Crowd analysis

Market growth rate & crowd growth rate

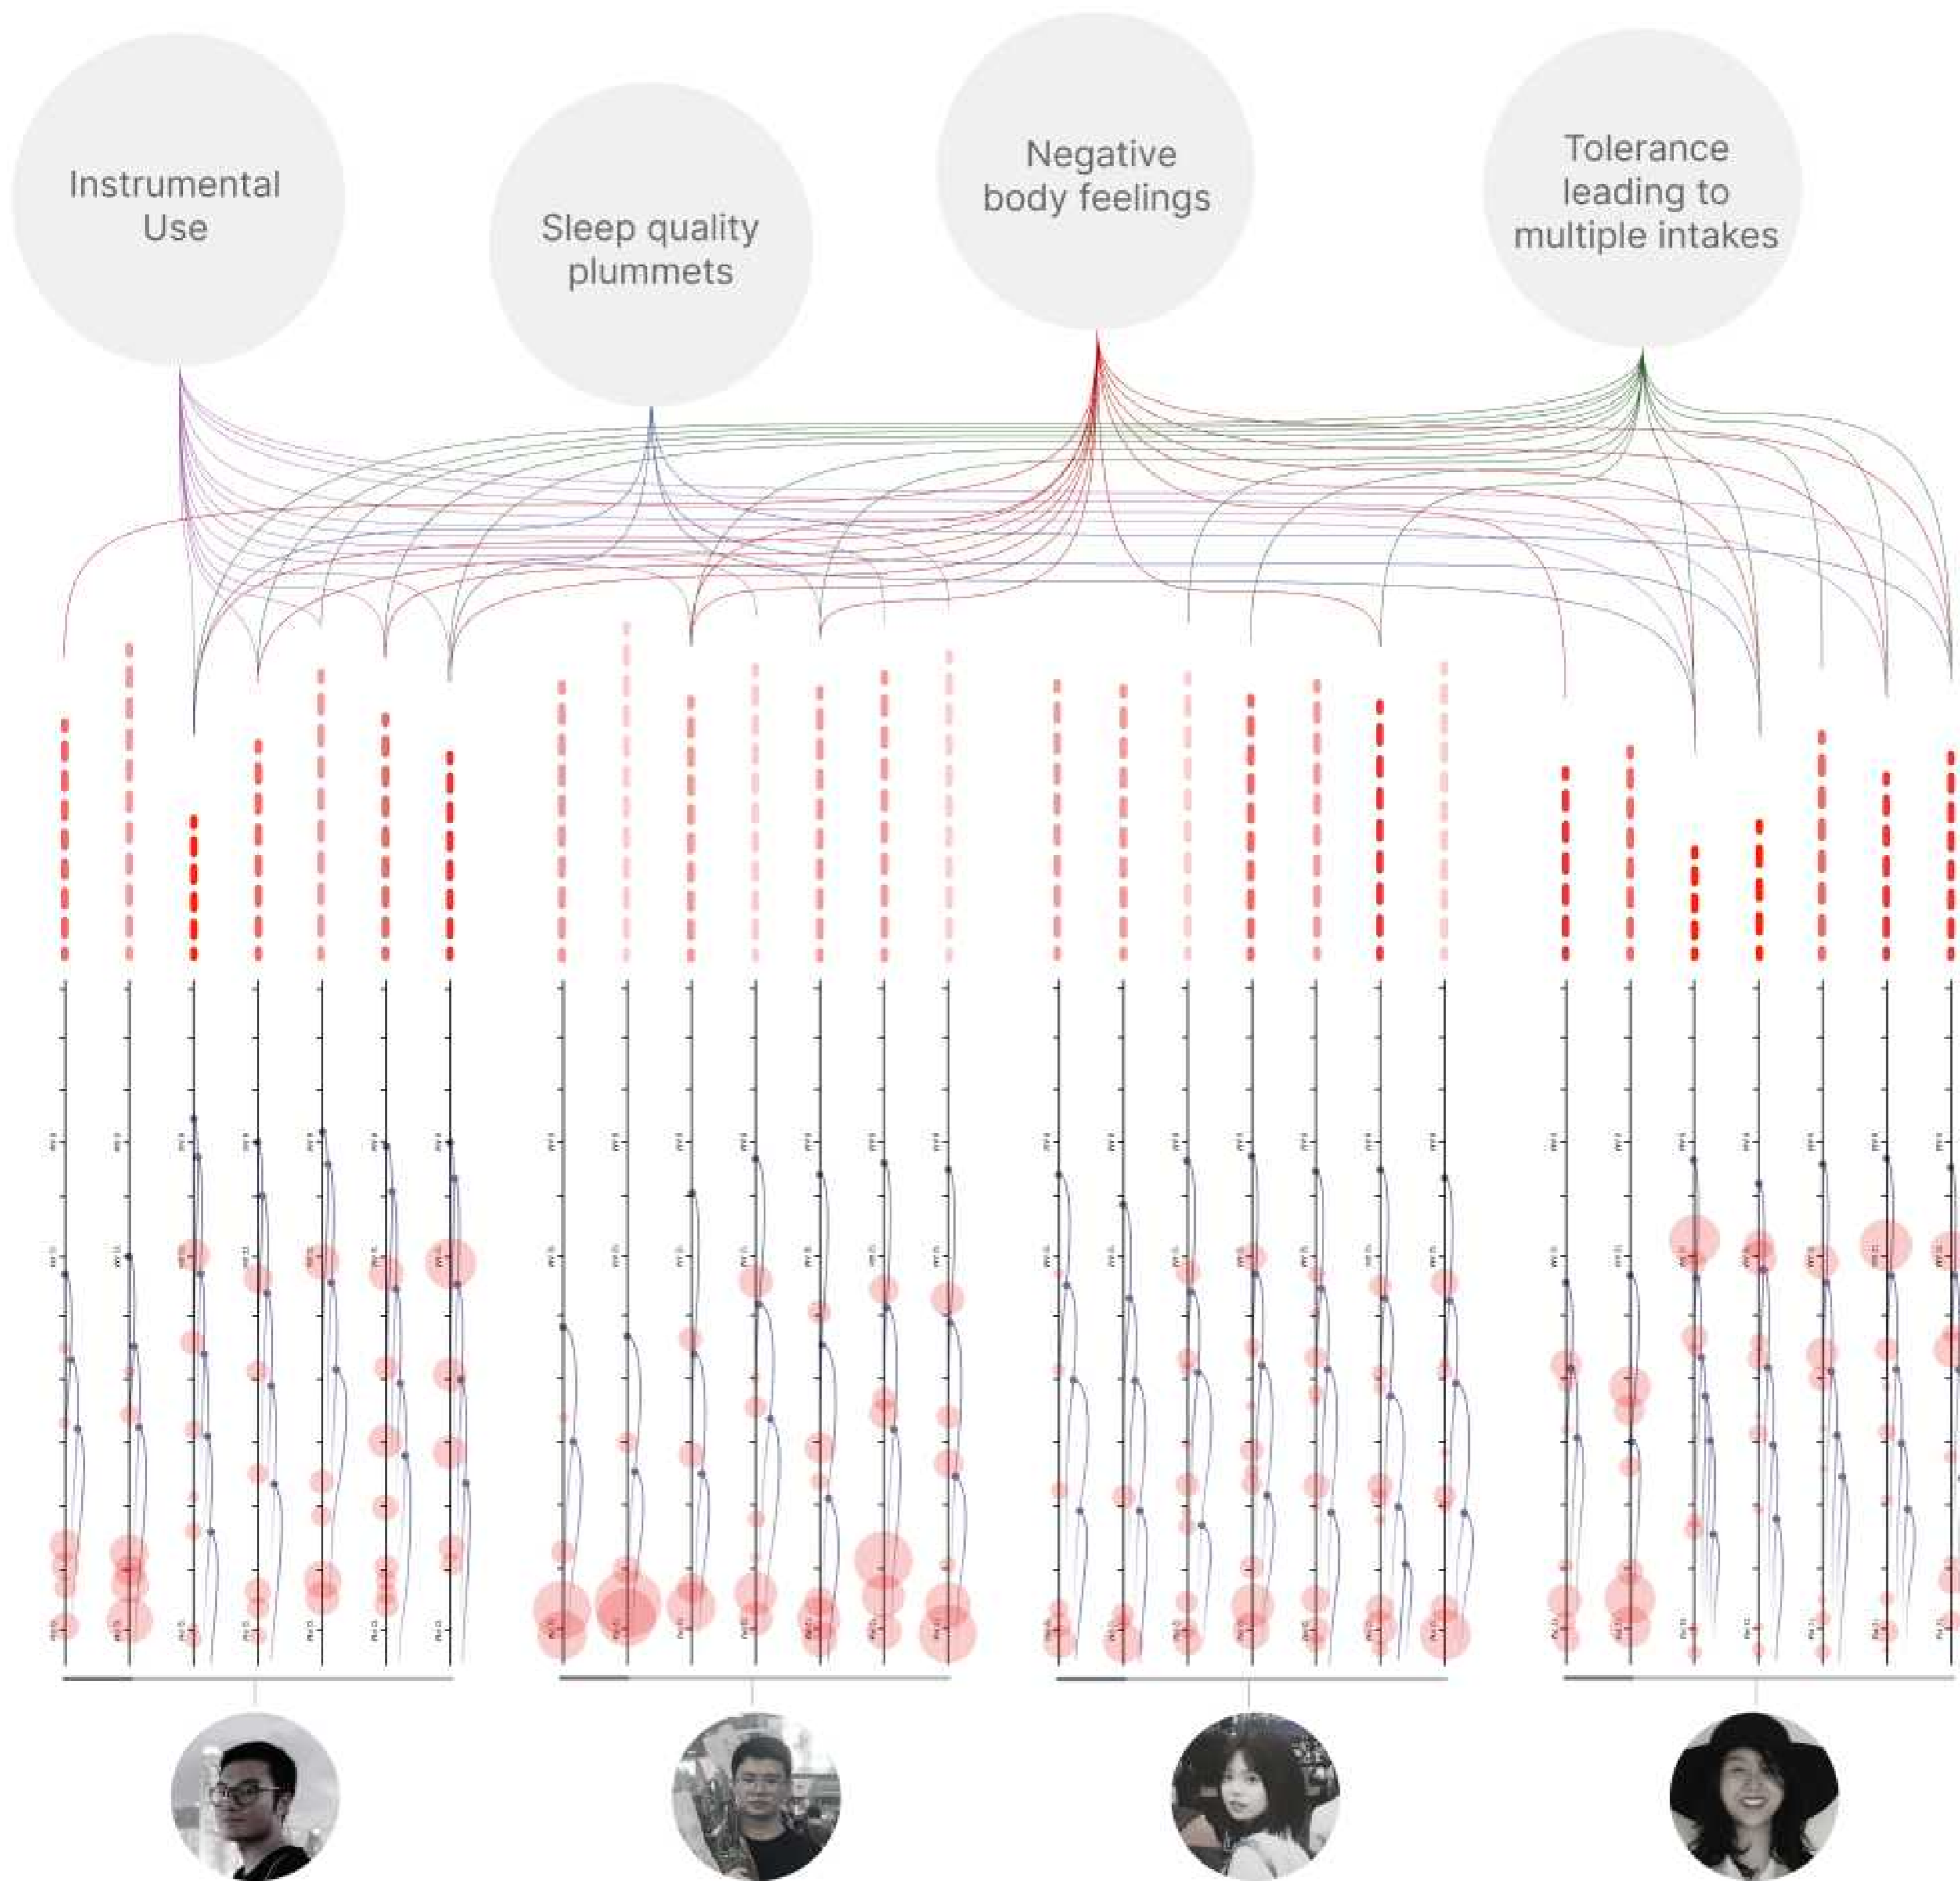

Percentage of coffee drinkers

