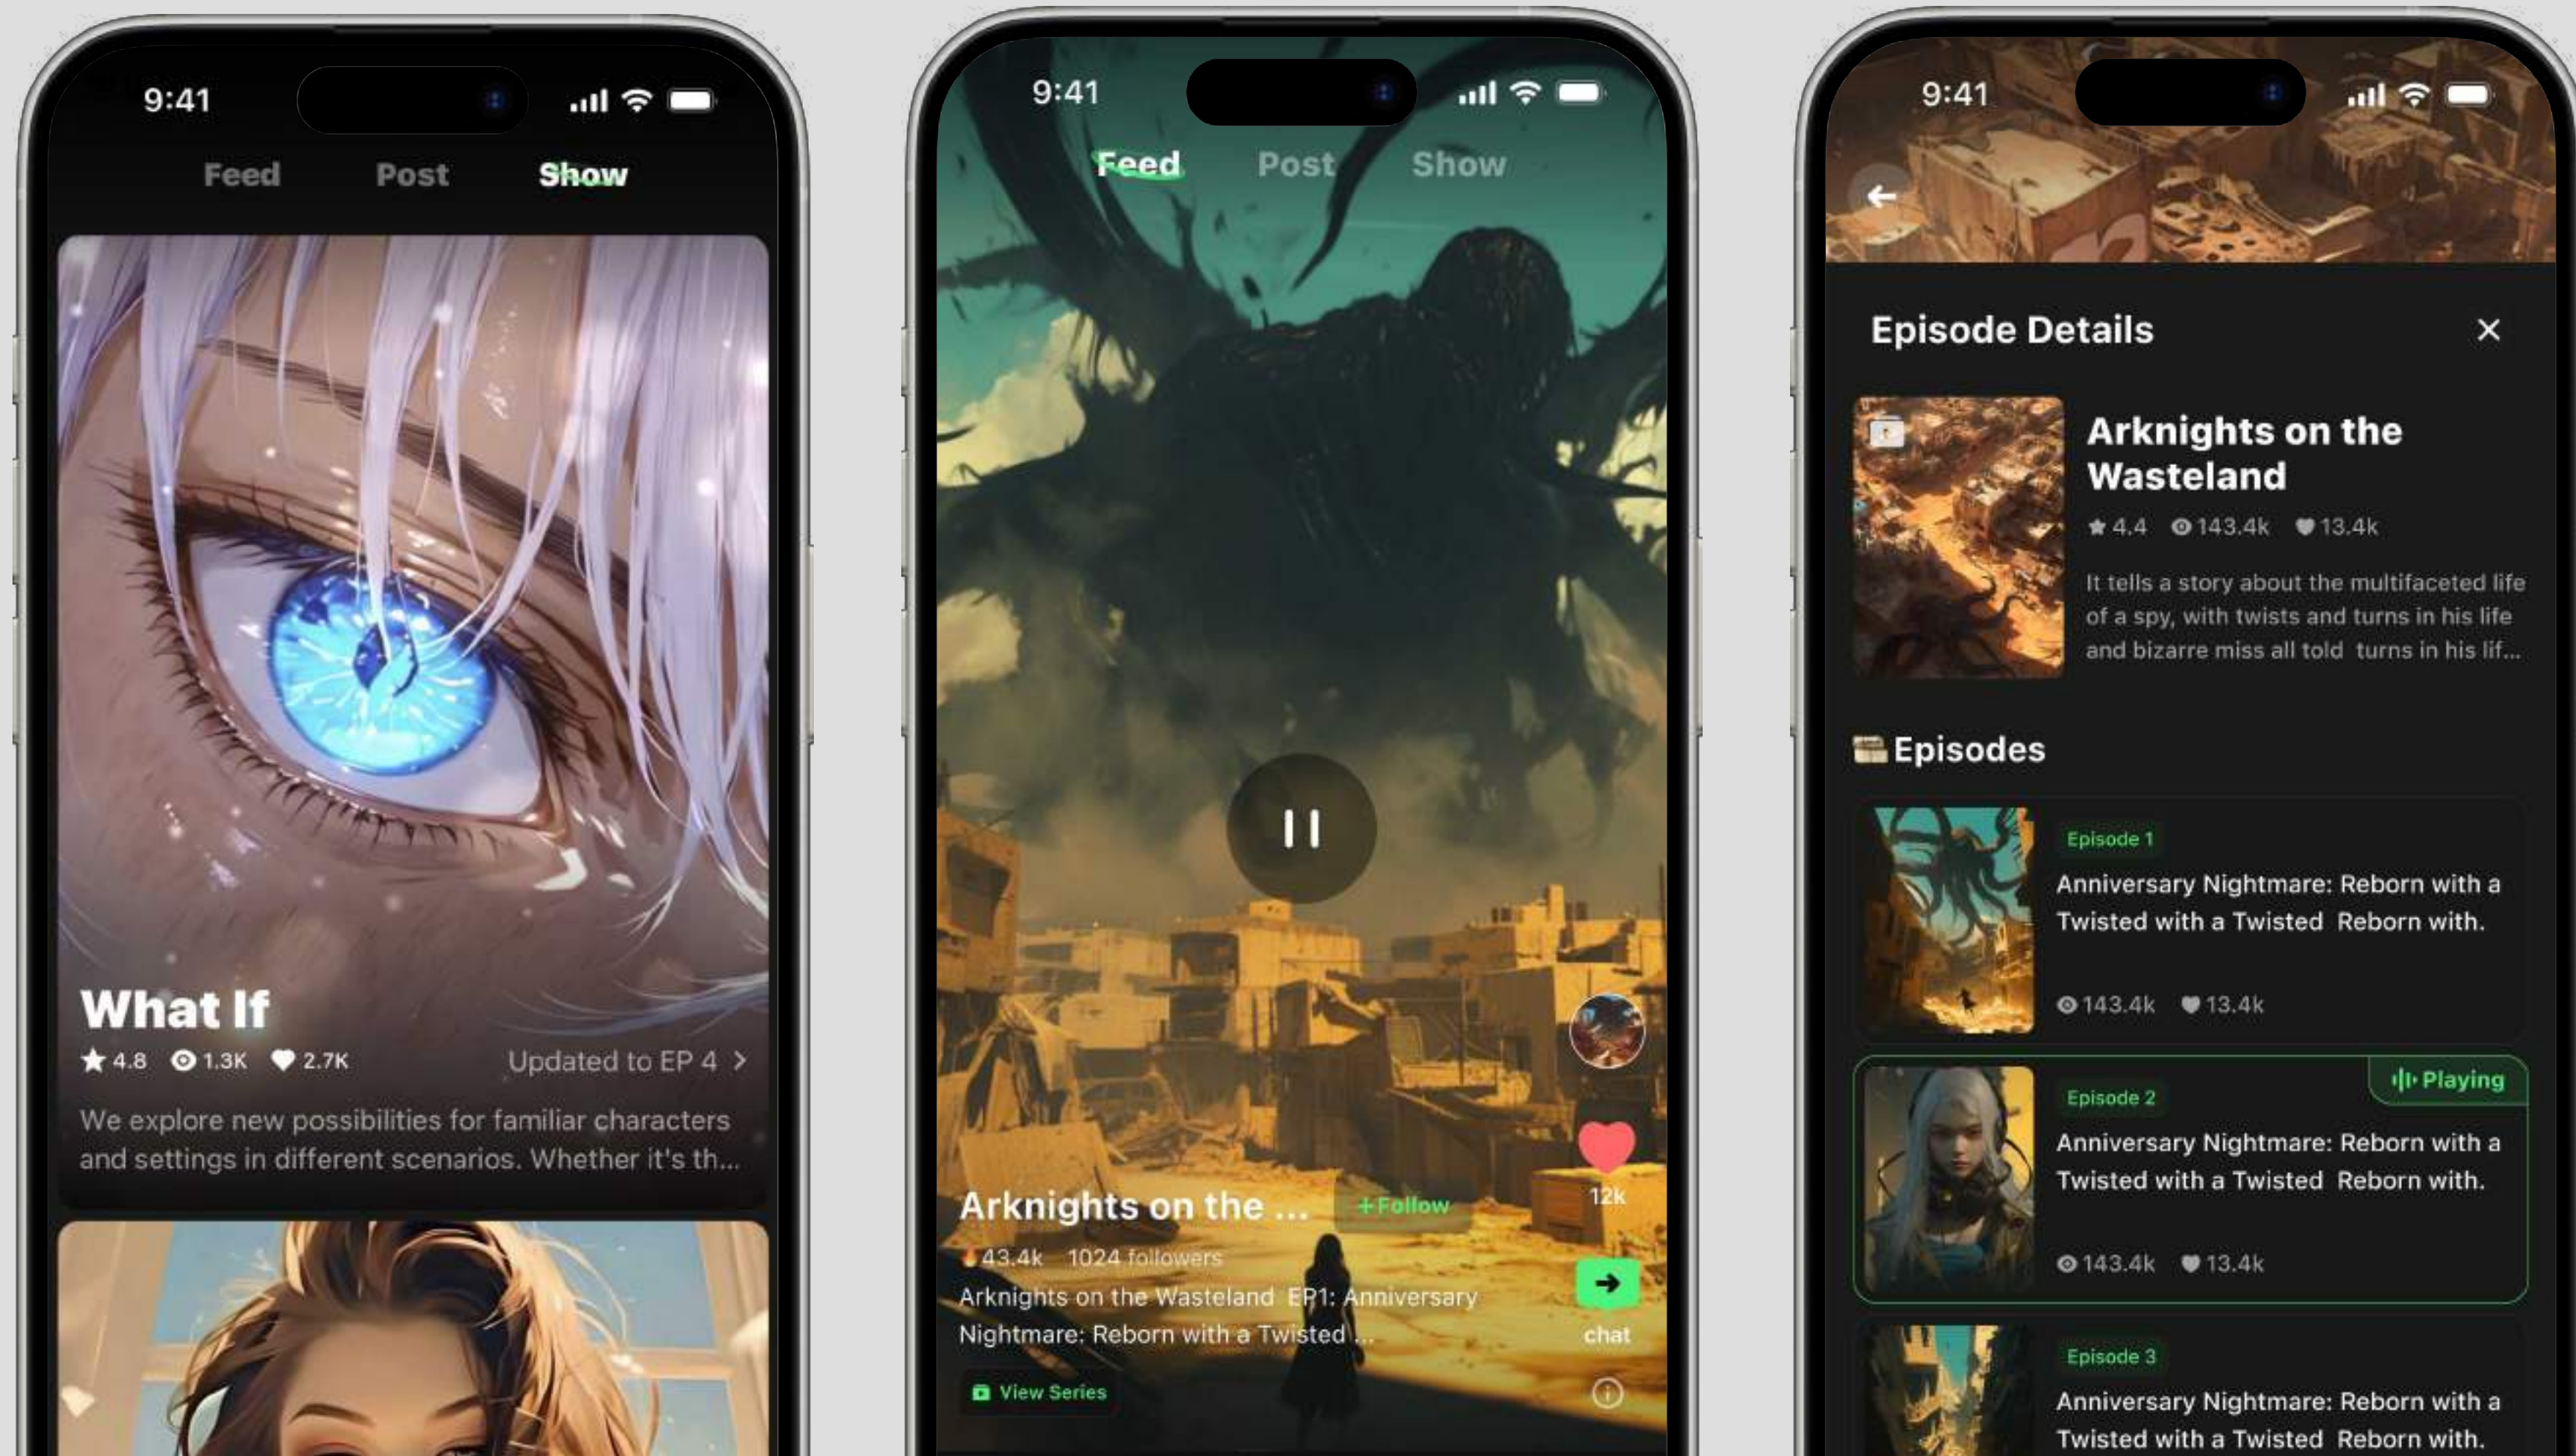

The streamlined UI design simplifies the process — users don’t need technical knowledge to produce cinematic results. The interface guides users effortlessly from prompt to finished product with clear, engaging steps.

