

PINSPARK Women's Tennis Skirt

A more comfortable and practical tennis skirt.

Designed Based on Tennis Characteristics

This skirt is inspired by the body movements during tennis sports and optimized based on the sport's characteristics. It offers professional support to tennis players during matches by facilitating easy access to spare tennis balls.

Both Comfortable and Aesthetic

This skirt is crafted from high-stretch cotton-nylon fabric. The wide waistband, paired with a deep V-back design, accentuates the body's curves without constricting the abdomen, ensuring comfort and flexibility during high-intensity sports. Additionally, the oversized hem design lends the skirt a dynamic and elegant visual appeal, making players move freely when running or striking.

Quick-Drying Fabric, Cooling the Body

The fabric is also breathable, along with a mesh lining for rapid sweat absorption and dissipation, maintaining long-lasting dryness. Therefore, this skirt is an ideal option for high-intensity tennis matches.

Unique Pocket Design

The built-in shorts feature two side pockets. The left pocket is ergonomically designed as an inverted pocket for easy storage and retrieval of spare tennis balls, while the right pocket can accommodate a phone or small items.

These thoughtful details enhance practicality, making the skirt versatile for multiple scenarios.

Subtle Blend of Sport and Leisure

This women's tennis skirt not only meets the demands of professional sports but also seamlessly transitions into casual everyday wear with its simple yet unique style, expanding its range of use and extending its lifecycle.