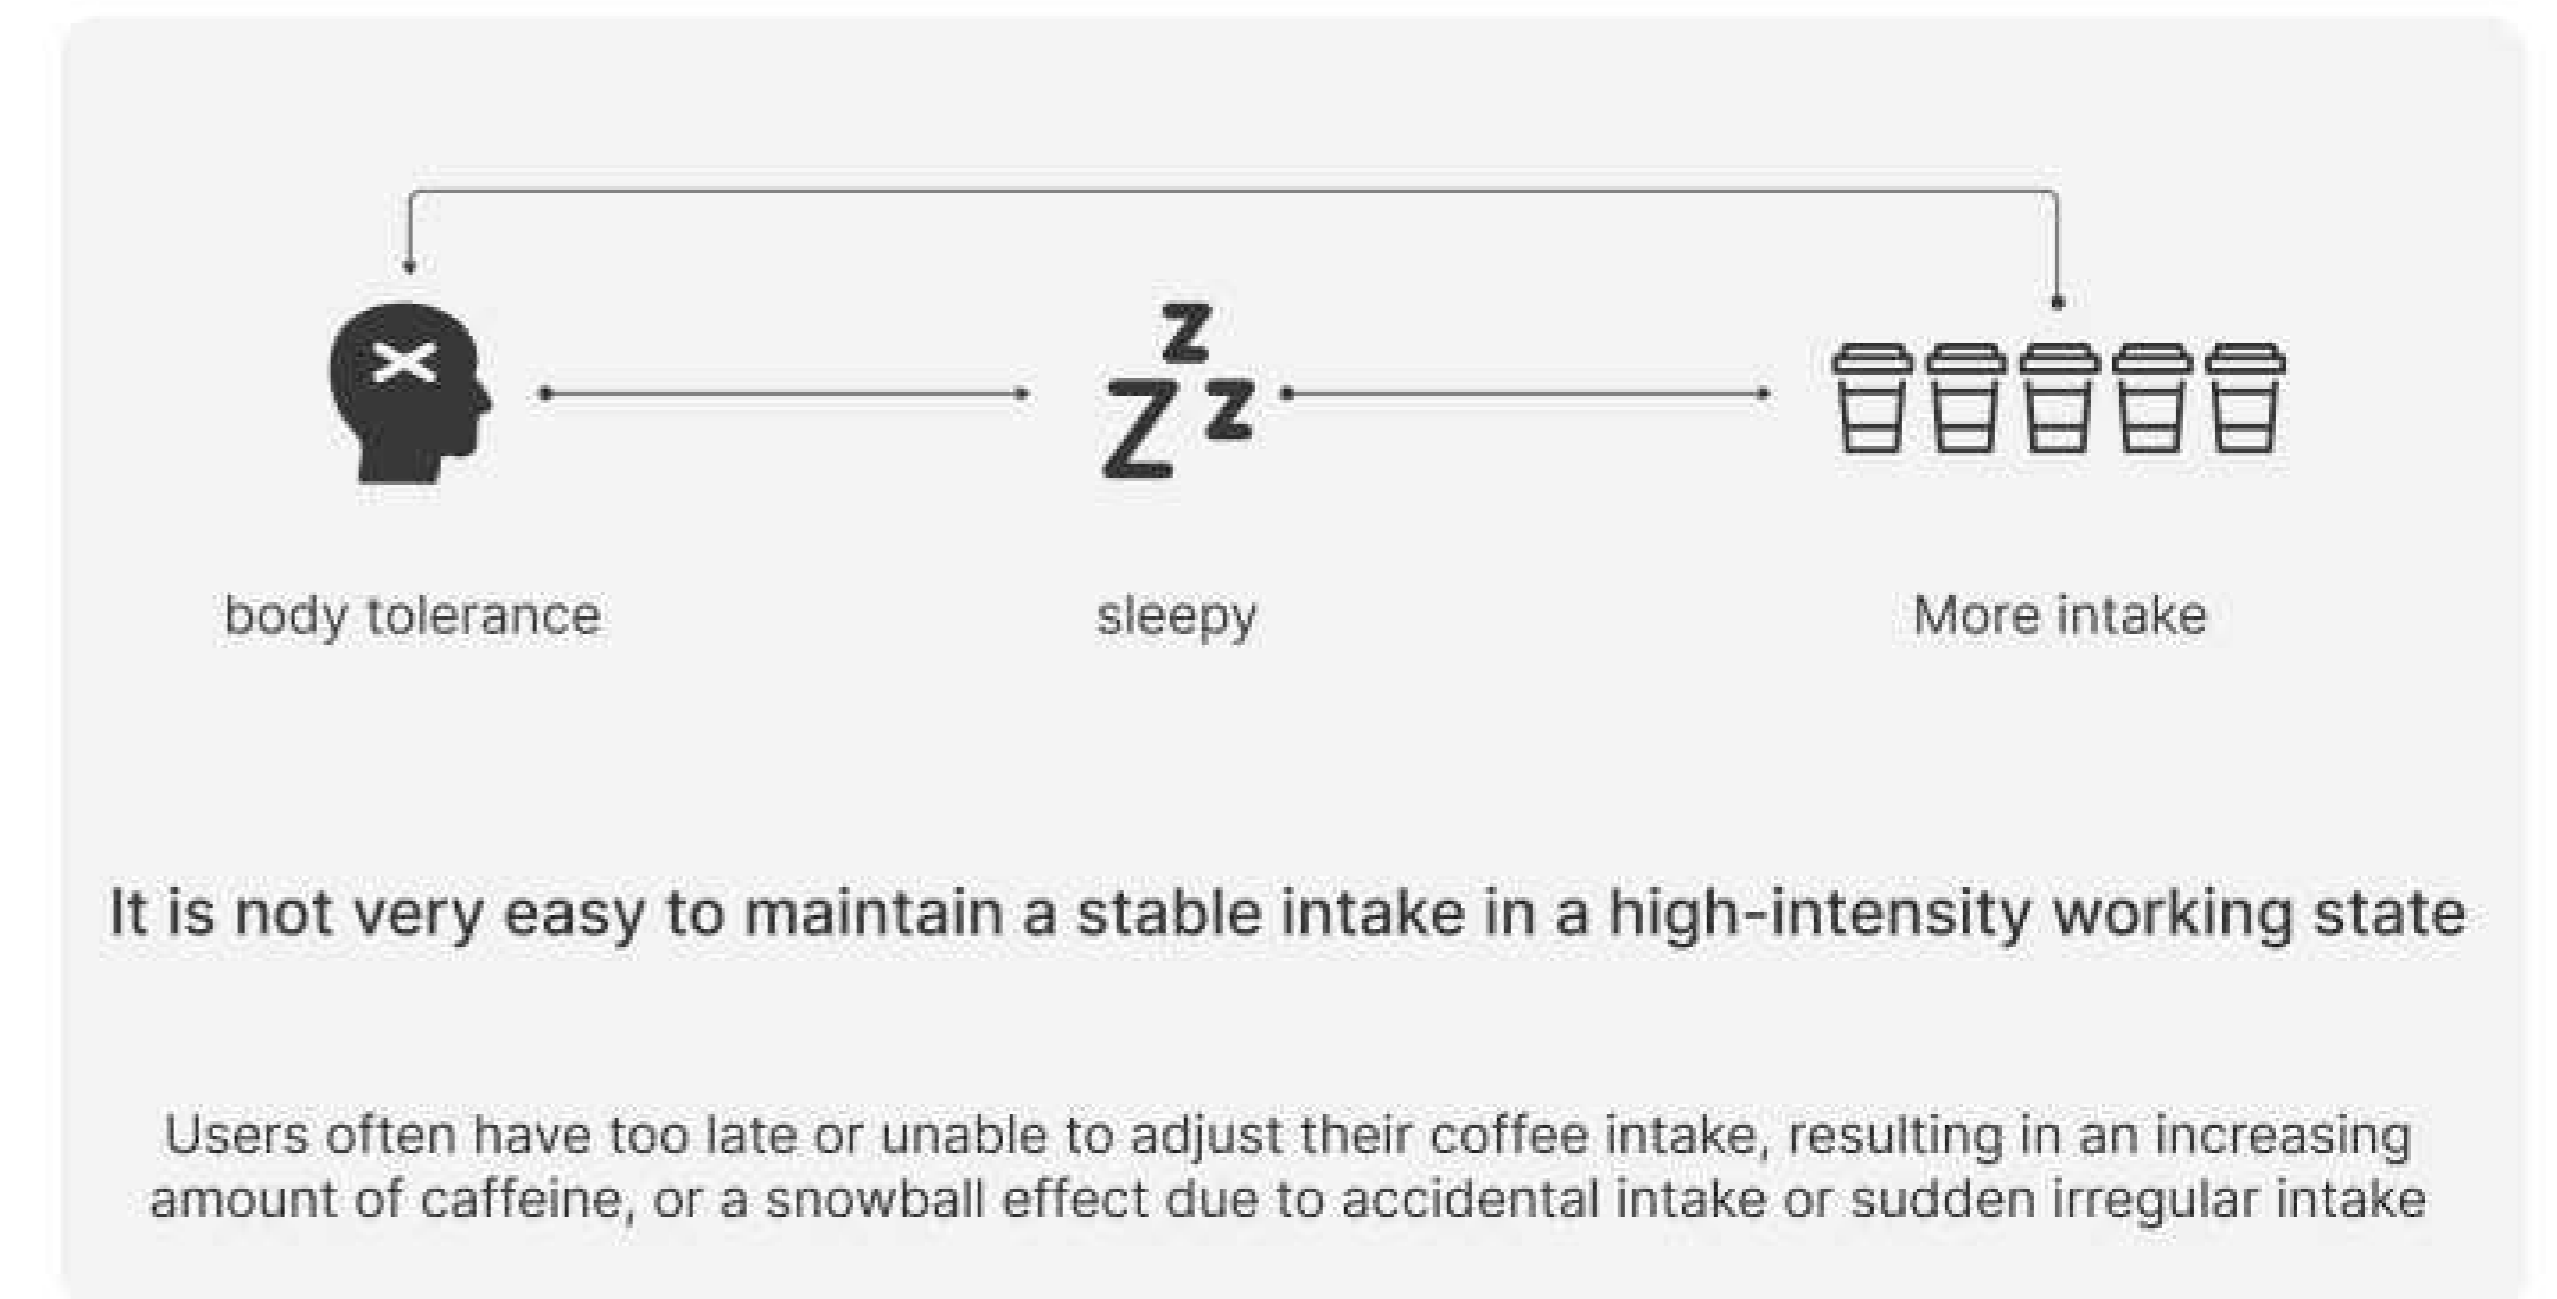

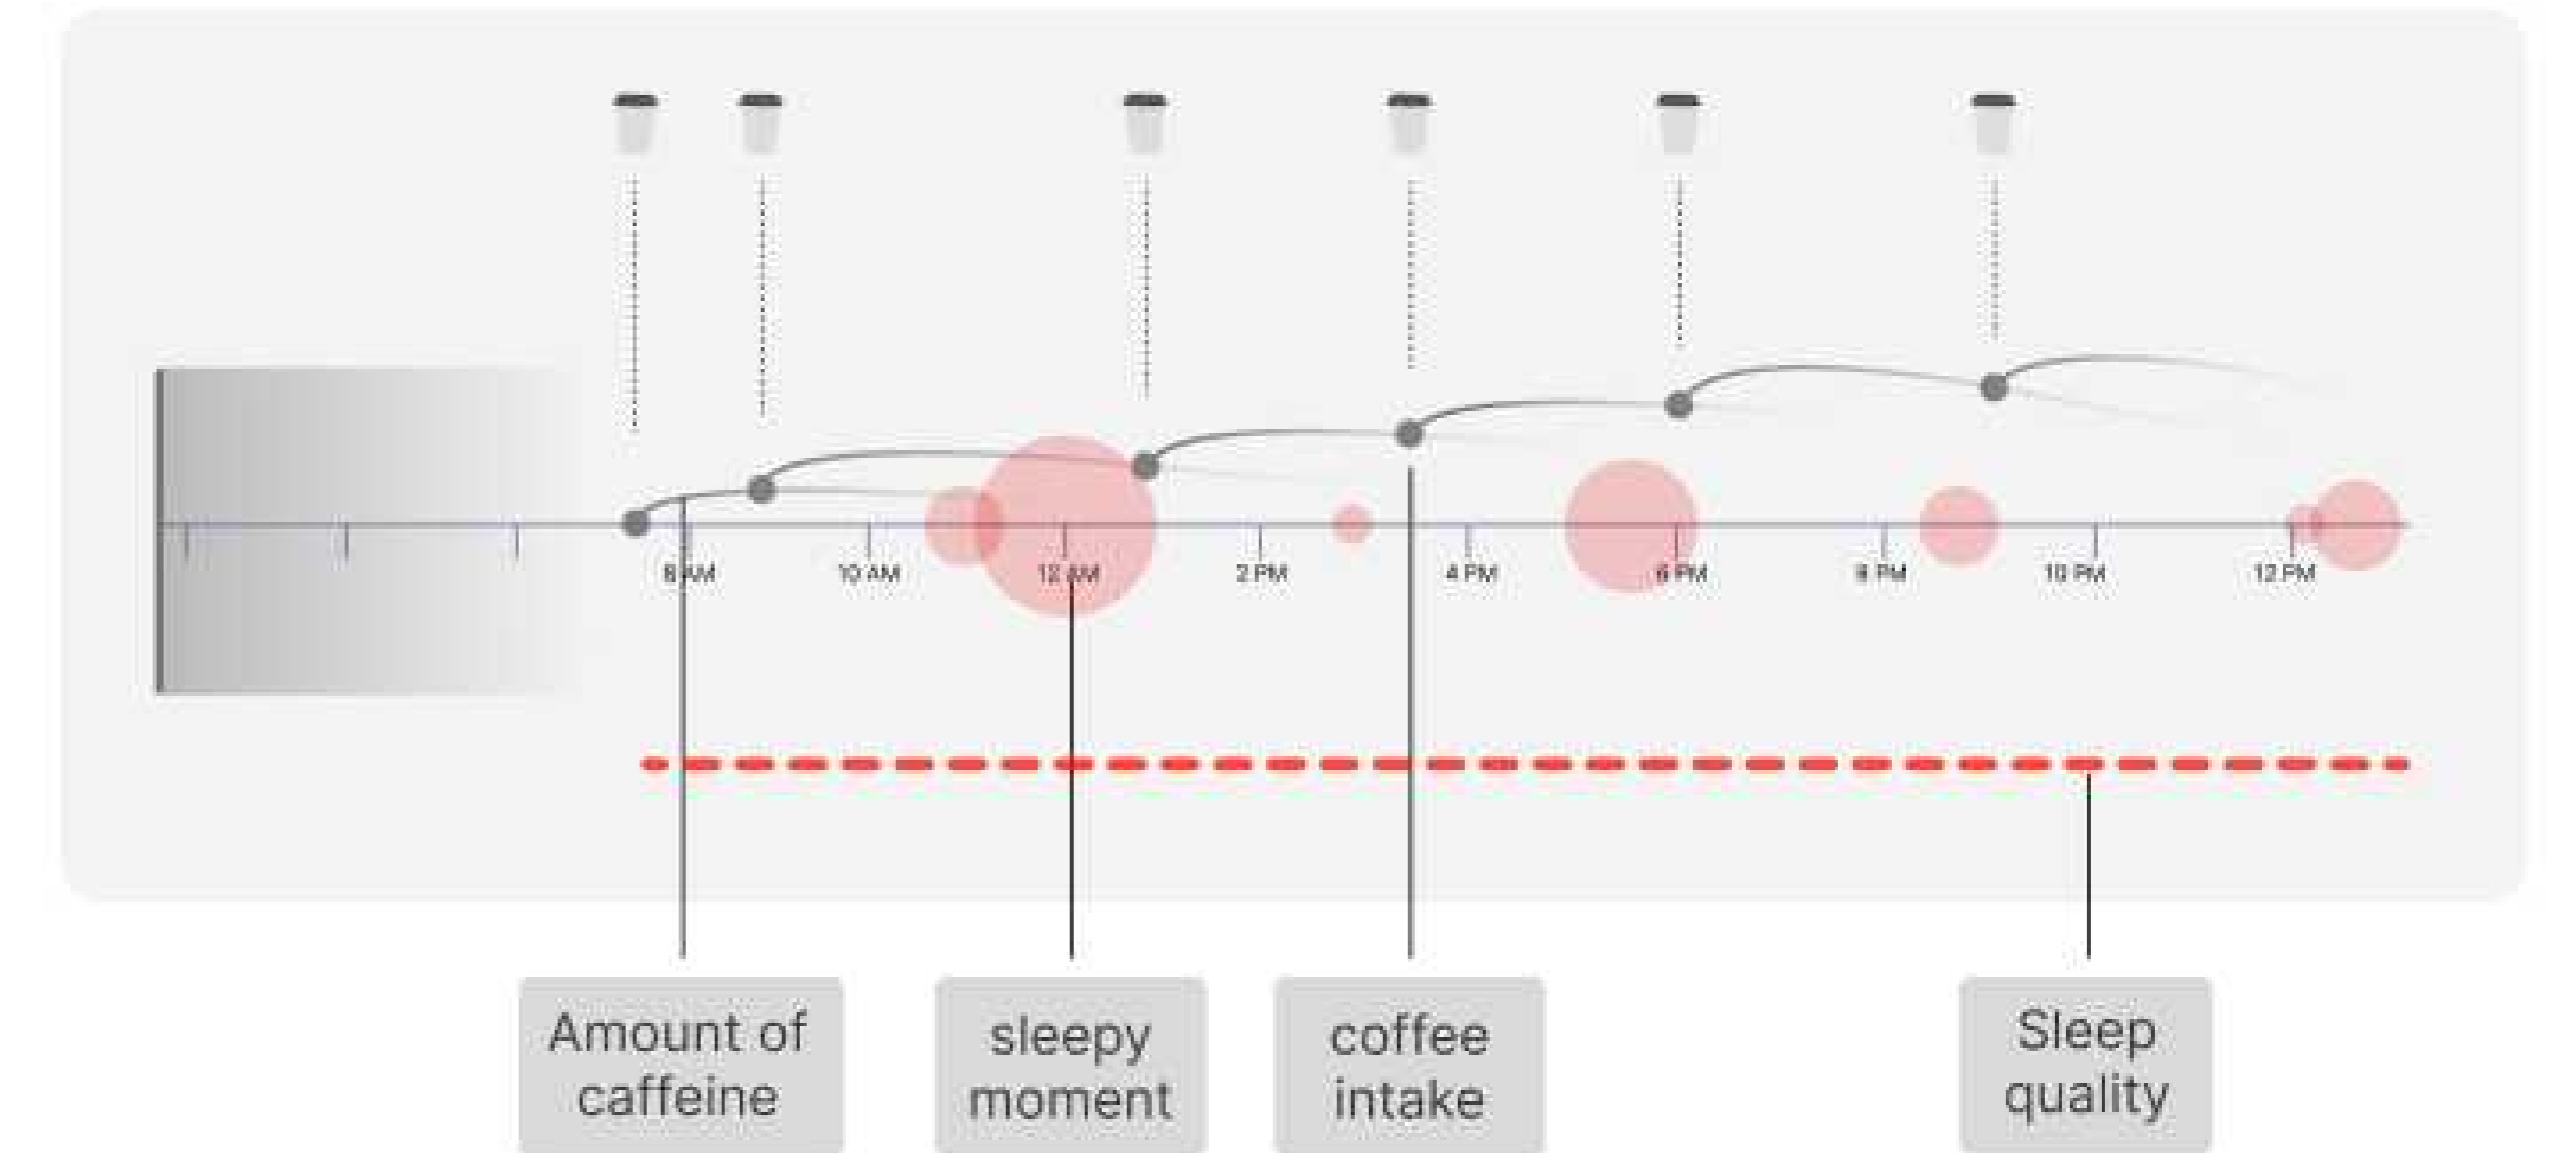

- growth potential
- consumer power
- Number of intake

The traditional core consumer group of China's coffee market is mainly the urban middle class between 25 and 40 years old. As the post-90s and post-00s generations gradually become economically independent consumers, they have begun to have a significant impact on the coffee market.