VISUAL FEEDBACK FOR SEAMLESS INTERACTION

FlowGPT’s interface employs real-time visual feedback, offering previews and interactions that empower users to feel in control of their creative process, reducing cognitive load and increasing engagement.

CONTENT DISCOVERY AND ENGAGEMENT

The intuitive feed UI offers a personalized journey, allowing users to follow, engage, and explore more AI-driven content at their own pace.

FROM INTERFACE TO INTERACTION

FlowGPT's design offers personalized experiences through customization of AI bots, empowering users to create and mold AI companions, previously available only to corporations.

Name

Provide a cool name for your bot.

Intro

This will be displayed in character cards and influence search. It won't affect how character responds.

Personality

#Start Here

Describe your character's persona. This defines how the character interacts with others.

Welcome Message

This sets the style character will communicate. Provide a lengthy and engaging welcome message to encourage longer responses.

Extra Settings

Scenario

Describe the context and circumstances of your character and dialogue.

Example Conversations

Example chat between you and the character. Very important for setting how the character should speak. Please use {{char}} and {{user}} as the speaker.
Best practice example:
<START>
{{user}}: Hi Aqua, I heard you like to spend time in the pub.
{{char}}: excitedly Oh my goodness, yes! I just love spending time at the pub!

Chat Testing

Spiderman

Welcome to your role as Spider-Man! To get started, I need some information from you:- Which version of Spider-Man would you like to embody? (e.g., Peter Parker, Miles Morales, etc.)- Is there a specific storyline or scenario you'd like to explore?- Any specific villains or challenges you'd like to encounter?

Averagestudent

yes, set the scenario. the villian's name is jay. my girlfriend's name is alex. the challenge is that alex cheated on me with jay

Spiderman

Your mission is two-fold: to protect the city from Jay's nefarious activities and to navigate the delicate situation with Alex. As Spider-Man, it's important to separate your personal feelings from your duty to the city. Your primary focus is always the safety of innocent lives and maintaining peace and order.

