

Rivora

Organic Modularity: The soft geometry of relaxation and biophilic design

Meditative Tide: Movement converses with stillness, eternity with flow; this responds to humanity's desire for nature and inner healing

Bionics of Pebbles & Water Flows

Rivora moves beyond the rigid straight lines of traditional outdoor furniture, drawing inspiration from nature's softest and most adaptable forms: pebbles and water flows. With its organic, rounded irregular modules, it crafts a boundless space of emotional connection—one that adapts seamlessly to any environment.

Modular Possibilities

Organic irregular modules offer infinite spatial possibilities.

Free combinations of pebble-like modules adapt to diverse layouts (L-shaped, U-shaped, circular, or elliptical) for various house types and scenarios.

A woman with her hair in a bun, wearing a white tank top and leggings, is sitting in a meditative lotus position on a large, modern outdoor sofa. The sofa has a dark, woven frame and a thick, light-colored cushion. It is situated on a wooden deck in a garden with various plants and a wooden fence in the background. The scene is bathed in warm, golden light, suggesting late afternoon or early morning. The sofa's design is organic and flowing, with a curved backrest and armrests. The woman's hands are resting on her knees in a mudra, and her eyes are closed, indicating a state of meditation.

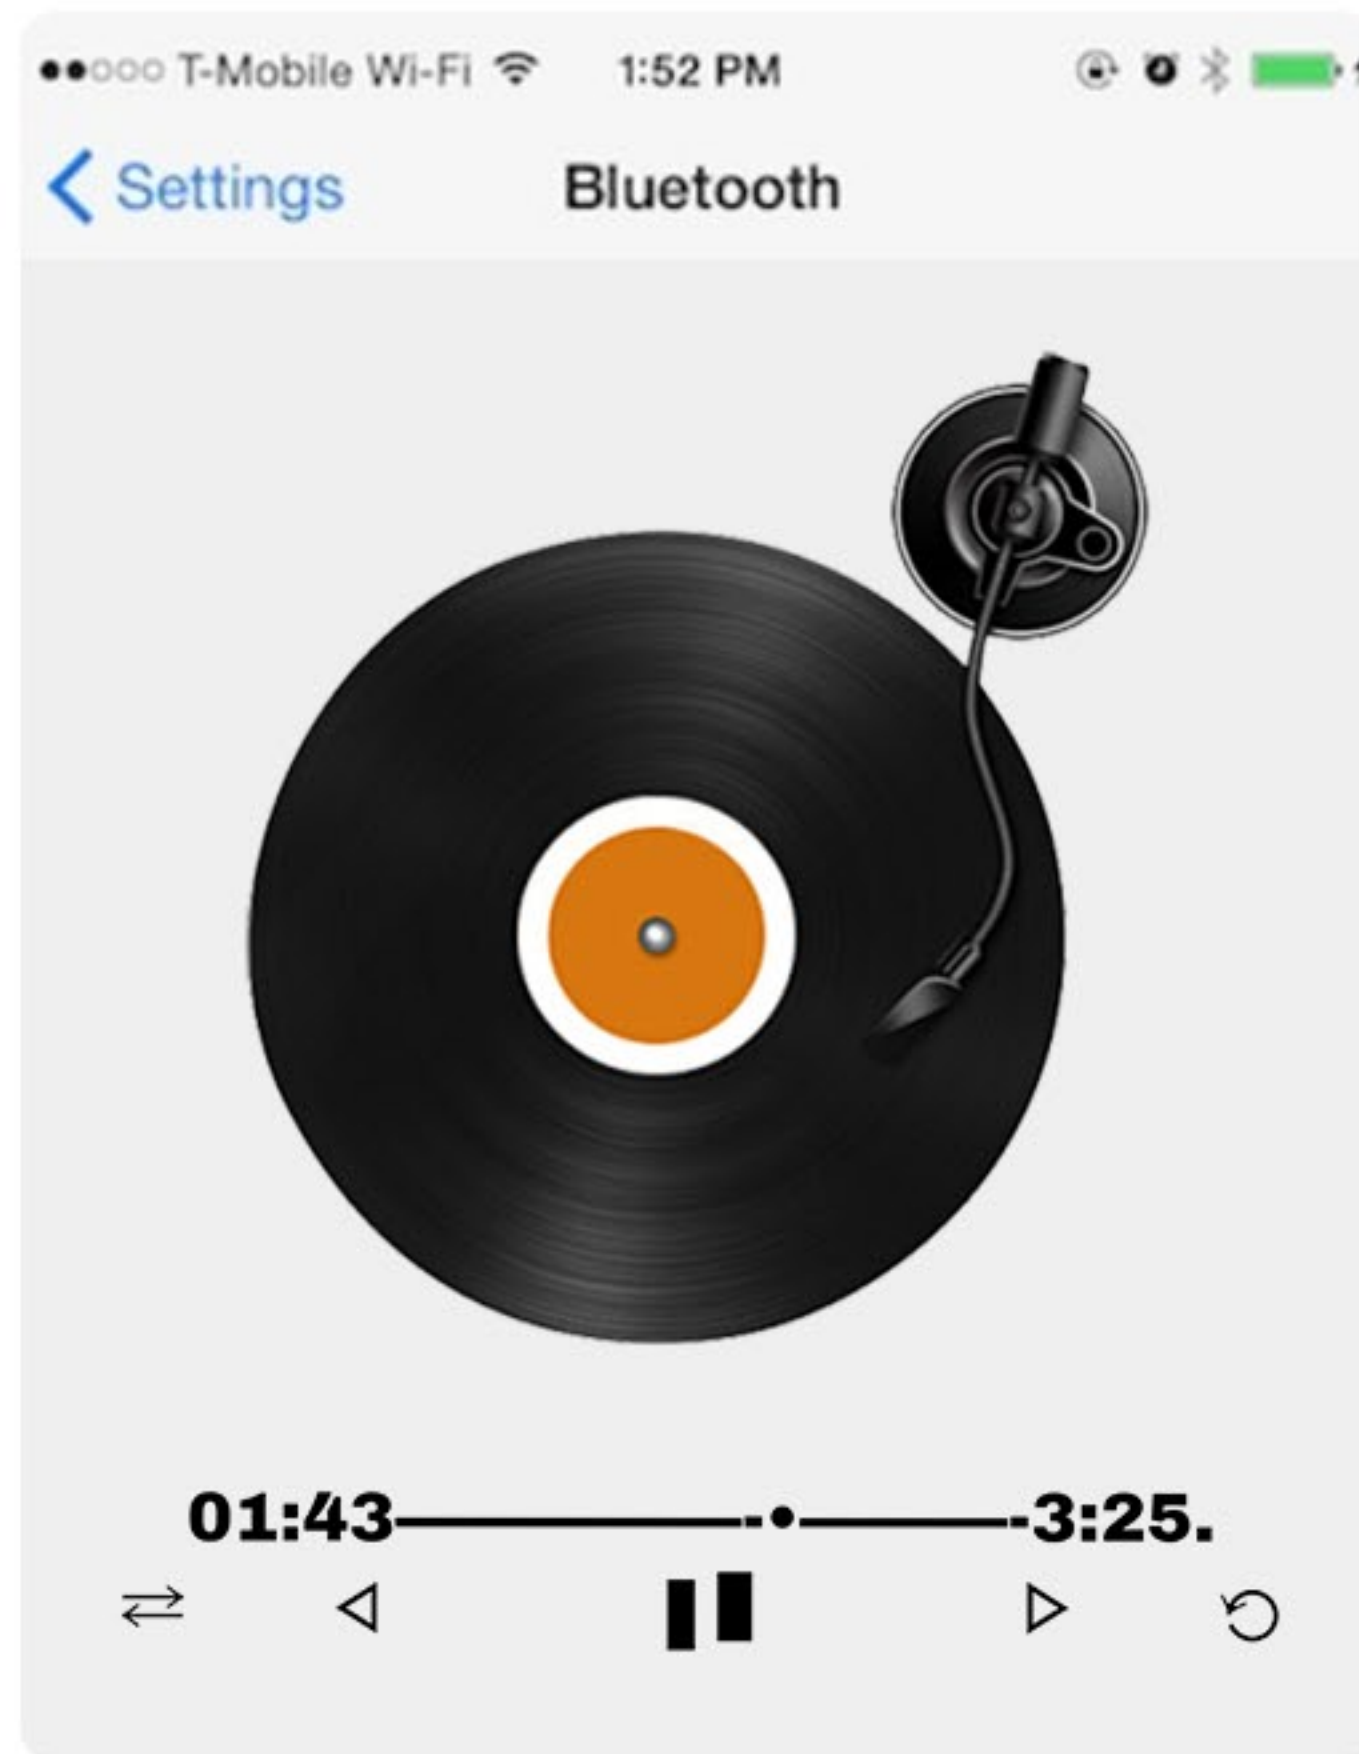

A Breathing Meditation Space

"Rivora" is not merely a sofa, but a vessel of emotion and energy.