Caffeine Journey Map

Problem Definition

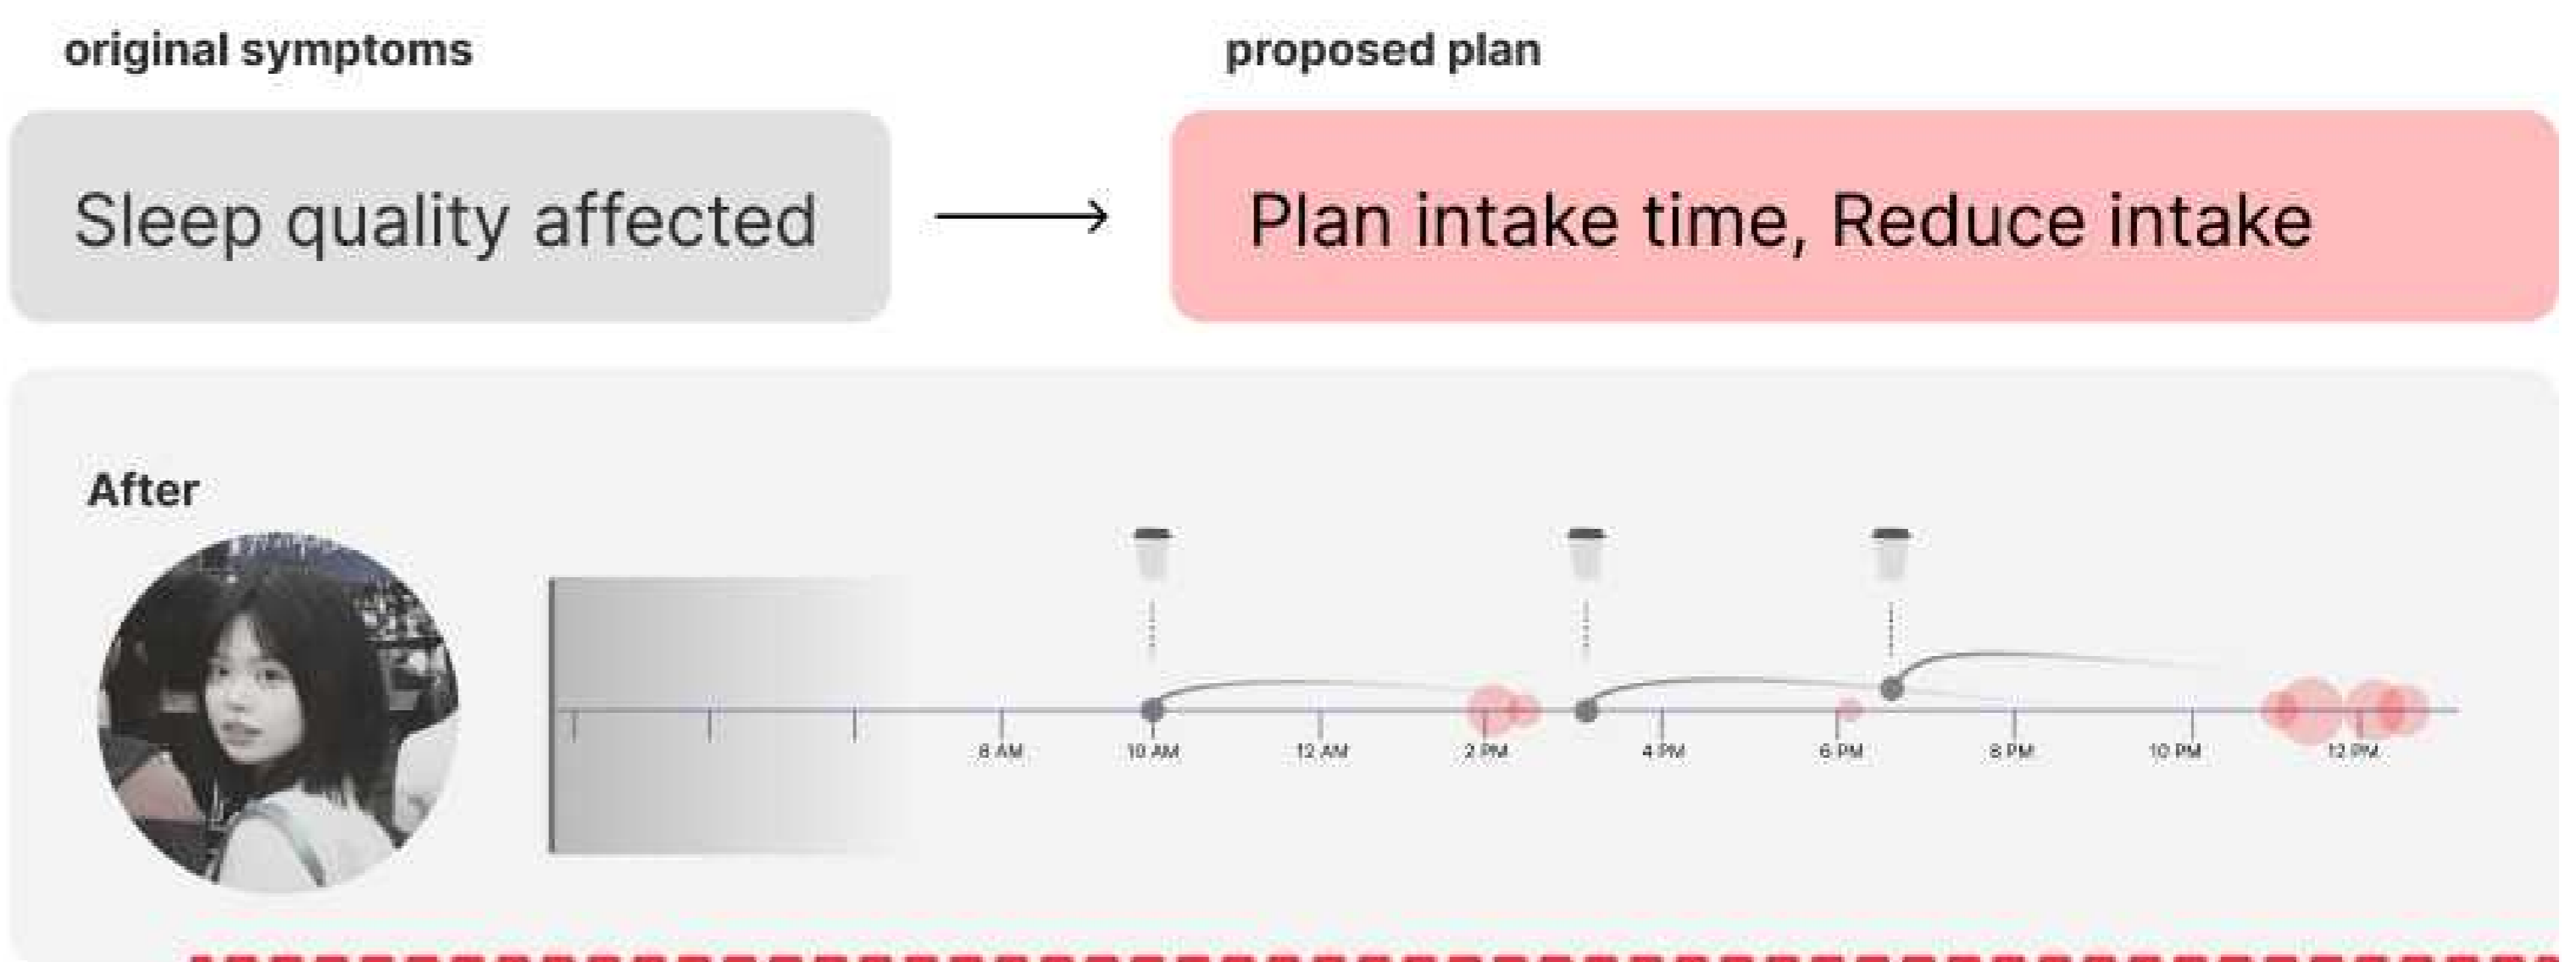

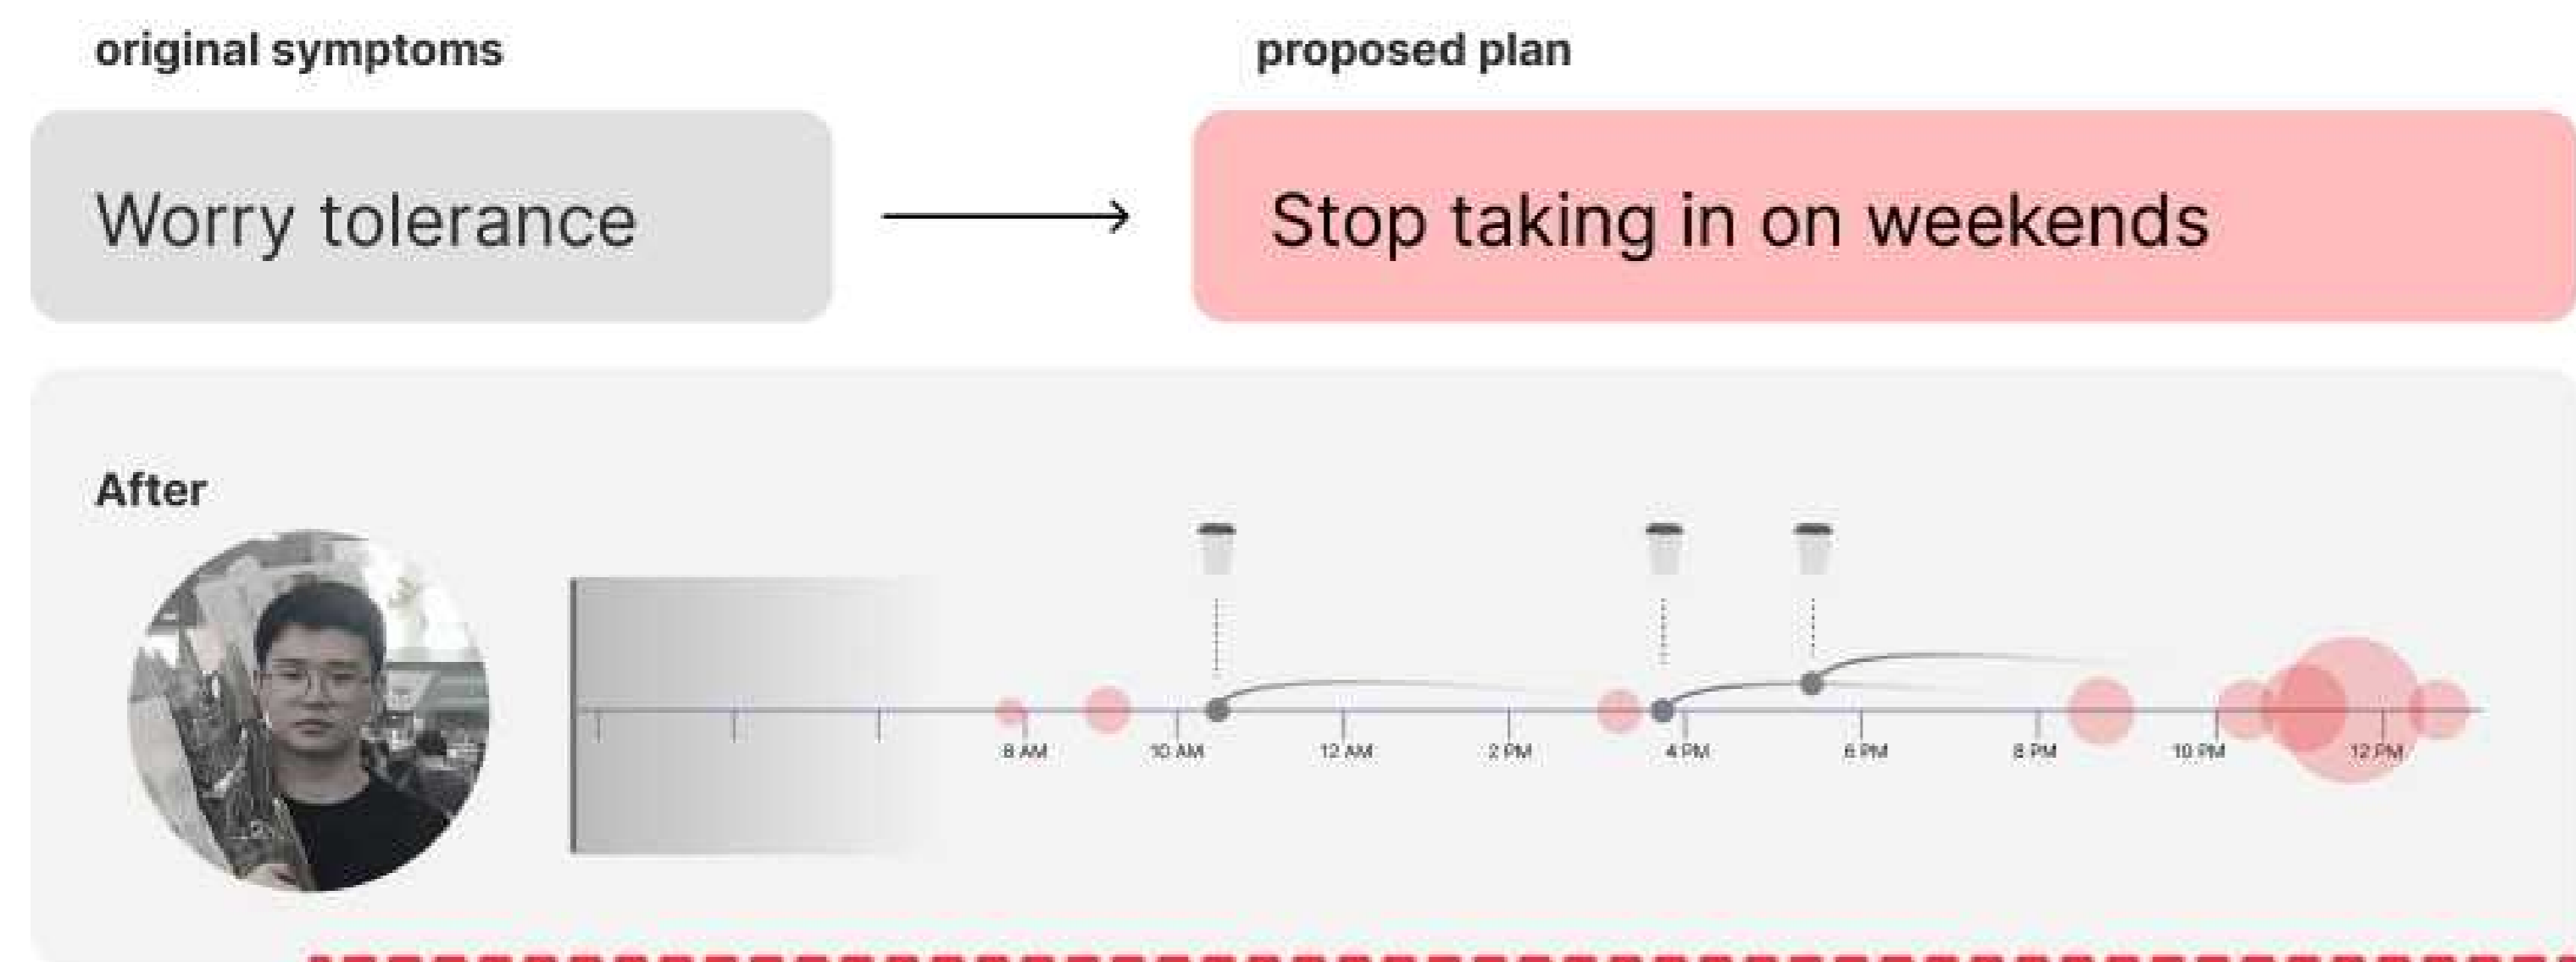

