## DIRECTOR'S CHAIR

The DirecTi Director's Chair redefines the traditional director's chair by emphasizing the features that made the original design enduring... folding, portability, comfort, and style. Warm teak provides a tactile, welcoming foundation, while titanium rods create an impossibly light yet strong folding mechanism. This thoughtful material pairing results in a chair that feels both grounded and weightless.

"FOR OVER A MILLENNIUM,  
THE CLASSIC DIRECTOR'S  
CHAIR HAS REMAINED  
STEADFAST IN DESIGN AND  
PURPOSE. THE DIRECTI  
CHAIR REINVENTS THE  
CLASSIC...FOR TODAY."

A teak and titanium rod assembly creates the chair's structural legs. The titanium folding mechanism with classic director's chair X geometry utilizes a proven over-center locking design common in folding chairs, allowing the DirecTi Chair to fold to under 6 inches thick. The canvas seat and back stretch taut when unfolded, creating the classic director's chair silhouette with contemporary refinement. A side table complements the chair and serve as an ottoman or stool.