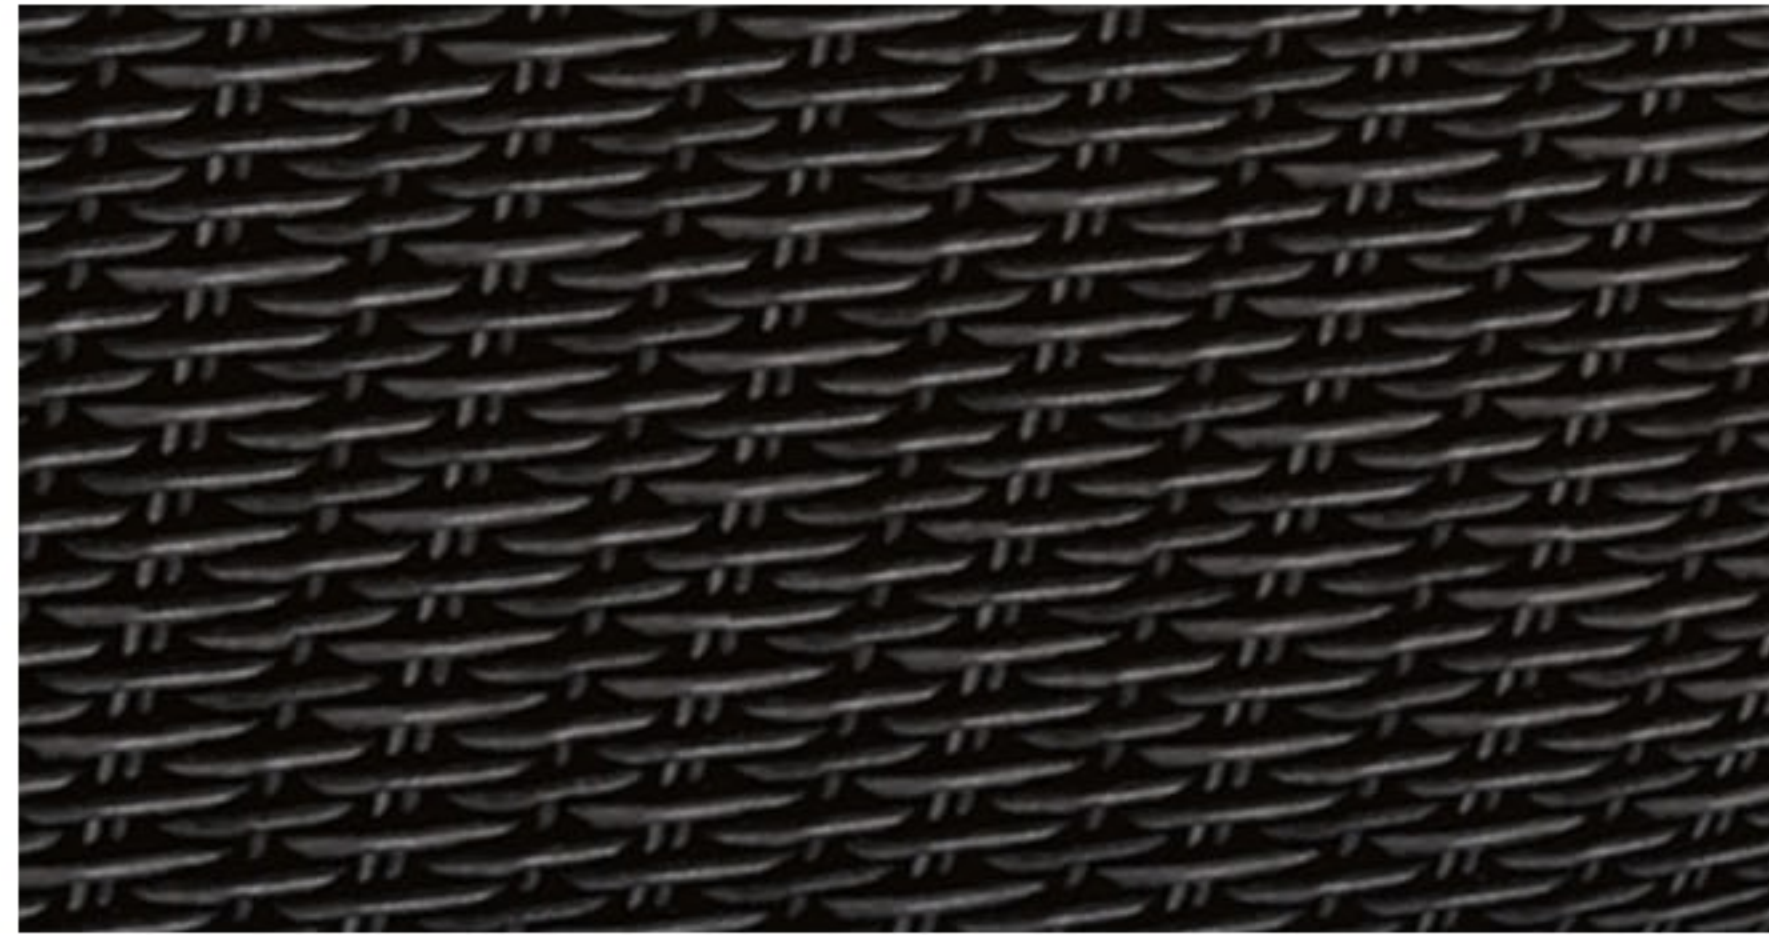

Its pebble-like form embodies nature's stillness and eternity, while the flowing modular arrangements bring spatial rhythm and breathability. As users immerse themselves in it, this breathing space resonates with the mood of light and shadow—blurring the boundary between home and nature, cleansing body and spirit.

Immersive Outdoor Soulful Retreat

Rivora integrates a built-in Bluetooth music breathing-sensing light system. The light changes in sync with the music, in line with breathing rhythms—guiding users into a state of relaxation and meditation through its warm visual appeal and soothing rhythm.

Materials, Technology & Sustainability

Natural textures:

Woven rattan and linen-cotton fabric create a warm, breathable surface.

Sustainable craftsmanship:

Weather-resistant and eco-friendly, balancing lightness with durability for outdoor living.

Versatile settings

From solitary retreat to communal lounge or firepit gathering, it flexibly bridges private and social experiences.
