

DUAL-LIFT BRA

Revealing females' unique
charm and confident beauty with
dual-lift technology

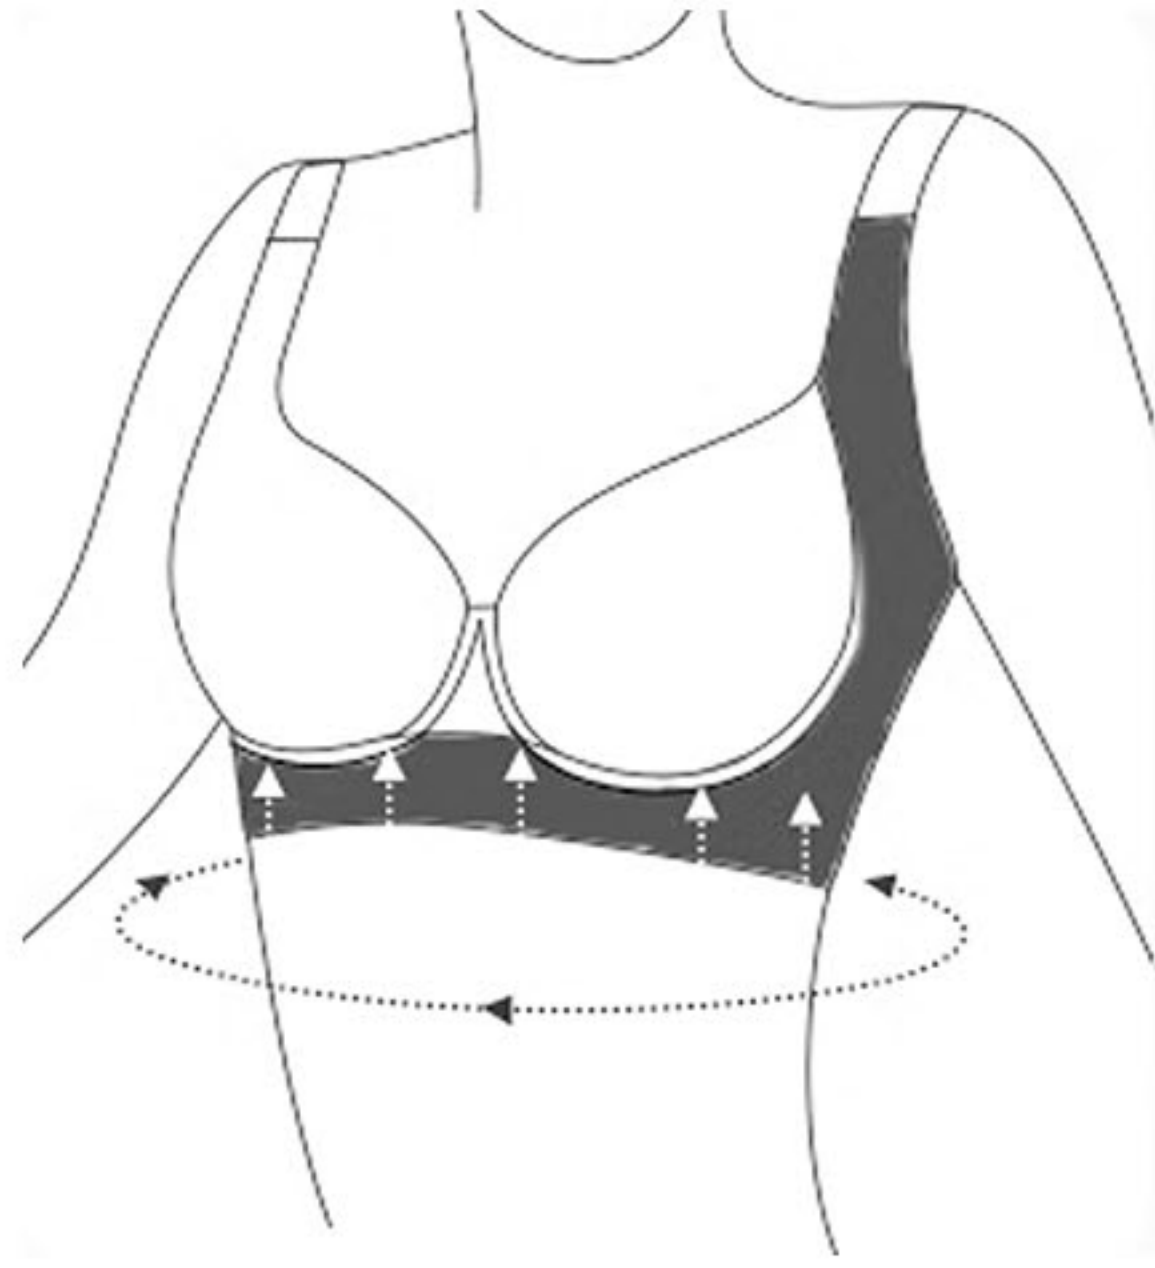

LIFT & SUPPORT TO CRAFT A STUNNING SILHOUETTE

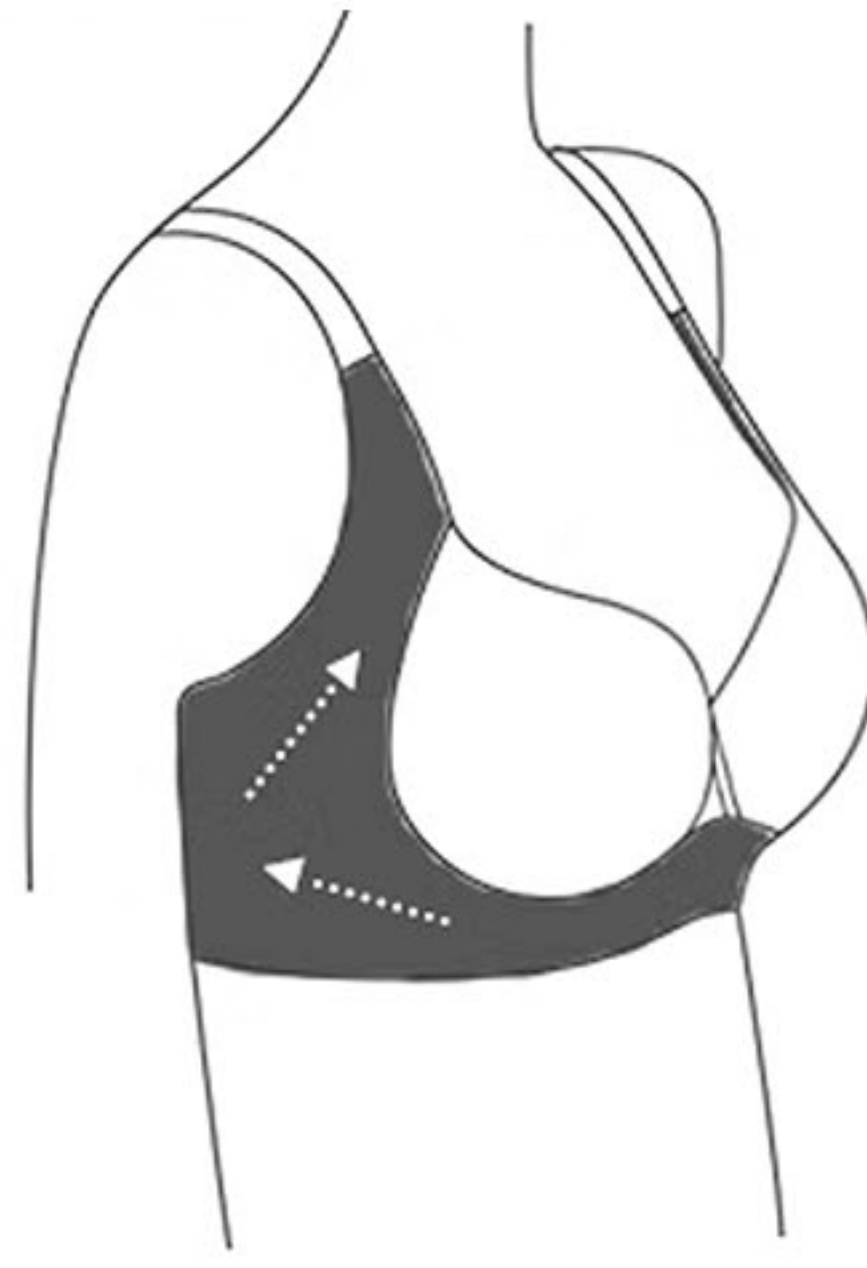

Featuring a 360° supportive lifting strap, the product conforms to the bust shape with a comfortable and balanced three-dimensional force. Paired with the reinforced supportive mesh and breathable push-up cups, it delivers powerful upward support to raise the bustline by 2cm. These elements offer anti-sagging protection during prolonged scientific wear to sculpt a charming and confident posture.

DUAL-LIFT ENGINEERING

The 360° supportive lifting strap, leveraging a Y-shaped mechanical structure, disperses force at 75° at the underbust for upward support and 45° at the side wings to smooth side bulges. This design ensures a more contoured fit to the bust shape and lifts the bust line by 2cm, while offering anti-sagging protection during extended scientific wear.

75° Force Dispersion

45° Force Dispersion

TRIPLE-SUPPORT TECHNOLOGY

The triple-support system includes the dual-lift design, the reinforced supportive mesh at the center front for powerful upward support, and the breathable push-up cups for enhanced lift, effortlessly shaping the perfect feminine curves while ensuring all-day comfort and a skin-friendly feel.

SOFT FABRIC NURTURING NATURAL SKIN

Infused with camellia oil and elastic peptides, the ultra-soft fabric pampers skin with a silky touch. Furthermore, 10A-grade antimicrobial treatment effectively fights E. coli, Staphylococcus aureus, and Candida albicans for enhanced hygiene and safety.

PREMIUM TYPOGRAPHIC PRINT CONVEYING THE BRAND'S WARMTH

The shoulder straps and bust band are adorned with the "YANGSHE" print design, exuding a distinct fashion vibe and rich visual depth. This not only promotes the brand image in the minds of consumers but also conveys brand's philosophy of empowering females to cultivate inner strength and courage from their softest selves.