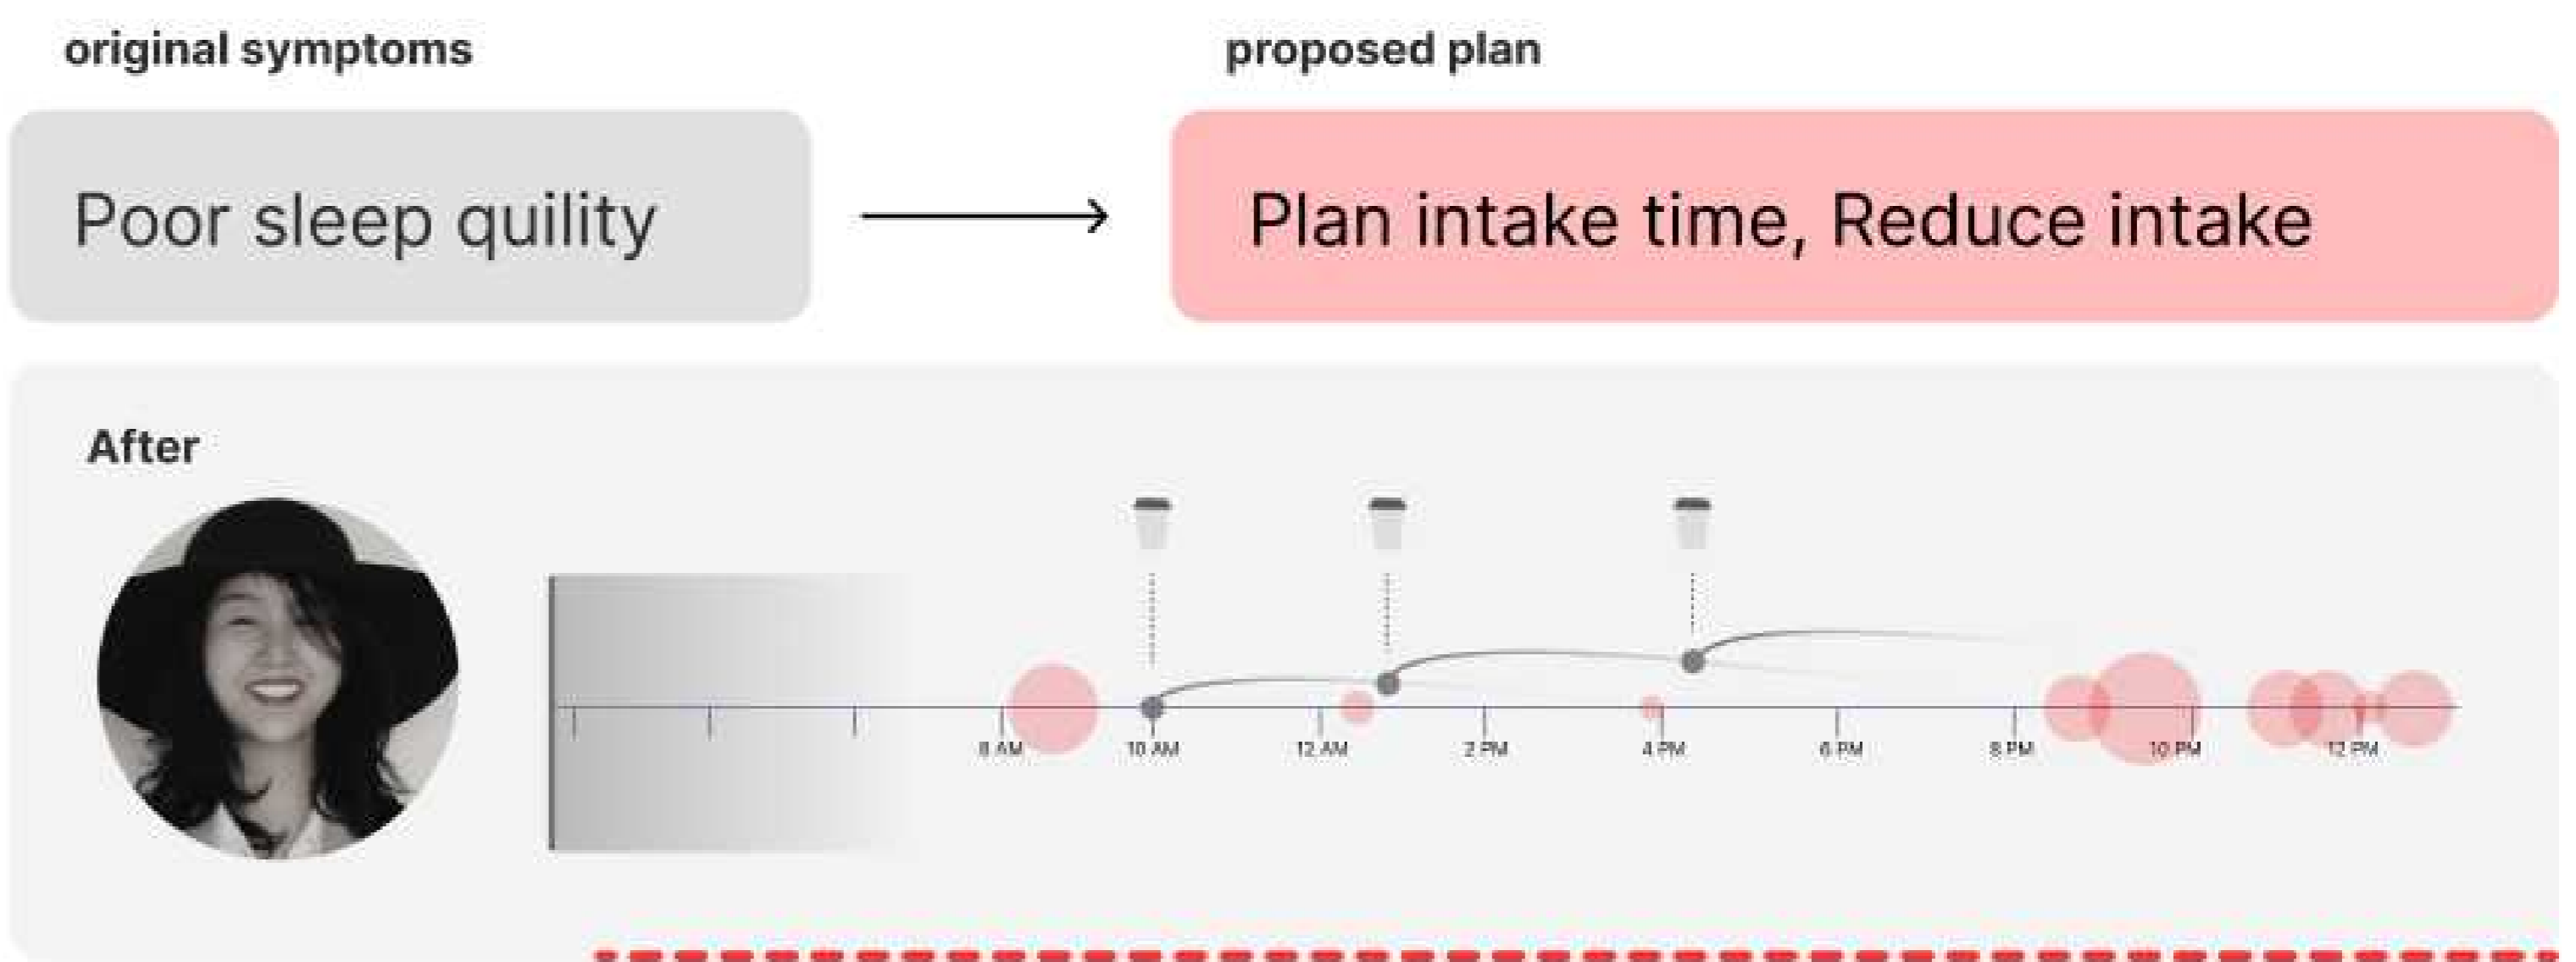

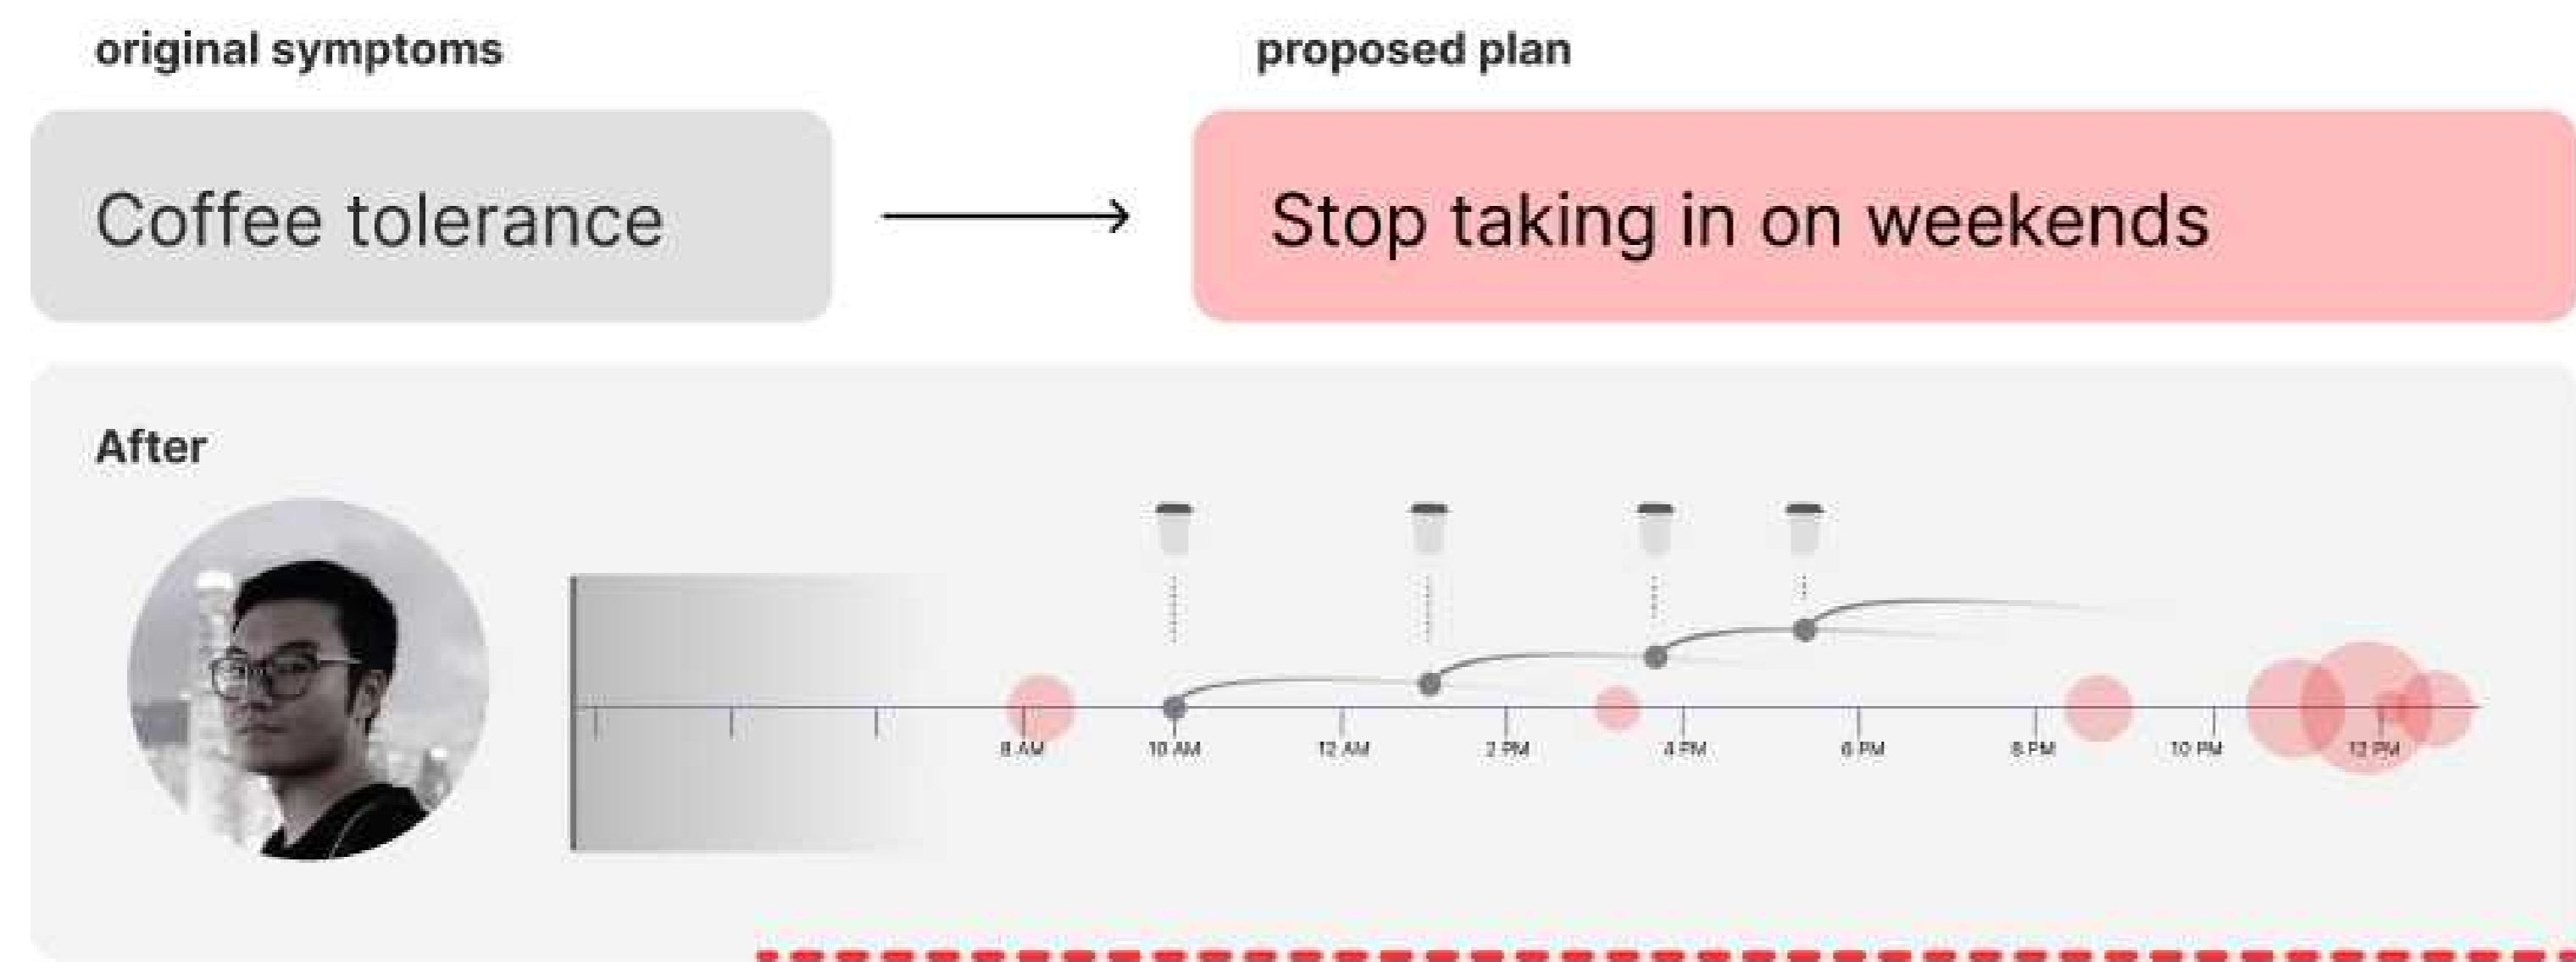

Instrumentalization
of coffee intake

Too much intake
due to tolerance

Excessive intake
causes negative
reactions in the body

How might we make it easier for young students/workers to **consume the right amount of caffeine at the right time**, so that they can have a healthier relationship with coffee?