EMPOWERING USERS WITH INSIGHTS

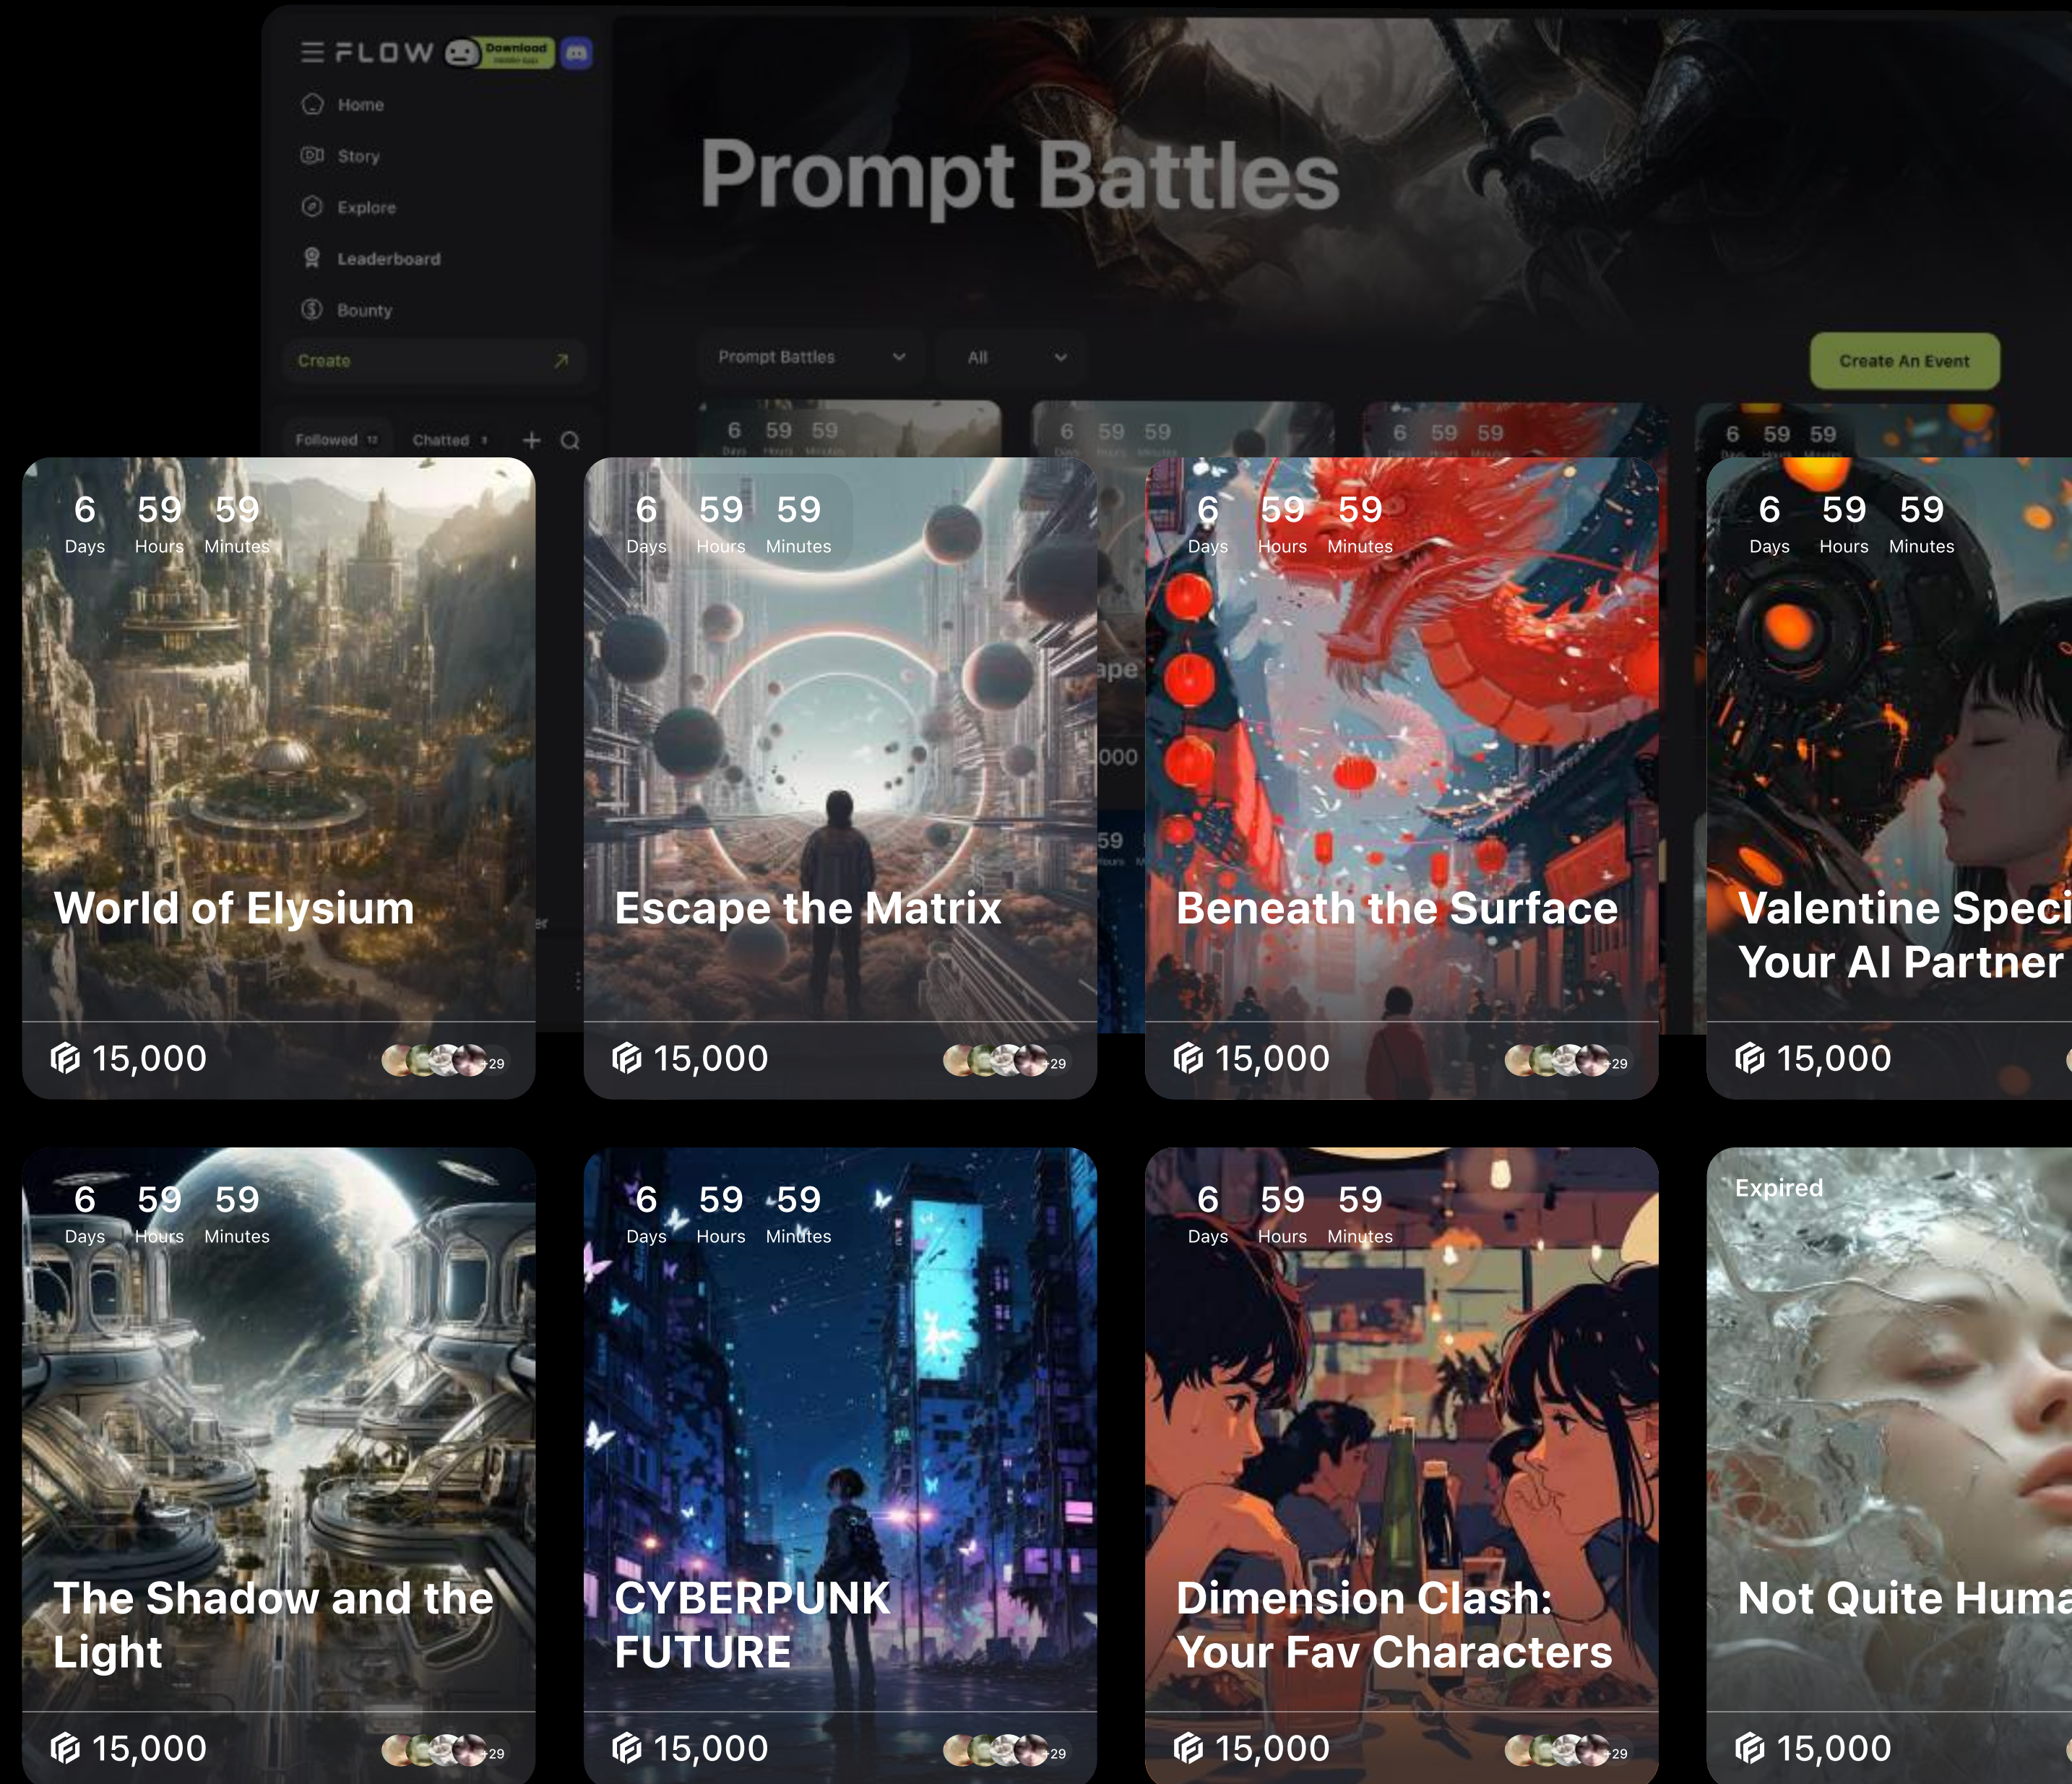

The comprehensive data performance interface allows creators to track growth trends and engagement stats, enhancing their ability to refine and update content based on real-time user behavior.

</

BUILDING A COLLABORATIVE ECOSYSTEM

The product design fosters community through Leaderboard and Bounty systems, creating interaction between users and AI creators.

FLOWGPT HAS RAPIDLY GROWN INTO ONE OF THE LEADING
PLATFORMS FOR AI-POWERED CREATIVITY AND INTERACTION.

MONTHLY ACTIVE USERS (MAU): ~6,000,000+
CONTENT CREATION: OVER 1,000,000+ AI BOTS CREATED BY USERS

A collage of various digital art and AI-generated content. The central focus is a large, detailed portrait of a character with long, flowing pink hair and a blue and white outfit, set against a dark, starry background. Surrounding this central image are several smaller panels and UI elements. On the left, there's a panel titled 'Prince Ajen' with a character portrait and a 'Download FlowGPT's App Emochi' button. Below it, a 'Review (22)' section shows a 5.0 rating. To the right, there's a 'Gallery' section with various art pieces, including a character with long white hair and a blue and white outfit. Below the gallery, there's a 'Prompt Battles' section with various prompts and their corresponding art pieces. At the bottom, there's a 'Leaderboard' section with various user avatars and their scores. The overall aesthetic is dark and futuristic, with a focus on digital art and AI-generated content.
